

Humana Healthy Horizons in Louisiana

Prior Authorization and Notification List

Effective date: 01/01/2026

Revision date: 05/27/2026

The PAL describe services and medications that are commonly reviewed and may require additional clinical information. Medications include those delivered in a provider's office, a clinic, and an outpatient or home setting.

Please note that prior authorization (PA), also known as precertification and preauthorization, is a process through which the healthcare provider is required to obtain advance approval from the plan as to whether an item or service will be covered.

"Notification" refers to the process when the healthcare provider notifies Humana of the intent to provide an item or service. Humana requests notification to help coordinate care for Humana-covered patients. This process is distinguished from PA. Humana does not issue an approval or denial related to a notification.

Investigational and experimental procedures usually are not covered benefits. Please consult the patient's Evidence of Coverage or contact Humana for confirmation of coverage.

Important notes:

Humana Healthy Horizons® in Louisiana members:

In addition to the information noted above, certain services outlined in the Medicaid PAL may not be applicable for practitioners affiliated with an independent practice association via a capitated or delegated arrangement. Please refer to your provider agreement for clarification.

Exclusions may change, so please refer to Humana's provider website for up-to-date information. The PAL list below only applies to Humana Healthy Horizons in Louisiana, so it does not impact Humana Medicare or other state Medicaid plans.

Emergent services do not require a referral or PA.

The absence of authorization and/or notification prior to the date of service could result in financial penalties for the practice and reduced benefits for the member, based on the healthcare provider's contract and the member's Evidence of Coverage.
