

Humana Healthy Horizons in Florida Family Planning Services

Provider overview

Medicaid family planning services are furnished on a voluntary and confidential basis. Humana Healthy Horizons® in Florida members:

- Can choose to receive covered family planning services and supplies from any participating provider
- Do not need a referral for services from in-network providers

To ensure your Humana Healthy Horizons-covered patients get the family planning services when they need them, you must:

- Make available appointments for postpartum visits
- Encourage all pregnant women and mothers with infants to attend scheduled postpartum visits
- Discuss appropriate methods of contraception before delivery and during postpartum visits
- Provide family planning counseling and services
- Maintain documentation in your patients' records to reflect these provisions

Family planning covered services include:

- Oral birth control
- Medroxyprogesterone acetate (Depo-Provera® Injection J1050)
- Implants, including Implanon and Nexplanon®
- Intrauterine devices (IUDs), including ParaGard®, Liletta®, Mirena®, Skyla® and Kyleena®
- Tubal ligation (for more information: https://ahca.myflorida.com/content/download/5920/file/Consent_for_sterilization.pdf)

Refer to Florida Medicaid Drug Formulary for complete list and updates at

https://ahca.myflorida.com/medicaid/Prescribed_Drug/pharm_thera/fmpdl.shtml

Clinic family planning services

We reimburse for the insertion and/or removal of an IUD or hormonal contraceptive implant device during a new or established family planning visit or an evaluation and management visit. However, we only reimburse for the device service if you provide and document all components of an evaluation and management visit along with the device service.

Hospital family planning services

Humana Healthy Horizons' network hospitals should bill all inpatient services on the same claim. We separately reimburse for insertion, removal and/or other device procedures from other inpatient services.

Please bill appropriate family planning diagnosis services on the UB-04 claim form. We reimburse for these services without requiring authorization or a referral.

We cover and reimburse for long-acting reversible contraception (LARC) ordered from:

- Humana Specialty Pharmacy® (should be ordered at least 1 week in advance of your patient's appointment)
- Another pharmacy

Paper Claims
P.O. Box 14601
Lexington, KY 40512-4601

You also must submit a valid National Drug Code (NDC) on the claim. You can find the NDC on the product you administer to your patient. Medicaid uses 11-digit NDCs. If the NDC on the product you administer does not have 11 digits, you may need to add leading zeroes to the number.

Humana Specialty Pharmacy

You can order Mirena, Skyla, Nexplanon, and Kyleena LARCs through the Humana Specialty Pharmacy. We deliver the LARCs to your office. Please note that you must order the LARC at least 1 week in advance of your patient's appointment.

To order:

- Go to [HumanaPharmacy.com/specialty-medications.html](https://www.humana.com/specialty-medications.html)
- Call **800-486-2668 (TTY: 711)**, Monday – Friday, 8 a.m. – 8 p.m., and Saturday, 8 a.m. – 6:30 p.m., Eastern time
- E-prescribe your prescription to the Humana Specialty Pharmacy at [HumanaPharmacy.com/prescriber-information.html](https://www.humana.com/prescriber-information.html)
- Complete the prescription form at <https://docushare-web.apps.external.pioneer.humana.com/Marketing/docushare-app?file=3541564> and then fax the form to **877-405-7940**

Other family planning services

Humana Healthy Horizons members can receive family planning counseling and contraceptives, including Depo-Provera and oral birth control, at any participating CVS MinuteClinic®.

Please note that this service:

- Is available for women 18 or older
- Is not available for pregnant or menopausal women
- May not be appropriate for women with certain health conditions

Humana Healthy Horizons members who choose to receive Depo-Provera can bring their current prescription or an unopened single-dose vial with original packaging and validated prescription label to a MinuteClinic, or a MinuteClinic can prescribe it.

Initiating first injection guidelines:

- If the last menstrual period (LMP) was within the last 5 days, Depo-Provera can be started immediately.
- If the LMP was more than 5 days ago and a pregnancy test is negative, the practitioner must assess the last episode of unprotected sex to determine if emergency contraception is required before starting Depo-Provera injections. The practitioner may advise a patient to return for a pregnancy test in 3 weeks, depending on the self-reported history of unprotected sex.

Medicaid family planning waiver program

The family planning waiver program covers family planning services for eligible females ages 14 through 55. Eligible females can get services for up to 24 months. Eligibility is limited to females with family incomes at or below 191% of the federal poverty level, who have lost or are losing Florida Medicaid State Plan eligibility, and who are not otherwise eligible for Medicaid, the Child's Health Insurance Program or other health insurance coverage that offers family planning services. For more information, please call **877-254-1055**, 8 a.m. – 5 p.m., Eastern time, or go to https://ahca.myflorida.com/Medicaid/Family_Planning/provider.shtml.
