Introduction

Dear pharmacy:

Humana appreciates your role in delivering quality pharmacy services to our members. This manual is an extension of your organization's agreement and is intended to assist pharmacy staff in processing prescription claims for Humana plans and outline Humana Compliance Program requirements for your organization.

Processing requirements may vary by plan, and online claims adjudication and messaging reflect the most current benefits. For the required fields to submit prescription claims electronically to Humana, please refer to Humana's National Council for Prescription Drug Programs (NCPDP) Version D.0 Medicare (Humana and *iCare*), Limited Income Newly Eligible Transition (LI NET) Program and Medicare Prescription Payment Plan (Humana and *iCare* payer sheets. For CarePlus payer sheets, please visit the CarePlus Pharmacy Resources page at [CarePlusHealthPlans.com/Providers/Pharmacy-Resources](https://www.humana.com/CarePlusHealthPlans.com/Providers/Pharmacy-Resources). In the Pharmacy Provider Agreement, you will find network participation requirements.

To view Humana Drug Lists for Medicare members, please visit [Provider.Humana.com/pharmacy-resources/tools/humana-drug-lists](https://www.humana.com/Provider.Humana.com/pharmacy-resources/tools/humana-drug-lists). CarePlus Drug Lists are located at [CarePlusHealthPlans.com/Providers/Pharmacy-Resources](https://www.humana.com/CarePlusHealthPlans.com/Providers/Pharmacy-Resources). *iCare* Drug Lists are available at <https://www.icarehealthplan.org/Education/Providers/Drug-Coverage-Info.htm>.

Pharmacist Portal

The Humana Pharmacist Portal provides a secure online resource where pharmacists can:

- Obtain a current list of generic maximum allowable cost (MAC) pricing
- Send email inquiries directly to Humana
- View news bulletins and link to news alerts
- Find member eligibility regarding a member's prescription drug plan, effective date and type of plan
- View claims a member has filled at your pharmacy
- Check the status of a prescription drug requiring prior authorization for a member

This resource is available to any pharmacy contracted with Humana and is provided free of charge. To obtain access, please visit [Humana.com/Logon](https://www.humana.com/Logon) and follow the on-screen instructions under "Don't have an account?" to create your account. If you have difficulty registering, send an email to PharmacyContracting@humana.com. Please include the pharmacy name, National Provider Identifier (NPI), pharmacy contact name and contact phone number.

Enclara Pharmacia overview

Enclara Pharmacia is a national, full-service pharmacy benefit manager and mail-order supplier of medications and clinical services developed specifically for the hospice and palliative care industry. Enclara Pharmacia serves nearly 500 hospice providers and more than 130,000 patients nationally, helping to reduce pharmacy costs through a clinically-driven model that enables home delivery of pharmaceuticals. Enclara Pharmacia has access to a network of more than 62,000 local pharmacies, including more than 7,000 retail pharmacies, institutional pharmacies and Enclara Pharmacia's own mail-order fulfillment centers.

How to join our network

If you are not already part of our network, we welcome you. If you would like to join, please complete the Pharmacy Contract Request Form at

[https://assets.humana.com/is/content/humana/Pharmacy Contract Request Form_2024pdf](https://assets.humana.com/is/content/humana/Pharmacy%20Contract%20Request%20Form_2024.pdf). Please

send completed forms to PharmacyContracting@humana.com.

We hope you find this manual informative, and we thank you again for your participation in the Humana pharmacy provider network.

Sincerely,
The Humana Pharmacy Network team

Submit claims to:
Independent Care Health Plan
PO Box 670
Glen Burnie, MD 21060-0670

Cardholder ID

Pharmacies should submit the Humana, CarePlus or iCare member ID number in the “Cardholder ID” field whenever possible. This number can be found on the Humana, CarePlus or iCare member’s ID card. Sample card images are shown in the “Humana member ID cards,” “CarePlus member ID cards”

and “iCare member ID card” sections.

For LI NET claims, the Medicare Beneficiary Identifier may be submitted in the Cardholder ID field.

For Medicare members who do not have their Humana, CarePlus or iCare member ID number, pharmacies should call the pharmacy help desk at **800-865-8715** or submit an E1 query.

Medicare coverage determinations

Medicare members or their authorized representatives and prescribers have the right to ask Humana, CarePlus and/or iCare to make a decision regarding the coverage of a prescription drug, reimbursement for a prescription drug purchased out of pocket or reimbursement for a prescription drug purchased at an out-of-network pharmacy. Reference “Appendix: Medicare Prescription Drug Coverage and Your Rights,” which starts on page 51 of this manual.

