

## Provider's Guide

Learning & Development | 2024

We will begin in a few minutes

**CarePlus**  
HEALTH PLANS®

# Objectives

By the end of the module, you will be able to:

- Determine the appropriate processing timeframes for submissions
- Distinguish the dos and don'ts of submitting a request
- Use of Availity and Provider Web Services (PWS) to:
  - View member benefits and eligibility
  - Submit, review, and update preauthorization requests
  - Identify network specialty and ancillary providers
  - Submit and view claims information (including pharmacy claims information)
- Understand how and when to submit preauthorization requests
- Identify expedited requests and member requests

## Turnaround Times

Expedited requests are appropriate when the standard time frame for making a determination could seriously jeopardize the life or health of the member or the member's ability to regain maximum function. 42 C.F.R. § 422.570(c)(2).

# Turnaround Times (TAT)

Compliance guidelines – TAT for processing authorization request:

“Organization Determinations,” Centers for Medicare & Medicaid Services, last accessed March 13, 2024, <https://www.cms.gov/medicare/appeals-and-grievances/mmcag/downloads/parts-c-and-d-enrollee-grievances-organization-coverage-determinations-and-appeals-guidance.pdf>

## Best Practices

CarePlus  
HEALTH PLANS®

# Best Practices

Complete a new request form for each member.

Inform your patient that you/your practice submitted the preauthorization request.

All requests must be accompanied by clinical documentation.

- Get additional information in our [Quick Reference Prior Authorization Guide](#) on our website

Check to ensure all information in the request is accurate.

Submit requests with appropriate timeframes. If urgent, please ensure requests meet CMS expedited criteria.

Note: You can only submit expedited requests by phone or fax. You cannot submit expedited requests in PWS or Availity.

Provide the reason for the referral to the nonparticipating provider and/or facility (e.g., the member is established with the provider, etc.).

# Referral vs. Preauthorization

## Referral

A written or verbal approval **provided by the primary care physician (PCP)** to see a specialist or to receive other healthcare services

## Preauthorization

**A decision by the health plan** that a service, treatment plan, prescription drug or durable medical equipment is medically necessary

Note: CarePlus will process requests via any method a provider uses, such as phone, fax, or web, to submit a referral to a specialist or request a preauthorization.

# Referral vs Preauthorization

The Evidence of Coverage (EOC) explains how referrals work.

## SECTION 2 Use providers in the plan's network to get your medical care

### Section 2.1 You must choose a Primary Care Provider (PCP) to provide and oversee your medical care

#### What is a PCP and what does the PCP do for you?

When you become a member of our plan, you must choose a network provider within your plan's service area to be your PCP. Your PCP is a provider who meets state requirements and is trained to give you basic medical care. Your *Provider Directory* will indicate which providers may act as your PCP. As we explain below, you can get your routine or basic care from your PCP. Your PCP can also coordinate the rest of the covered services you get as a plan member. For example, in order to see a network specialist, you usually need to get your PCP's approval first (this is called getting a "referral" to a specialist).

**CarePlus Health Plans Preauthorization List (PAL)**

We are committed to improving the health and well-being of our members while reducing barriers to healthcare. The documents below list services and medications that require preauthorization for your patients with coverage from CarePlus.

**Important Information:** After reviewing a preauthorization request, we will let our member, their primary care provider (PCP), and the requesting provider if not the member's PCP know whether the request has been fully approved, partially approved, or denied. If we deny the request, we also include information about the coverage guidelines and policies we used to make our decision.
