

Provider's Guide

Learning & Development | 2025

We will begin in a few minutes.

CarePlus
HEALTH PLANS®

Objectives

By the end of the module, you will be able to:

- ❑ Understand the timeframes CarePlus (CPHP) has after a submission is received
- ❑ Distinguish the dos and don'ts of submitting a request
- ❑ Use of web portals to:
 - View member benefits and eligibility
 - Submit, review, and update preauthorization requests
 - Identify network specialty and ancillary providers
 - Submit and view claims information (including pharmacy claims information)
- ❑ Understand how and when to submit preauthorization requests
- ❑ Identify expedited requests and member requests

Important Information

Inpatient Only List

The Inpatient (IP) Only List contains codes of service that are to be performed only in an inpatient setting. CarePlus will conduct outreach to confirm accuracy of request for IP only codes at an outpatient facility.

Best practices for providers:

- Verify the Inpatient Only List to confirm presence of codes being requested
- If services are on the Inpatient Only List, request should include an inpatient facility

Note: Submitting IP Only codes at an outpatient setting can cause delay in care and/or potential for administrative denials.

For more information, visit: [Quarterly Addenda Updates | CMS](#)

Inpatient Only List Example

If a code is on the Inpatient Only List, CarePlus will not authorize the service for an outpatient level of care.

Appeals Time Frame

Per Centers for Medicare & Medicaid Services (CMS) Final Rule, the appeals timeframe is now 65 days (previously 60), allowing providers, members, and their representatives additional days to appeal a denial.

Turnaround Times

CarePlus works to decision auth requests as soon as possible, but generally you can expect a decision no later than these timeframes:

Current state:

- **Standard requests** → Part C: 14 calendar days, Part B: 72 hours
 - **Expedited requests** → Part C: 72 hours, Part B: 24 hours
-

Future state (2026):

- **Standard requests** → Part C: **7 calendar days**, Part B: 72 hours
- **Expedited requests** → Part C: 72 hours, Part B: 24 hours

Best Practices

Best Practices

Complete a new request form for each member.

Inform your patient that you/your practice submitted the preauthorization request.

All requests must be accompanied by clinical documentation.

- Find additional information from the [Quick Reference Preauthorization Guide](#) on our website

Double-check all information for accuracy and verify that there are no duplicate submissions to avoid delays or denials.

Submit requests within appropriate timeframes. If urgent, please ensure requests meet CMS-expedited criteria.

Note: You can only submit expedited requests by phone or fax. You cannot submit expedited requests in the portals.

Provide the reason for the referral to the nonparticipating provider and/or facility (e.g., the member is established with the provider, etc.).

Services Requiring Clinical Documentation

The Quick Reference Preauthorization Guide provides an overview of the required clinical documentation needed for an appropriate medical necessity review to take place.

CarePlus
HEALTH PLANS

Quick Reference Preauthorization Guide

We are committed to improving the health and well-being of our members while reducing barriers to healthcare.

This Quick Reference Preauthorization Guide is part of our effort to improve the turnaround time of authorization of authorization.

Before submitting services/items for preauthorization, please ensure that the services are delivered in the member's home before services.

Please submit a request for preauthorization for primary care physician (PCP) or other relevant services.

Non-participating providers (non-participating providers) are not eligible for preauthorization.

We also need the following information:

- PCP or other relevant services
- Valid identification
- Quantitative information
- Number of services

Inpatient or other services.

Expedited request: provider line at Services (CMS) or ability to request applied."

* Submitting all relevant clinical information request and request.

335605FL1023

Service	Information Needed
Bariatric surgery	Any comorbidity related to obesity (e.g., hypertension, diabetes mellitus, hyperlipidemia) Bariatric surgery notes Endocrinology notes (last 90 days) Height and weight or body mass index Nutritionist notes (last 90 days) Records from specialist
Blepharoplasty	Diagnosis code Ophthalmology records, including visual fields (taped and untaped) Photographs
Chemotherapy	Endocrinology records (last 90 days) Laboratory results (last 90 days) Neurology records (if applicable)
Computerized Tomography Scans (CT)	Oncology records (last 90 days) Neurology records (last 90 days) Physical therapy records (last 90 days)
Colonoscopy (repeat only)	Diagnosis code and differential (if applicable) Imaging results (last 90 days) Gastrointestinal pathology results (last 90 days) Rationale/justification for repeating study Records from specialist
Dental services to be covered under medical services (e.g., services from oral or maxillofacial surgeons)	Dental records Dental X-rays Oral surgery records

