

## Humana Healthy Horizons in Indiana prior authorization and notification list for provider-administered medications

**Effective date:** 01/01/2026

**Revision date:** 04/15/2026

**Please note:** Authorization is not a guarantee of payment, so please check all applicable resources. The following list describes services and medications that are commonly reviewed and may require additional clinical information. Medications include those that are delivered in the healthcare provider's office, a clinic, and an outpatient or home setting.

Please note the term "prior authorization," also known as precertification and preauthorization, refers to a process that requires healthcare providers to obtain advance approval from the plan as to whether an item or service may be covered.

"Notification" refers to the process by which a healthcare provider notifies Humana Healthy Horizons® of Indiana of its intent to provide an item or service. Humana Healthy Horizons requests notification to help coordinate care for its Indiana PathWays for Aging members. This process differs from prior authorization. Humana Healthy Horizons does not issue an approval or denial related to a notification.

### Important notes

Emergent services do not require a referral or prior authorization.

A provider may request urgent prior authorization in situations where the provider considers a delay in providing services, supplies or prescription drugs requiring prior authorization to be detrimental to the health of the consumer.

The absence of authorization and/or notification prior to the date of service could result in financial penalties for the practice and reduced benefits for the member based on the healthcare provider's contract and the member's Evidence of Coverage. Services or medications provided without prior authorization may be subject to retrospective medical necessity review.

† New-to-market drug addition

‡ All shared Healthcare Common Procedure Coding System (HCPCS) codes and not otherwise classified codes require a corresponding National Drug Code to be billed on all claims.

†† Preauthorization requests will be reviewed by the Humana National Transplant Network and can be submitted by fax to 502-508-9300, by phone at 866-421-5663, Monday – Friday, 7 a.m. – 7 p.m., Central time, or by email to [transplant@humana.com](mailto:transplant@humana.com).

Humana Healthy Horizons in Indiana is a Medicaid Product of Arcadian Health Plan, Inc.

## How to request prior authorization for provider-administered medications

Humana handles all prior authorization requests for medications typically received as an injection at a healthcare provider's office. The prior authorization can be initiated by one of the methods below:

- Online (preferred): [CoverMyMeds website](#)
- Fax: 888-447-3430 (You can find request forms on [Humana's prior authorization for professionally administered drugs website.](#))
- Phone: 866-461-7273 (TTY: 711), Monday – Friday, 8 a.m. – 11 p.m. Eastern time

**This list is subject to change.** A summary of changes can be found on [Humana's provider prior authorization notification lists website.](#) New-to-market medications may be added throughout the year without notification.