Members, prescribers, and appointed or authorized representatives can request an expedited coverage determination if the member’s health would be jeopardized by waiting the standard 72 hours. The request will be reviewed within 24 hours, but requests for payment or reimbursement cannot be expedited.

Members, prescribers, and appointed or authorized representatives may request a coverage determination or expedited coverage determination by faxing the request to Humana, CarePlus or iCare at **877-486-2621**.

More information and applicable forms are available at:

- Humana and iCare: **Provider.Humana.com/pharmacy-resources/tools** (Please choose the link under “Coverage determinations.”)
- CarePlus: **CarePlusHealthPlans.com/Providers/Pharmacy-Resources** (Please scroll down and choose “Part D Coverage Determinations.”)

For LI NET-specific requests, please fax to **855-605-6385**. Requests also can be submitted by phone at **800-783-1307**.

Beneficiaries eligible for the Low-Income Subsidy

Medicare’s Low-Income Subsidy (LIS), also known as “Extra Help,” assists people who have limited income and resources with their prescription drug costs. People who qualify for this program receive assistance that helps pay for premiums, deductibles or cost shares related to their Medicare drug plan. Some people automatically qualify for this subsidy and do not need to apply. Medicare mails a letter to these individuals.

Sometimes a member believes he or she has qualified for LIS and is paying an incorrect cost-share amount for his or her prescription(s). To address these situations, Humana has established a process that allows the member to provide the best-available evidence of his or her proper cost-share level. At the pharmacy, a member can show proof of Extra Help by providing any of the following:

- A copy of the beneficiary’s Medicaid card that includes the beneficiary’s name and an eligibility date during a month after June of the previous calendar year
- A copy of a state document that confirms active Medicaid status during a month after June of the previous calendar year
- A printout from the state electronic enrollment file showing Medicaid status during a month after June of the previous calendar year
- A screen print from the state’s Medicaid systems showing Medicaid status during a month after June of the previous calendar year
- Other documentation provided by the state showing Medicaid status during a month after June of the previous calendar year
- A letter from the Social Security Administration (SSA) showing that the individual receives Supplemental Security Income

- An “Application Filed by Deemed Eligible” confirming that the beneficiary is “... automatically eligible for extra help ...” (SSA publication HI 03094.605)

Please note that this proof must be confirmed by a pharmacist and must show the individual’s eligibility took effect on or before the date the prescription was filled. If the member is not found in SS&C Health’s system, the pharmacist may call the Humana pharmacy help desk at **800-865-8715** and choose option 2 to add a recently enrolled Medicare Part D member to the SS&C Health’s claims processing system using the quick activation process. The LIS also can be added during the quick activation process (if applicable).

If the pharmacist can verify proof of Extra Help from the member, the member is showing eligible in SS&C Health’s system and a call has been made to Humana or CarePlus to have the member’s Medicare LIS status updated, the member must follow up by mailing the proof to Humana or CarePlus within 30 days to the following address:

Humana and CarePlus
P.O. Box 14168
Lexington, KY 40512-4168

For additional assistance, the member may call Humana Customer Care at **800-281-6918**, daily, 8 a.m. – 8 p.m., Eastern time.

CarePlus

For assistance with Extra Help concerns, members may call the CarePlus Member Services Department at **1-800-794-5907 (TTY: 711)**, daily, 8 a.m. to 8 p.m., Eastern time. Please note that our automated phone system may answer your call during weekends and holidays. For 24-hour service, you can visit us at **CarePlusHealthPlans.com**.

If a member wishes to apply for the Medicare LIS, he or she should call the SSA at 800-772-1213, Monday – Friday, 8 a.m. – 7 p.m.

iCare

The pharmacist can call customer care at **800-777-4376 (TTY: 800-947-3529)**, Monday – Friday, 8 a.m. – 8 p.m. (April through September), and Monday – Sunday, 8 a.m. – 8 p.m. (October through March), Central time. Once the Extra Help eligibility information is updated at the pharmacy, the member must mail the proof within 30 days to the following address to maintain the correct copayment level:

Independent Care Health Plan
ATTN: BAE
1555 N. RiverCenter Drive
Suite 206
Milwaukee, WI 53212

For assistance with Extra Help concerns, *iCare* members may call customer care at 800-777-4376 (TTY: 800-947-3529), Monday – Friday, 8 a.m. – 8 p.m. (April through September), and Monday – Sunday, 8 a.m. – 8 p.m. (October through March), Central time.

