Humana Healthy Horizons in Florida Prior Authorization and Notification List

Effective date: 01/01/2026

Revision Date: 11/18/2026

Humana Healthy Horizons® in Florida has updated its prior authorization and notification list for Humana Medicaid plans in Florida. The list describes commonly reviewed services and medications.

Obtaining prior authorization may require additional clinical information. Listed medications include those delivered in a provider's office, a clinic, or an outpatient or home setting.

Please note: Prior authorization (i.e., preauthorization, precertification, preadmission) is a process through which a provider is required to obtain advance plan approval to cover an item or service.

Notification refers to the process through which a provider informs Humana of the intent to provide an item or service. Humana requests notification to help coordinate care for Humana-covered patients. Unlike prior authorization, Humana does not issue an approval or denial related to a notification.

Investigational and experimental procedures usually are not covered benefits. Please consult the member's Certificate of Coverage or contact Humana for confirmation of coverage.

Important notes

Medicaid members in Florida: For Medicaid plans in Florida, primary care providers (PCPs) should ensure referrals are in place before providing services.

In addition to the information noted above, certain services outlined on the Medicaid prior authorization and notification list may not be applicable for practitioners affiliated with an independent practice association via a capitated or delegated arrangement. Please refer to your provider agreement for clarification.

Exclusions may change, so please refer to the provider prior authorization notification lists website for up-to-date information.

Humana Medicare Advantage (MA) and dual Medicare-Medicaid plans:

This list **does not** affect Humana MA or dual Medicare-Medicaid plans. For a list of prior authorization requirements, please visit our prior authorization website.

Humana Healthy Horizons® in Florida

***** New preauthorization requirement
† New-to-market drug addition
‡ All shared Healthcare Common Procedure Coding System (HCPCS) codes and not otherwise classified codes require a corresponding National Drug Code to be billed on all claims.
†† Preauthorization requests will be reviewed by the Humana National Transplant Network and can be submitted by fax to 502-508-9300, by phone at 866-421-5663, Monday – Friday, 7 a.m. – 7 p.m., Central time, or by email to transplant@humana.com.

Urgent/emergent services do not require a referral or prior authorization.

Failure to obtain authorization/notification prior to the date of service could result in financial penalties for the practice and reduced member benefits based on the healthcare provider's contract and the member's Certificate of Coverage. Services or medications provided without prior authorization may be subject to retrospective medical necessity review. We recommend an individual practitioner making a specific request for services or medications verify benefits and prior authorization requirements with Humana prior to providing services.

How to request a prior authorization for professionally administered prescription drugs:

Except where noted on the following pages, prior authorization requests for medications may be initiated by one of the methods below:

- Online: CoverMyMeds
- Fax: 888-447-3430 (You can find request forms on the prior authorization for professionally administered drugs website.)
- Phone number: 866-461-7273, Monday – Friday, 8 a.m. – 11 p.m., Eastern time

This list is subject to change with notification, and this list may be modified throughout the year for additions of new-to-market medications without notification via United States Postal Service mail.
