

# Part B Drug Inflation Rebates

As of April 1, 2023, CarePlus members may pay less for certain drugs covered by Medicare Part B, based on a new and lower “coinsurance” amount. The list of the Part B rebatable drugs is updated every 3 months. The below list is for the eligible drugs as of January 1, 2024.

### How to use this list:

We are providing a list of impacted Part B drugs as well as the adjusted coinsurance percentage. **The standard coinsurance for Part B drugs for Medicare members is 20%.** The coinsurance percentage shown in this list has been adjusted for inflation and will be applied to your share of the Rx cost. If you have questions about the lower cost or feel this has not been applied, please call the number on the back of your CarePlus ID card. Please note, these changes do not apply to Medicare Part D Prescription Drug Coverage.

This list is in alphabetical order and searchable. Click CTRL+F to type in your drug name to search.