Best-available evidence for long-term care residents

Medicare Part D sponsors are required to accept any of the following forms of evidence from the beneficiary or the beneficiary’s pharmacist, advocate, representative, family member or other individual acting on behalf of the beneficiary to establish that a beneficiary is institutionalized or, beginning on a date specified by the secretary, but no earlier than Jan. 1, 2012, is an individual receiving home- and community-based services (HCBS) and qualifies for zero cost sharing:

- A remittance from the facility showing Medicaid payment for a full calendar month for that

individual during a month after June of the previous calendar year

- A copy of a state document that confirms Medicaid payment on behalf of the individual to the facility for a full calendar month after June of the previous calendar year
- A screen print from the state’s Medicaid systems showing the individual’s institutional status based on at least a full calendar month stay for Medicaid payment purposes during a month after June of the previous calendar year
- Effective as of a date specified by the secretary, but no earlier than Jan. 1, 2017, a copy of:
 - A state-issued Notice of Action, Notice of Determination or Notice of Enrollment that includes the beneficiary’s name and HCBS eligibility date during a month after June of the previous calendar year
 - A state-approved HCBS service plan that includes the beneficiary’s name and effective date beginning during a month after June of the previous calendar year
 - A state-issued prior authorization approval letter for HCBS that includes the beneficiary’s name and effective date beginning during a month after June of the previous calendar year
 - Other documentation provided by the state showing HCBS eligibility status during a month after June of the previous calendar year
 - A state-issued document, such as a remittance advice, confirming payment for HCBS, including the beneficiary’s name and the dates of HCBS

Pharmacists who have evidence that the cost-share responsibility of a Humana Medicare member residing in a long-term care (LTC) facility should be different from that shown on adjudicated claims may provide applicable evidence to Humana regarding the member’s LIS status. Pharmacists may submit appropriate evidence to Humana by utilizing the “Long-Term Care Appeal for Untimely Filing” form at [https://assets.humana.com/is/content/humana/LTC Appeal Form for Untimely Filingpdf](https://assets.humana.com/is/content/humana/LTC%20Appeal%20Form%20for%20Untimely%20Filing.pdf).

Inquiries regarding member LIS levels may be directed to Humana at **800-281-6918**. Pharmacists who have evidence the member’s cost share on claims for a Medicare member is incorrect and should reflect a different LIS level are asked to call this number as well.

For CarePlus members, pharmacists may call **800-555-2546**, Monday – Friday, 8 a.m. to 8 p.m., Eastern time, to provide applicable evidence regarding the member’s LIS status.

For iCare members, pharmacists may call customer care at **800-777-4376**, Monday – Friday, 8 a.m. – 8 p.m. (April through September), and Monday – Sunday, 8 a.m. – 8 p.m. (October through March), Central time.

2026 LIS chart – Extra Help for members

| Categories | LIS level | Resource limits | Deductible | Cost share up to out-of-pocket (OOP) limit (\$2,000) | Copayment above OOP limit (\$2,000) | Subsidy % Part D premium |
|--|-----------|---|------------|---|-------------------------------------|--------------------------|
| Full subsidy – full benefit dual eligible greater than 100% and 150% Federal Poverty Level (FPL) | 1 | N/A – individual deemed Medicaid eligible | \$0 | \$5.10 generic/preferred multisource drug or biosimilar; \$12.65 for any other drug | \$0 | 100% |

| | | | | | | |
|--|---|--|-----|---|-----|------|
| Full subsidy – nonfull benefit dual eligible at or below 150% FPL | 1 | Resources/assets below or equal to \$16,590 (single); \$33,100 (married) | \$0 | \$5.10 generic/preferred multisource drug or biosimilar; \$12.65 for any other drug | \$0 | 100% |
| Full subsidy – full benefit dual eligible below or equal to 100% FPL | 2 | N/A – individual deemed Medicaid eligible | \$0 | \$1.60 generic/preferred multisource drug or biosimilar; \$4.90 for any other drug | \$0 | 100% |
| Institutionalized full benefit dual eligible | 3 | N/A – individual deemed Medicaid eligible | \$0 | \$0 copay | \$0 | 100% |

Notes:

- Resource/asset limits displayed include \$1,500 per person for burial expenses.
- If the member selects a plan with a filed deductible or cost share lower than their LIS amount, the member would be responsible for the lower amount.
- Information subject to change based on CMS guidance.

Drug coverage

Drug Lists

Humana manages numerous Drug Lists for the many prescription benefit plans it offers. Pharmacies can view details of these Drug Lists at

Provider.Humana.com/pharmacy-resources/tools/humana-drug-lists. For CarePlus Drug Lists, please visit **CarePlusHealthPlans.com/Providers/Pharmacy-Resources.** *iCare* drug lists are available at **<https://www.icarehealthplan.org/Education/Providers/Drug-Coverage-Info.htm>**.

