

Humana Dual Fully Integrated Illinois prior authorization and notification list

Effective Date: 01/01/2026

Revision Date: 04/15/2026

We have updated our prior authorization and notification list for Humana Dual Fully Integrated (health maintenance organization Dual Eligible Special Needs Plan [HMO D-SNP]) Illinois plans.

Please note the term “prior authorization” (preauthorization, precertification), when used in this communication, is defined as a process through which the healthcare provider is required to obtain advance approval from the plan as to whether an item or service will be covered.

The list details medications (i.e., medications that are delivered in the provider’s office, clinic, outpatient or home setting) that require prior authorization before being provided or administered. Services must be provided according to Medicare coverage guidelines established by the Centers for Medicare & Medicaid Services (CMS). According to the guidelines, all medical care, services, supplies and equipment must be medically necessary. You can review Medicare coverage guidelines [on the CMS website](#).

To view Humana’s Medical and Pharmacy Coverage Policies, please visit [Humana's Medical and Pharmacy Coverage Policies website](#).

Investigational and experimental procedures and devices usually are not covered benefits. Please consult the patient’s Evidence of Coverage or contact Humana for confirmation of coverage.

Please note that certain services may not be covered under the member’s plan.

Important notes:

Humana Medicare Advantage (MA) HMO: The full list of prior authorization requirements applies to patients with Humana MA HMO and HMO point-of-service (HMO POS) coverage. Healthcare providers who participate in an independent practice association (IPA) or other risk network with delegated services are subject to the PAL and should refer to their IPA or risk network for guidance on processing their requests. Exclusions may change, so please refer to [Humana's provider website](#) for the most up-to-date information.

All Humana MA plans: For procedures or services that are investigational or experimental (or that may have limited benefit coverage), or to learn if Humana will pay for a service, you can request an advanced coverage determination (ACD) on behalf of the patient prior to providing the service. You may be contacted if additional information is needed.

* New preauthorization requirement

† New-to-market drug addition

‡ All shared Healthcare Common Procedure Coding System (HCPCS) codes and not otherwise classified codes require a corresponding National Drug Code to be billed on all claims.

** Step therapy required through a Humana-preferred drug as part of preauthorization.

†† Preauthorization requests will be reviewed by the Humana National Transplant Network and can be submitted by fax to 502-508-9300, by phone at 866-421-5663, Monday – Friday, 7 a.m. – 7 p.m., Central time, or by email to transplant@humana.com.

ACDs for medications on the list can be initiated by submitting a fax or phone request. Submit by phone at 866-461-7273 (TTY: 711), Monday – Friday, 8 a.m. – 11 p.m., Eastern time, or by fax to 888-447-3430.

To prevent disruption of care, Humana does not require prior authorization for basic Medicare benefits during the first 90 days of a new member's enrollment for active courses of treatment that started prior to enrollment. Humana may review services furnished during an active course of treatment against permissible coverage criteria when determining payment. To ensure appropriate claim payment, please include the modifier based on Humana's Medicare Advantage Payment Policy (CP2023011), which can be found on [Humana's claims payment policies website](#), or include medical records with evidence that the member is in an active course of treatment.

Additional information related to step therapy for Medicare Part B medications:

Humana's Medicare Part B Step Therapy Preferred Drug List (PDL), which includes background information about the program and a comprehensive list of preferred and nonpreferred medications, is available at [Humana's provider prior authorization notification lists website](#).

Some step therapy strategies for Medicare Advantage prescription drug plans may require a trial of a preferred medication across different benefits, such as Medicare Part B and Part D. Details regarding these cross-benefit strategies can be found on Humana's Part B Step Therapy PDL, which is available on [Humana's provider prior authorization notification lists website](#).

Humana's Part B Step Therapy PDL should be reviewed in conjunction with Humana's coverage policies, which are accessible on Humana's [Medical and Pharmacy Coverage Policies website](#).

