Medicare Part B Step Therapy requirement for Medicare Advantage plans

Effective Date: January 1, 2026
Revision Date: October 21, 2026

Important note: The designation of preferred status does not mean a drug is always exempt from a step therapy requirement. Please refer to the specific criteria contained in our coverage criteria policies, which is posted at CarePlusHealthPlans.com/PAL. Also on that page, you can find the Medicare Preauthorization list which displays step therapy indicators on the drugs that are impacted by a step therapy requirement.

Some step therapy strategies may require a trial of preferred products that cross benefits (e.g., Medicare Part B and Part D). These cross-benefit strategies are summarized in the tables below. Please refer to Humana's coverage policies, which can be found on CarePlusHealthPlans.com/PAL, for any additional requirements.

If healthcare providers do not stock our preferred drug in their office, they may be able to obtain the preferred drug from a pharmacy (i.e., a pharmacy can ship the medication to the office). A list of specialty and mail-order pharmacies can be found in the Provider Directories located on our website at CarePlusHealthPlans.com/Directories. A full list of pharmacies is also available via the Pharmacy Finder Tool at CarePlusHealthPlans.com/PharmacyFinder.

This step therapy requirement will not apply to patients who already are actively receiving treatment with a nonpreferred drug and have a paid drug claim within the past 365 days.

MA patients subject to the step therapy requirement may:

- Request expedited exception reviews for step therapy prior authorization requests.
- Appeal a denied request for a nonpreferred drug due to step therapy requirements.

As of Jan. 1, 2020, CarePlus no longer offers a Drug Management Care Coordination Program (DM-CCP) for patients subject to step therapy or who take a preferred prescription drug on the Medicare Part B Step Therapy Drug List.

Continued on following page

Medicare Part B Step Therapy requirement for MA plans:

Drug class	Prescription drug name	Prescription drug status	Billing code
Atypical Hemolytic Uremic Syndrome (aHUS)	**Ultomiris**	**Preferred**	**J1303**
	Bkemv IV	Nonpreferred	Q5152
	Epysqli IV	Nonpreferred	Q5151
	Soliris	Nonpreferred	J1299
Alpha-1s	**Zemaira**	**Preferred**	J0256
	Aralast	Nonpreferred	J0256
	Glassia	Nonpreferred	J0257
	Prolastin-C	Nonpreferred	J0256
Bevacizumab (oncology)	**Mvasi**	**Preferred**	Q5107
	Zirabev	**Preferred**	Q5118
	Avastin	Nonpreferred	C9257, J9035
	Alymsys	Nonpreferred	Q5126
	Jobevne	Nonpreferred	Q5160
	Vegzelma	Nonpreferred	Q5129
Bone resorption inhibitors	**Xgeva**	**Preferred**	J0897
	Xtrenbo	**Preferred**	Q5167
	zoledronic acid	**Preferred**	J3489
	Aukelso	Nonpreferred	Q5161
