

Drug Recall for Dronabinol Capsules, USP, 2.5 mg and Ziprasidone Hydrochloride Capsules, 20 mg

The Harvard Drug Group, LLC is voluntarily recalling one lot (lot #T04769) of Dronabinol Capsules, USP, 2.5 mg and Ziprasidone Hydrochloride Capsules, 20 mg. Ziprasidone is used for the treatment of schizophrenia or bipolar disorder. Dronabinol is used for anorexia associated with weight loss in patients with Acquired Immune Deficiency Syndrome (AIDS), and/or nausea and vomiting. The drugs are being recalled due to a potential product labeling mix-up. Patients who take dronabinol capsules, USP, 2.5 mg, instead of ziprasidone hydrochloride capsules, 20 mg, can experience serious adverse events from missing their ziprasidone dose and taking an unexpected dose of dronabinol.

Please carefully review the impacted medication, and talk to your doctor about it right away.
