Find helpful resources

Talk to a pharmacist

A pharmacist is available to chat about your medicines. If you are experiencing an emergency, call 911. CenterWell Pharmacy will notify you directly by phone, email and/or mail if your medicine is affected by a recall or a manufacturer back order and provide you with specific information to resolve the issue, if necessary.

Please see page 14 for CenterWell Pharmacy contact information.

Assistance for special needs

We provide talking labels that read your prescription information to you using a compatible iPhone, Android app or a talking label station. Braille labels, magnifiers and medicine information sheets in large print are also available upon request. Call or chat with us to request.

Language assistance

We can help provide your prescription information in your preferred language. Please call or chat with us to request.

Getting a 90-day supply

To maximize benefits and cost savings, many maintenance medicines can be filled as a 90-day or greater supply. If you need less than a 90-day supply, request a smaller quantity when refilling or have your healthcare provider add a note for new prescriptions.

You may fill prescriptions for less than a 90-day supply to synchronize all medicines, potentially covered at a prorated cost-share rate depending on your pharmacy benefits.

Aida RPh, 25 years' experience

"I make it a point to help patients understand their options."

Safety

Brand-name medicines and equivalent generic medicines have the same dosage, safety, strength and quality. CenterWell Pharmacy will provide a generic equivalent medicine if one is available, and your healthcare provider approves.

Unused or expired medicines

Never flush unused or expired medicines, as this can contaminate the water supply. Check your prescription information or use the Medication Disposal link on **CenterWellPharmacy.com**. We now offer a DisposeRx™ packet with certain opioid prescriptions as a safe disposal method for unused opioid medicines.

Prescription drug monitoring program

CenterWell Pharmacy may be required by your state to report controlled medicines to their prescription drug monitoring program (PDMP).

Returning medication

CenterWell Pharmacy does not offer credits or refunds for returned items that are properly dispensed. If you have questions or concerns about your order, please contact us right away to discuss your options.

VI. HOW WE MAY USE AND DISCLOSE YOUR PHI. The following categories (listed in bold-face print) describe different ways that we use and disclose your PHI. Disclosures of PHI may be provided in various media, including electronically. For each category of uses or disclosures we will explain what we mean and give you some examples. Not every use or disclosure in a category will be listed. However, all of the ways we are permitted to use and disclose information about you will fall within one of the bold-face print categories. Also, not all of the categories may apply to the healthcare service you are seeking.

A. For Treatment. We may disclose your PHI to physicians, nurses, case managers, and other healthcare personnel who provide you with healthcare services or are involved in your care. We may use and disclose your PHI to provide and coordinate the treatment, medications and services you receive including dispensing of prescription medications when applicable. For example, if you're being treated for a knee injury, we may disclose your PHI regarding this injury to a physical therapist or radiologist, or to medical equipment suppliers or case managers.

- B. To Obtain Payment for Treatment.** We may use and disclose your PHI in order to bill and collect payment for the treatment and services provided to you. For example, we may provide portions of your PHI to our billing department and your health plan to get paid for the healthcare services we provided to you. We may also provide your PHI to our Business Associates, such as billing companies and others that process our healthcare claims.
- C. For Healthcare Operations.** We may disclose your PHI in order to operate our facilities. For example, we may use your PHI to evaluate the quality of healthcare services that you received, for utilization management activities, or to evaluate the performance of the healthcare professionals who provided the healthcare services to you. We may also provide your PHI to our accountants, attorneys, consultants, and others in order to make sure we are complying with the laws that affect us.
- D. To Business Associates for Treatment, Payment, and Healthcare Operations.** We may disclose PHI about you to one of our Business Associates in order to carry out treatment, payment, or healthcare operations. For example, we may disclose PHI about you to a company who bills insurance companies on our behalf so that company can help us obtain payment for the healthcare services we provide.
- E. Individuals Involved in Your Care or Payment for Your Care.** We may release PHI about you to a family member, other relative, or close personal friend who is directly involved in your medical care if the PHI released is relevant to such person's involvement with your care. We also may release information to someone who helps pay for your care. In addition, we may disclose PHI about you to an entity assisting in a disaster relief effort so that your family can be notified about your location and general condition.
- F. Appointment Reminders.** We may use and disclose PHI to contact you as a reminder that you have an appointment for treatment or healthcare if you have not opted out of such reminders.
- G. Treatment Alternatives.** We may use and disclose PHI to give you information about treatment options or alternatives if you have

not opted out of such reminders. We may contact you regarding compliance programs such as drug recommendations, drug utilization review, product recalls and therapeutic substitutions.

H. Health-Related Benefits and Services. We may use and disclose PHI to tell you about health-related benefits or services that may be of interest to you if you have not opted out of such reminders.

I. Workers' Compensation. We may release PHI about you for workers' compensation or similar programs. These programs provide benefits for work-related injuries or illness.

