

Medicare Part B Step Therapy requirement for Medicare Advantage plans

Effective Date: Jan. 1, 2026

Revision Date: July 1, 2026

Important note: The designation of preferred status does not mean a drug is always exempt from a step therapy requirement. Please refer to the specific criteria contained in our coverage criteria policies, which is posted at [CarePlusHealthPlans.com/PAL](https://www.CarePlusHealthPlans.com/PAL). Also on that page, you can find the Medicare Preauthorization list which displays step therapy indicators on the drugs that are impacted by a step therapy requirement.

Some step therapy strategies may require a trial of preferred products that cross benefits (e.g., Medicare Part B and Part D). These cross-benefit strategies are summarized in the tables below. Please refer to Humana's coverage policies, which can be found on [CarePlusHealthPlans.com/PAL](https://www.CarePlusHealthPlans.com/PAL), for any additional requirements.

If healthcare providers do not stock our preferred drug in their office, they may be able to obtain the preferred drug from a pharmacy (i.e., a pharmacy can ship the medication to the office). A list of specialty and mail-order pharmacies can be found in the Provider Directories located on our website at [CarePlusHealthPlans.com/Directories](https://www.CarePlusHealthPlans.com/Directories). A full list of pharmacies is also available via the Pharmacy Finder Tool at [CarePlusHealthPlans.com/PharmacyFinder](https://www.CarePlusHealthPlans.com/PharmacyFinder).

This step therapy requirement will not apply to patients who already are actively receiving treatment with a nonpreferred drug and have a paid drug claim within the past 365 days.

MA patients subject to the step therapy requirement may:

- Request expedited exception reviews for step therapy prior authorization requests.
- Appeal a denied request for a nonpreferred drug due to step therapy requirements.

As of Jan. 1, 2020, CarePlus no longer offers a Drug Management Care Coordination Program (DM-CCP) for patients subject to step therapy or who take a preferred prescription drug on the Medicare Part B Step Therapy Drug List.
