

## Humana Healthy Horizons in South Carolina prior authorization and notification list

**Effective date:** 01/01/2026

**Revision date:** 04/29/2026

The following list describes services and medications that are commonly reviewed and may require additional clinical information. Listed medications include those delivered in the provider's office, a clinic, or an outpatient or home setting.

Please note that the term prior authorization, also known as preauthorization and precertification, is a process through which the provider is required to obtain advance approval from the plan as to whether an item or service will be covered.

Notification refers to the process through which a provider informs Humana of the intent to provide an item or service. Humana requests notification to help coordinate care for Humana-covered patients. This process is distinguished from prior authorization. Humana does not issue an approval or denial related to a notification.

Investigational and experimental procedures usually are not covered benefits. Please consult the patient's Certificate of Coverage or contact Humana for confirmation of coverage.

### Important notes

#### Medicaid recipients in South Carolina:

In addition to the information noted above, certain services outlined in the Medicaid prior authorization and notification list may not be applicable for providers affiliated with an independent practice association via a capitated or delegated arrangement. Please refer to your provider agreement for clarification.

Exclusions may change, so please refer to [Humana's provider website](#) for up-to-date information.

The enclosed prior authorization and notification list applies only to Humana Healthy Horizons® in South Carolina. It does not apply to Humana commercial, Medicare or other state Medicaid plans.

Emergent services do not require a referral or prior authorization.