Information required for medical necessity review. Please forward this information along with your request to ensure timely processing.	
Service	Information Needed
Chemotherapy	Endocrinology records (last 90 days)
	Laboratory results (last 90 days)
	Neurology records (if applicable)
Computerized Tomography Scans (CT)	Oncology records (last 90 days)
	Neurology records (last 90 days)
	Physical therapy records (last 90 days)
Colonoscopy (repeat only)	Diagnosis code and differential (if applicable)
	Imaging results (last 90 days)
	Gastrointestinal pathology results (last 90 days)
	Rationale/justification for repeating study
	Records from specialist

Referral vs. Preauthorization

Referral

A referral is a written or verbal approval **provided by the primary care physician (PCP)** to see a specialist or to receive other healthcare services

Preauthorization

A preauthorization is a decision by the health plan that a service, treatment plan, prescription drug or durable medical equipment is medically necessary

Note: CarePlus will process requests via any method a provider uses, such as phone, fax, or web, to submit a referral to a specialist or request a preauthorization.

Referral vs. Preauthorization

The Evidence of Coverage (EOC) explains how referrals work:

SECTION 2

Use providers in the plan's network to get your medical care

Section 2.1

You must choose a Primary Care Provider (PCP) to provide and oversee your medical care

What is a PCP and what does the PCP do for you?

When you become a member of our plan, you must choose a network provider within your plan's service area to be your PCP. Your PCP is a provider who meets state requirements and is trained to give you basic medical care. Your *Provider Directory* will indicate which providers may act as your PCP. As we explain below, you can get your routine or basic care from your PCP. Your PCP can also coordinate the rest of the covered services you get as a plan member. For example, in order to see a network specialist, you usually need to get your PCP's approval first (this is called getting a "referral" to a specialist).

Pre- Authorization List (PAL)

Preauthorization List

The Preauthorization List (PAL) details services and medication (i.e., medication that is delivered in the physician's office, clinic, outpatient or home setting) that requires preauthorization prior to being provided or administered.

The current CarePlus PAL can be found here

The screenshot shows the CarePlus Health Plans website. At the top, there's a navigation bar with links for Medical Resources, Pharmacy Resources, Educational Resources, and Documents, Manuals & Forms. The main heading is "CarePlus Health Plans Preauthorization Lists". Below this, a paragraph states the company's commitment to improving health and well-being. A callout box provides "Important information" about the preauthorization process. A section titled "Access the guidelines and policies we use when reviewing preauthorization requests:" lists links for "Medical and Pharmacy Coverage Policies" and "Medicare Coverage Database". Below this, a paragraph explains the importance of submitting clinical information. A link "Learn how to submit a preauthorization for frequently requested services/procedures for your patients with CarePlus coverage" is provided. The bottom section, "Medical and Medication Preauthorization Lists", contains two columns: "Current Medical and Medication PAL (effective Jan. 1, 2025)" with links for "Medical and Medication Preauthorization and Notification List" and "2025 Part B Step Therapy List", and "Previous Medical and Medication PAL" with links for "2024 Part B Step Therapy List", "July 1, 2024, Medical and Medication Preauthorization and Notification List", and "Jan. 1, 2024, Medical and Medication Preauthorization and Notification List".

For more information on PAL, please visit CarePlusHealthPlans.com/PAL

- [Remittance Solutions - Training Demo](#)

Availity Essentials Submission

Many preauthorization requests submitted via Availity will be automatically approved.

Your request may appear as pending. If this occurs, fax supplemental information and your reference number to CarePlus.

CarePlus fax numbers:

Broward and Palm Beach counties: 1-866-832-2678, Miami Dade County: 1-888-790-9999, all others: 1-888-634-3521

Fax Submission Requests

Best Practices for Fax Submissions

Providers are highly encouraged to use this form when faxing a request to ensure all pertinent information is included.

What type of request is it?

Part B drug requests:

Is this drug billed, dispensed, and administered by provider?

Is this drug billed and shipped from retail pharmacy to provider?

Health Services Preauthorization Form

Submit preauthorization requests to CarePlus Health Plans (CPHP) via [Availity](#) or [Provider Web Services \(PWS\)](#)

Use this form for non-urgent requests by faxing to the corresponding number at the bottom of the form. Attach supporting medical documentation with your request.