The designation of preferred status does not guarantee exemption from step therapy requirements. Please refer to the specific criteria contained in our coverage criteria policies, which is available on Humana's [Medical and Pharmacy Coverage Policies website](#). Affected medications are noted with a step therapy indicator on the Medicare PAL at [Humana's provider prior authorization notification lists website](#).

If providers do not stock a preferred medication, they may be able to obtain the preferred medication from a pharmacy (e.g., a pharmacy can ship the medication to the office). Please review our list of specialty and mail-order pharmacies at [Humana's mail-order webpage](#) to select a pharmacy that can provide the medication. A full list of pharmacies also is available on the [pharmacy finder tool](#).

If you have questions, please call us at 800-457-4708 (TTY: 711), daily, 8 a.m. – 8 p.m., Eastern time. However, please note that our automated phone system may answer your call during weekends and holidays from April 1 to Sept. 30. Please leave your name and phone number and we'll call you back by the end of the next business day. For 24-hour service, please visit [Humana's website](#).

Please note that urgent/emergent services do not require referrals or prior authorizations.

* New preauthorization requirement

† New-to-market drug addition

‡ All shared Healthcare Common Procedure Coding System (HCPCS) codes and not otherwise classified codes require a corresponding National Drug Code to be billed on all claims.

** Step therapy required through a Humana-preferred drug as part of preauthorization.

†† Preauthorization requests will be reviewed by the Humana National Transplant Network and can be submitted by fax to 502-508-9300, by phone at 866-421-5663, Monday – Friday, 7 a.m. – 7 p.m., Central time, or by email to transplant@humana.com.

Not obtaining prior authorization for a service could result in financial penalties for the practice and reduced benefits for the patient based on the healthcare provider's contract and the patient's Evidence of Coverage. Services or medications provided without prior authorization may be subject to retrospective medical necessity review. We recommend that an individual practitioner making a specific request for services or medications verify benefits and prior authorization requirements with Humana prior to providing services.

Information required for a prior authorization request or notification may include, but is not limited to, the following:

- Patient name, date of birth and Humana member ID number
- Date of actual service or hospital admission
- Healthcare Common Procedure Coding System (HCPCS) code(s) and diagnosis codes (primary and secondary) (up to a maximum of 6 per authorization request)
- Service location
 - Outpatient (telehealth, office, home, off-campus outpatient hospital, on-campus outpatient hospital or ambulatory surgery center)
- Tax Identification Number (TIN), National Provider Identifier (NPI) of facility where service is being rendered, and TIN and NPI number of the provider performing the service
- Caller/requester name and phone number and attending provider's phone number
- Relevant clinical information

Submitting all relevant clinical information at the time of the request will help expedite determination. If additional clinical information is required, a Humana representative will request the specific information needed to complete the authorization process.

How to request prior authorization:

Except where noted in the list below, prior authorization for medications may be initiated in one of 3 ways:

- Online: [CoverMyMeds](#)
- Phone number: 866-461-7273 (TTY: 711), Monday – Friday, 8 a.m. – 11 p.m., Eastern time
- Fax number: 888-447-3430 (Request forms are available on Humana's [prior authorization for professionally administered drugs website](#).)

The list below is subject to change with notification and may be modified throughout the year for additions of new-to-market medications or step therapy requirements for medications without notification by United States Postal Service mail.

* New preauthorization requirement

† New-to-market drug addition

‡ All shared Healthcare Common Procedure Coding System (HCPCS) codes and not otherwise classified codes require a corresponding National Drug Code to be billed on all claims.

** Step therapy required through a Humana-preferred drug as part of preauthorization.

†† Preauthorization requests will be reviewed by the Humana National Transplant Network and can be submitted by fax to 502-508-9300, by phone at 866-421-5663, Monday – Friday, 7 a.m. – 7 p.m., Central time, or by email to transplant@humana.com.
