

Humana Healthy Horizons in Oklahoma Prior Authorization and Notification List

Effective date: 01/01/2026

Revision date: 05/06/2026

The following prior authorization and notification list describes services and medications that are commonly reviewed and may require additional clinical information. The listed medications include those delivered in the healthcare provider's office, a clinic, or an outpatient or home setting.

Please note that prior authorization, also known as precertification and preauthorization, is a process through which a healthcare provider is required to obtain advance approval from the plan as to whether an item or service will be covered.

Notification refers to the process through which a healthcare provider informs Humana of the intent to provide an item or service. Humana requests notification to help coordinate care for Humana-covered patients. This process is distinguished from prior authorization. Humana does not issue an approval or denial related to a notification. Investigational and experimental procedures usually are not covered benefits. Please contact Humana for confirmation of coverage.

Important notes: Emergent services do not require a referral or prior authorization.

A provider may request urgent prior authorization in situations where the provider considers a delay in providing services, supplies or medications requiring prior authorization to be detrimental to the member's health. The absence of authorization and/or notification prior to the date of service could result in financial penalties for the practice and reduced benefits for the member. Based on the healthcare provider's contract and the member's Certificate of Coverage, services or medications provided without prior authorization may be subject to retrospective medical necessity review.

Humana recommends individual practitioners verify a member's benefits and our prior authorization requirements before providing services or medications.

How to request prior authorization for provider-administered medications:

Humana handles all prior authorization requests for medications typically given by injection at a healthcare provider's office.

Humana Healthy Horizons® in Oklahoma

All medical necessity and prior authorization reviews will follow criteria provided by the Oklahoma Health Care Authority.

† New-to-market drug addition

‡ All shared Healthcare Common Procedure Coding System (HCPCS) codes and not otherwise classified codes require a corresponding National Drug Code to be billed on all claims.

†† Preauthorization requests will be reviewed by the Humana National Transplant Network and can be submitted by fax to 502-508-9300, by phone at 866-421-5663, Monday – Friday, 7 a.m. – 7 p.m., Central time, or by email to transplant@humana.com.

Humana Healthy Horizons in Oklahoma is a Medicaid product of Humana Wisconsin Health Organization Insurance Corporation.

Prior authorization requests can be initiated by one of the options below:

- Online: [CoverMyMeds](#)
- Fax: 888-447-3430 (You can find request forms at Humana’s prior authorization for professionally administered drugs website.)
- Phone: 866-461-7273 (TTY: 711), Monday – Friday, 8 a.m. – 11 p.m., Eastern time

This list is subject to change. A summary of changes can be found on Humana’s [provider prior authorization notification lists website](#). New-to-market medications may be added throughout the year without notification.
