

# 2025 Group Medicare Commonly Prescribed Medications List

The commonly prescribed medication list is a guide to medications in select therapeutic categories.

**This is not a complete list.** For a complete medication listing, please consult the Prescription Drug Guide (PDG). Medications listed in the "Medications Tier 1, 2" column are covered and are the most affordable. Medications listed in the "Medications Tier 3, 4" column are covered, but at a higher member cost share. Medications listed in the "Medications Not Covered" column may require a coverage determination.

## Group Plus Formulary (25800)

Tier level for each medication is listed in parentheses after the medication name.

PA = Prior Authorization, ST = Step Therapy

### How to use this document

- Compare your current medication list to this document to determine if any of the medications you are taking are not covered or if there are lower cost alternatives available.
- If one of your current medications is not covered, covered at a higher tier, or requires prior authorization/step therapy, you and your healthcare provider can review your covered options to determine if a change is needed.

Category	Medications Tier 1, 2	Medications Tier 3, 4	Medications Not Covered
Antidepressants	citalopram tablet (T1) duloxetine capsule, delayed release (T1) escitalopram tablet (T1) fluoxetine capsule (T1) sertraline tablet (T1) trazodone tablet (T1) venlafaxine ER capsule, extended release 24 hr (T1)	Cymbalta capsule, delayed release (T3) (PA) Effexor XR capsule, extended release (T3) (PA) Fetzima capsule, extended release (T3) (PA) Lexapro tablet (T3) (PA)	None
Antipsychotics	ariPIPrazole tablet (T1) olanzapine tablet (T1) quetiapine ER tablet, extended release 24 hr (T1) quetiapine tablet (T1) risperidone tablet (T1) ziprasidone capsule (T1)	Abilify tablet (T3) (PA) Fanapt tablets in a dose pack (T3) (PA) Latuda tablet (T4) (PA) Rexulti tablet (T4) (PA) Saphris sublingual tablet (T4) (PA)	None
Anxiety	alprazolam tablet (T1)	Ativan tablet (T4) (PA)	None