J. Special Situations.

1. As Required By Law. We will disclose PHI about you when required to do so by federal, state, or local law, such as the Occupational Safety and Health Act (OSHA), Federal Drug Administration (FDA), or Department of Transportation (DOT).

2. Public Health Activities. We may disclose PHI about you for public health activities. Public health activities generally include:

- a. preventing or controlling disease, injury or disability;
- b. reporting births and deaths;
- c. reporting child abuse or neglect;
- d. reporting reactions to medications or problems with products;
- e. notifying people of recalls of products;
- f. notifying a person who may have been exposed to a disease or may be at risk for contracting or spreading a disease;
- g. notifying the appropriate government authority if we believe a patient has been the victim of abuse, neglect or domestic violence. We will only make this disclosure if you agree or when required or authorized by law.

3. Health Oversight Activities. We may disclose PHI to a health oversight agency for activities authorized by law such as audits, investigations, inspections, and licensure. These activities are necessary for the government to monitor the healthcare system, government programs, and compliance with civil rights laws.

- 4. Lawsuits and Disputes.** If you are involved in a lawsuit or a dispute, we may disclose PHI about you under a court or administrative order. We may also disclose PHI about you in response to a subpoena, discovery request, or other lawful process by someone else in the dispute.

- 7. Organ and Tissue Donation.** We may release PHI to organizations that handle organ procurement or organ, eye or tissue transplantation or to an organ donation bank to facilitate organ or tissue donation.
- 8. Research.** Under certain circumstances, we may use and disclose PHI about you for research purposes. For example, a research project may involve comparing the health and recovery of all patients who received one medication to those who received another for the same condition. All research projects are subject to a special approval process which

requires an evaluation of the proposed research project and its use of PHI, and balances these research needs with our patients' need for privacy. Before we use or disclose PHI for research, the project generally will have been approved through this special approval process. However, this approval process is not required when we allow PHI about you to be reviewed by people who are preparing a research project and who want to look at information about patients with specific medical needs, so long as the PHI does not leave our facility.

- 9. To Avert a Serious Threat to Health or Safety.** We may use and disclose PHI when necessary to prevent a serious threat to your health and safety or the health and safety of the public or another person. Any disclosure, however, would only be to someone who is able to help prevent the threat.
- 10. Armed Forces and Foreign Military Personnel.** If you are a member of the Armed Forces, we may release PHI as required by military command authorities or about foreign military personnel to the appropriate foreign military authority.
- 11. National Security and Intelligence Activities.** We may release PHI about you to authorized federal officials for intelligence, counterintelligence, and other national security activities authorized by law.

Inmates.** If you are an inmate of a correctional institution or under the custody of a law enforcement official, we may release PHI about you to the correctional institution or law enforcement official. This release would be necessary, for example, for the institution to provide you with healthcare; to protect your health and safety or the health and safety of others; or for the safety and security of the correctional institution.

14. Food and Drug Administration (FDA) We may use and disclose to the Food and Drug Administration (FDA), or person under the jurisdiction of the FDA, PHI relative to adverse events with respect to drugs, foods, supplements, products, and product defects, or post marketing surveillance information to enable product recalls, repairs, or replacement.

K. Incidental Uses and Disclosures. Uses and disclosures that occur incidentally with a use or disclosure described in this Notice are acceptable provided there are reasonable safeguards in place to limit such incidental uses and disclosures.

L. Participation in Health Information Exchanges. We may participate in one or more Health Information Exchanges (HIEs) and may electronically share your health information for treatment, payment and permitted healthcare operations purposes with other participants in the HIE. Participants in the HIE may be healthcare providers, their billing companies, insurers, health plans, and accountable care organizations. They allow healthcare providers to efficiently access and use your pertinent medical information necessary for treatment and other lawful purposes. We will not share information with an HIE unless we have entered into a business associate agreement with the HIE to protect the confidentiality of patients' information. You may "opt out" of HIE participation by contacting your provider.

VII. WHAT DO WE DO WITH YOUR INFORMATION WHEN YOU ARE NO LONGER A PATIENT OR YOU DO NOT OBTAIN SERVICES THROUGH US. Your information may continue to be used for purposes described in this Notice if you no longer obtain services through us. After the required legal retention period, we destroy the information following strict procedures to maintain the confidentiality.

VIII. YOUR RIGHTS REGARDING YOUR PHI.

A. The Right to Request Limits on Uses and Disclosures of Your PHI. You have the right to ask that we limit how we use and disclose your PHI. We will consider your request but are not

legally required to approve it. If we approve your request, we will put any limits in writing and follow them except in emergency situations. You may not limit the uses and disclosures that we are legally required or allowed to make.

You have the right to request a restriction on uses and disclosures of health information about you to carry out treatment, payment, or healthcare operations. We will consider but are not required to agree to a restriction.

We will agree to a request by you to restrict disclosure of PHI about you to a health plan if the disclosure is for the purpose of carrying out payment or healthcare operations and is not otherwise required by law and the PHI pertains solely to a healthcare item or service for which the individual, or person other than the health plan on behalf of the individual, has paid us in full. If the payment is not honored, then we do not need to comply with the restriction request if we need to seek payment.