Drug Lists are developed and maintained by Humana’s Pharmacy and Therapeutics Committee, which consists of physicians and pharmacists. Members’ prescription drug coverage varies by plan. Certain prescription drugs may have coverage limitations based on duration or dosage or may require preapproval. Humana may add prescription drugs to the list, change prescription drugs on the list or remove prescription drugs from the list at any time, which could affect the amount the member pays for prescription drugs. Some states and markets have specific requirements for changes to the formulary, such as Texas, Louisiana and Illinois.

Exceptions to plan coverage for Medicare members

Medicare members can ask Humana, CarePlus and/or *iCare* to make an exception to its coverage rules, but the request must include a supporting statement from the member’s prescriber. Members may submit several types of exception requests, including:

- Request for a prescription drug to be covered, even if it is not on the Humana, CarePlus and/or *iCare* Drug List
- Request that Humana, CarePlus and/or *iCare* waive coverage restrictions or limits on a prescription drug (e.g., prior authorization, step therapy, dispensing-limit restrictions)
- Request for a higher level of coverage for a prescription drug (for example, if a prescription drug is considered a Tier 4 nonpreferred drug, the member can ask that it be covered as a Tier 3 preferred brand-name drug instead. This change may result in a lower copayment for the member.)

An expedited decision should be requested if the member's health would be jeopardized by waiting the standard 72 hours for a decision.

Members, prescribers, and appointed or authorized representatives can request an exception or an expedited exception by faxing the request to HCPR at **877-486-2621** for Humana, CarePlus and/or *iCare* members.. To submit a request for Humana and *iCare*, complete a coverage determination form, which is found at **Provider.Humana.com/pharmacy-resources/prior-authorizations**. For a CarePlus coverage determination form, visit **CarePlusHealthPlans.com/Providers/Pharmacy-Resources**. Prescribers or pharmacists with questions for Humana, CarePlus and/or *iCare* may call HCPR at **800-555-CLIN (2546)**.

For more information, please reference "Appendix: Medicare Prescription Drug Coverage and Your Rights," which starts on page 51 of this manual.

Please note: Humana, CarePlus and/or *iCare* do not accept prior authorization requests directly from pharmacies. The member or prescriber must initiate the request.

Utilization management

Certain prescriptions must undergo a criteria-based approval process prior to coverage decision.

- **Prior authorization (PA):** Humana's Pharmacy and Therapeutics Committee reviews medications based on safety, efficacy and clinical benefit and may make additions or deletions to the list of prescription drugs requiring PA.
- **Step therapy:** Plans that are subject to step therapy, as a component of the Humana, CarePlus and/or *iCare* standard drug utilization review (DUR) program, require the member to utilize medications commonly considered first-line before using medications considered second-line or third-line. These requirements promote established national treatment guidelines and assist in promoting safe, cost-effective medication therapy.
- **Quantity limits:** Quantity limits are implemented for various classes of medications to facilitate the appropriate and approved label use of these agents. Humana believes this program helps members obtain the optimal dose required for treating their conditions. If a member's medical condition warrants an additional quantity, the pharmacist should ask the prescriber to submit a request to HCPR (for Humana, CarePlus and/or *iCare*).

Please note: Humana, CarePlus and *iCare* do not accept requests for coverage determinations directly from pharmacies. The member or prescriber must initiate the request.

Prescribers can request the following for medication PA, step therapy, quantity limits and medication exceptions using the prescriber quick reference guide found at [https://assets.humana.com/is/content/humana/Prescriber Quick Reference Guidepdf](https://assets.humana.com/is/content/humana/Prescriber%20Quick%20Reference%20Guide.pdf).

Prescribers or pharmacists with questions for Humana, CarePlus and/or *iCare* can call HCPR at **800-555-CLIN (2546)**.

For CarePlus members, prescribers can visit [CarePlusHealthPlans.com/Providers/Pharmacy-Resources](https://www.humana.com/providers/pharmacy-resources).

General claims procedures

Submitting pharmacy claims

All participating pharmacies must comply with the NCPDP transaction standards for pharmacy drug claims, coordination of benefits and related pharmacy services. Prior to submitting a claim, the pharmacy must have a valid prescription on file.

The pharmacy may not submit test claims. Test claims are claims submissions used to confirm patient eligibility or to determine the existence of any coverage restrictions or requirements and/or the maximum amount of reimbursement.

