

# Part B Drug Inflation Rebates

As of April 1, 2023, Humana members may pay less for some rebated drugs covered by Medicare Part B, based on a new and lower “coinsurance” amount (your share of the Rx cost after you meet your deductible). If you receive Part B drugs at a location other than a pharmacy, Humana will ensure member cost share is adjusted where appropriate. For members who receive these Part B drugs at these locations, Humana will mail a refund where appropriate until systems are fully updated to allow for adjustment as part of normal claim processing.

## How to use this list:

We are providing a list of impacted Part B drugs as well as the adjusted coinsurance percentage. **The standard coinsurance for Part B drugs for Medicare members is 20%.** The coinsurance percentage shown in this list has been adjusted for inflation and will be applied to your share of the Rx cost after you meet your deductible. If you have questions about the lower cost or feel this has not been applied, please call the number on the back of your Humana ID card. Please note, these changes do not apply to Medicare Part D Prescription Drug Coverage.

HCPC	Drug Name	Adjusted Coinsurance Percentage
J0287	Abelcet	19.293%
J8655	Akynzeo	16.308%