Preauthorization guidance is available at the [CarePlus Health Plan](#)

For urgent/same-day services, call the CarePlus Utilization Management at **1-800-201-4305**. Expedited requests must meet the Centers for Medicare & Medicaid Services (CMS) definition: "The healthcare professional or member believes the member's maximum function can be jeopardized if the standard 14 calendar-day

What is the desired duration of authorization?
***If this information is missed, CarePlus will need to call the provider to confirm.**

REQUEST TYPE(S) ☐ New request ☐ Updated request ☐ Outpatient preauthorization request ☐ Elective

PART B DRUG REQUEST. If Part B drug, select one box below:

- ☐ The drug is billed, dispensed and administered by physician office, infusion clinic or outpatient facility.
- ☐ The drug is billed and shipped from a retail pharmacy to the physician's office or facility (non-self administered infusible drug). Fax request directly to CPHP Pharmacy at **1-800-310-9071**.

CarePlus Health Plans fax numbers:

Broward and Palm Beach counties: **1-866-832-2678**

Miami-Dade county: **1-888-790-9999**

All others: **1-888-634-3521**

Note: Keep in mind CarePlus may request additional information on certain services.

Member Requests

Member Requests

Members may contact CarePlus directly to request prior authorization for services/items.

Member calls
CarePlus
requesting
services.

CarePlus
documents and
processes the
request in the
system.

CarePlus contacts
the PCP for
additional
information.
PCP's office
reviews and
submits/confirms
the request to
CarePlus.

CarePlus reviews
the request.

CarePlus makes a
determination.

Provider Requests

It is important to educate the member on the authorization process.

Member has an appointment with a provider.

The provider's office submits the request to CarePlus.

CarePlus receives and processes the request.

CarePlus makes a determination.

Examples

Expedited vs. Standard Example

	J Code	Drug Name	Directions for use	Dose	Purchase Type	No. of Cycles	No. Of Doses
Bone Mets							
Part B Non Oral	J0897	DENOSUMAB PROLIA INJECTION (Forwarded to Health Plan)	EVERY 6 MONTHS	60 mg	Buy and Bill	1	1

Site of Administration:	Provider's Office	Type of Treatment:		Request Type:	EXPEDITED
Primary Diagnosis:	M81.0	ECOG/Performance Status:	Unknown	Testing Values Applicable:	No
Disease Category:	Bone Disease	Medication Type:	Bone Agents		
		Clinical Staging:			
Treatment Start Date:		Intent to Treat:			
Est Duration of Treatment:		Clinical Trial?	No		
Continuous Infusions of IV Pump Required?					

- ✗ Request submitted as expedited. The service/item does not meet criteria for an expedited request, as injection is given routinely every 6 months.
- ✓ Request should have been submitted as a standard Part B request.

Duplicates Example

Please be mindful of sending duplicate requests.

Example:

Dr. Smith submitted a prior authorization request to CarePlus for a member's medication. The request was submitted multiple times, leading to:

- CarePlus spent time and resources reviewing the same request multiple times.
- The provider's office is confused by multiple responses from CarePlus.

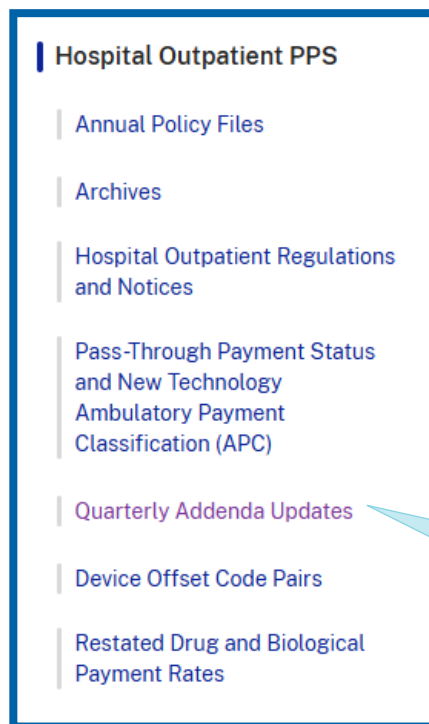

How can we avoid duplicate requests?

- If a request is submitted via Availity, check for a reference No.
- If a fax was submitted, check on the portal if already on file.

Inpatient-Only Example

Example:

Dr. Smith, a cardiothoracic surgeon, is preparing to submit an outpatient surgery request for a patient who needs a coronary artery bypass graft (CABG) with CPT codes **33533** and **33518**. Dr. Smith finds that both codes are on the Inpatient-Only List.

You can check the Inpatient-Only List using Addendum B
