

Commonly prescribed drugs Humana will cover in 2026

The commonly prescribed drug list is a quick reference guide for prescription drugs in select therapeutic categories that will not be covered in 2026 and their available formulary alternatives. This is not an all-inclusive list. Prescription drugs in the formulary alternatives category are the most affordable for Humana-covered patients, who must pay full retail price for nonformulary drugs. A member (or representative) or a prescriber who believes a nonformulary drug is medically necessary may request a formulary exception.
