

Risk adjustment 2025 monthly learning series January–June CME and CEU sessions

The CarePlus risk adjustment provider education team is pleased to promote the live Humana* online learning sessions for the first six months of 2025. A subsequent flyer will be sent for the second half of the year.

Some presentations offer a free continuing education credit for registered participants: continuing medical education (CME) for licensed clinicians and/or continuing education unit (CEU) for certified medical coders.**

Presentations that are offered multiple times during the year will contain the same content and will only be eligible for one CEU. Along with the topic-specific webinars, there will be two additional presentations:

1. The Importance of Accurate Documentation and Coding: A Physician’s Perspective – These sessions will focus on understanding the healthcare components related to risk adjustment and how to leverage accurate clinical documentation and coding to capture the true health status of the patient.

2. MRA overview – These sessions will focus on risk adjustment as the Centers for Medicare & Medicaid Services (CMS) payment model for Medicare Advantage (MA) plans, designed to encourage MA organizations (MAOs) to compete based on efficiencies and quality of care, rather than on ability to attract healthy individuals.

All times are Eastern Standard Time.