- B. The Right to Choose How We Send PHI to You.** You have the right to ask that we send information to you to an alternate address or via an alternate method. We must agree to your request so long as we can easily provide it in the format you requested.
- C. The Right to See and Get Copies of Your PHI.** In most cases, you have the right to look at or get copies of your PHI that we have, but you must make the request in writing. If we do not have your PHI, but we know who does, we will tell you how to get it. In certain situations, we may deny your request. If we do, we will tell you in writing our reasons for the denial and explain your right to have the denial reviewed. If you request copies of your PHI, there may be a per page charge. Instead of providing the PHI you requested, we may provide you with a summary or explanation of the PHI as long as you agree to that and to any additional costs in advance.
- D. The Right to Get a List of the Disclosures We Have Made.** You have the right to get a list of instances in which we have disclosed your PHI in the past six (6) years. The list will include the date of the disclosure(s), to whom PHI was disclosed, a

description of the information disclosed, and the reason for the disclosure. The list will not include uses or disclosures that were made for the purposes of treatment, payment or healthcare operations, uses or disclosures that you authorized, or disclosures made directly to you or to your family. The list also will not include uses and disclosures made for national security purposes, or to corrections or law enforcement personnel. Your request must state a time period that may not be longer than six (6) years prior, but may certainly be less than six (6) years.

- E. The Right to Correct or Update Your PHI.** If you feel that the PHI we have about you is incorrect or incomplete, you may ask us to amend the information. You have the right to request an amendment of the existing information or to add the missing information. You must provide the request and your reason for the request in writing. If we approve your request, we will make the change to your PHI, tell you that we have done it, and tell others that need to know about the change to your PHI. We may deny your request if the PHI is: (i) correct and complete, (ii) not created by us, (iii) not allowed to be disclosed, or (iv) not part of our records. Our written denial will state the reasons for the denial and explain your right to file a written statement of disagreement with the denial. If you do not file a statement of disagreement, you have the right to request that your request and our denial be attached to all future disclosures of your PHI.
- F. The Right to Get This Notice.** You have the right to get a copy of this Notice in paper and by email.
- G. The Right to File a Complaint.** If you believe your privacy rights have been violated or if you disagree with a decision we make about your rights, such as accessing or amending your records, you may file a complaint with us by phone, fax, or mail. All complaints to us must be submitted using the contact information listed below.

You may also submit a written complaint to the U.S. Department of Health and Human Services, Office for Civil Rights (OCR). We will give you the appropriate OCR regional address on request. You also have the option to email your complaint to

OCRCComplaint@hhs.gov. We support your right to protect the privacy of your personal and health information. We will not retaliate in any way if you elect to file a complaint with us or with the U.S. Department of Health and Human Services.

We will respond to all privacy requests and complaints. It has always been our goal to ensure the protection and integrity of your personal and health information. Therefore, we will notify you of any potential situation where your information would be used for reasons other than what is listed above.

IX. WHAT WILL HAPPEN IF MY PRIVATE INFORMATION IS USED OR DISCLOSED INAPPROPRIATELY. You have the right to receive a notice following a breach of your unsecured PHI. We will notify you in a timely manner if such a breach occurs.

X. HOW WILL MY INFORMATION BE USED FOR PURPOSES NOT DESCRIBED IN THIS NOTICE. In all situations other than described in this Notice, we will request your written permission before using or disclosing your information. You may revoke your permission at any time by notifying us in writing. We will not disclose your information for any reason not described in this notice without your permission. The following uses and disclosures will require authorization.

1. Most uses and disclosures of psychotherapy notes. Psychotherapy notes are notes recorded by your healthcare provider who is a mental health professional documenting or analyzing the contents of a conversation that are separate from the rest of the patient's medical record. Exceptions exist for disclosures required by other law, such as for mandatory reporting of abuse, and mandatory "duty to warn" situations regarding threats of serious and imminent harm made by the patient.
2. Marketing purposes. With limited exceptions, the Rule requires an individual's written authorization before a use or disclosure of his or her protected health information can be made for marketing. So as not to interfere with core healthcare functions, HIPAA distinguishes marketing communications from those communications about goods and services that are essential for quality healthcare.

3. Sale of protected health information. Sale of PHI is a disclosure of protected health information by a covered entity or business associate, if applicable, where the covered entity or business associate directly or indirectly receives remuneration from or on behalf of the recipient of the protected health information in exchange for the protected health information. Some activities are not considered a “sale” of PHI, such as disclosures related to public health purposes, required by law, research purposes, for treatment and payment purposes, for the sale, transfer, merger or consolidations of the entity.

What type of communications can I opt out of receiving from you? You can opt out at the address below regarding the following communications:

- a. Appointment reminders.
- b. Treatment alternatives or other health-related benefits and services.
- c. Fundraising activities.
