Important notes

- Urgent/emergent services do not require referral or preauthorization.
- The term “preauthorization” (prior authorization, precertification, preadmission) as used in this communication is defined as a process through which the healthcare provider is required to obtain advance authorization from the plan as to whether an item or service will be covered.
- “Notification” refers to the process of the healthcare provider notifying Humana Healthy Horizons of the intent to provide an item or service. Humana Healthy Horizons requests notification to help coordinate care for your patients. This process is distinguished from preauthorization. Humana Healthy Horizons does not issue an approval or denial related to a notification.
- Healthcare providers who participate in an independent practice association (IPA) or other risk network with delegated services are subject to the preauthorization list and should refer to their IPA or risk network for guidance on processing their requests.
- For additional information, refer to Provider.Humana.com/coverage-claims/prior-authorizations/prior-authorization-lists.