Bank Identification Numbers and Processor Control Numbers

The Bank Identification Number (BIN) and Processor Control Number (PCN) are:

| Plan | BIN | PCN |
|--|--------|----------|
| Medicare prescription drug plan (Medicare Part D)* Use this if the member has a MAPD and/or PDP plan. | 015581 | 03200000 |
| MA plans (Medicare Part B only)* Use this if the member has an MA-only plan. | 610649 | 03200004 |
| Medicare Prescription Payment Plan (Humana and iCare) | 610649 | MPPP7777 |
| LI NET | 015599 | 05440000 |
| CarePlus MAPD plans | 015581 | 03200008 |
| CarePlus MA-only plans | 610469 | 03200000 |
| CarePlus Medicare Prescription Payment Plan | 610649 | MPPP8888 |
| iCare MAPD plan | 015581 | 03206000 |

* Please submit with the Humana member ID located on the member's ID card.

| Plan | BIN | PCN | Group |
|---------------------------------|--------|--------|------------|
| Enclara Hospice Fee for Service | 018232 | PBMOCE | HOSPICEFFS |
| Enclara Hospice Per Diem | 018232 | PBMOCE | HOSPICE |
| Enclara Hospice Vitas | 018232 | PBMOCE | HOSPICE12 |

Prescription origin code requirements

Humana requires the prescription origin code (NCPDP Telecommunications Standard D.0 field 419-DJ) to be included on all prescriptions. All claims submitted will be denied at the point of sale (POS) if this code is not included. If the pharmacist is not able to include this code within the pharmacy's practice management system, the pharmacist should contact the pharmacy's current software vendor for assistance. SS&C Health is not able to override this edit.

All new prescriptions must contain one of the following numeric values:

| Value | Value type |
|-------|--|
| 1 | Written |
| 2 | Telephone |
| 3 | Electronic |
| 4 | Fax |
| 5 | Situations for which a new prescription number needs to be created from an existing valid prescription, such as traditional transfers, intrachain transfers, file buys and software upgrades/migrations. This value also is the appropriate value for "pharmacy dispensing," when applicable, such as over the counter (OTC), Plan B, established protocols, pharmacists' authority to prescribe, etc. |

Fill number

Prescriptions, including refills, must contain the fill number according to the following chart:

| Value | Value type |
|-------|---|
| 00 | Original dispensing—the first dispensing |
| 01–99 | Refill number—number of the replenishment |

Sales tax

For states where sales tax applies, the sales tax should be submitted as a value equal to the percentage of the usual and customary charge that equates to the applicable sales tax rate. The pharmacist must enter a tax amount in NCPDP field 482-GE. If this field is left blank, no sales tax will be calculated.

The member's address is not a required element for the claim to process unless the medication is being shipped. The member's address should be added to where the medication is being shipped. The pharmacy should enter the following information in the appropriate NCPDP field for the shipping tax to apply: Pharmacy Service type is 03 Home Infusion Therapy (HIT), 05 (Long-term care), 06 Mail Order (MO) or 08 (Specialty).

Timely submission of claims

Claims must be submitted on the date of service (DOS). Notwithstanding the foregoing, pharmacies have at least 30, but not more than 90, days from the DOS to submit claims for LTC pharmacy services. Additionally, there are special circumstances under which a pharmacy may submit claims after the DOS, including the following:

- Resolution of **coordination of benefits** issues requiring claims reversal and rebilling to appropriate payers for Medicare Part D, which have 36 months for submission
- **LI NET** claims (Please reference the “Timely Filing Limits” on the LI NET Payer Sheets at [https://assets.humana.com/is/content/humana/D.0 Limited Income NET \(LI NET\) Program payer sheetpdf.](https://assets.humana.com/is/content/humana/D.0%20Limited%20Income%20NET%20(LI%20NET)%20Program%20payer%20sheet.pdf))
- **Subrogation** claims, which have 36 months for submission
- **POS Medicare Part D** claims, which have until March 31 of the year following the DOS for submission
- **POS Medicare Part B** claims, which have 365 days from DOS for submission

Attempting to adjudicate a POS transaction after the claims submission deadline may result in a reject with the message “Claim too old” (NCPDP reject 81). This includes:

- POS payments, reversals and/or adjustments
- Universal claim form claims for payment and reversals

Please call the Humana pharmacy help desk at **800-865-8715** for Humana, CarePlus and *iCare* claims processing questions. This line is staffed 24 hours a day, seven days a week.

Please note: This does not apply to claims for LIS members who were retroactively enrolled.

LTC appeals for untimely filing

As set forth in 42 C.F.R § 423.505(b)(20), LTC pharmacy claims must be submitted for eligible persons no later than 90 days from the DOS. Humana, CarePlus and *iCare* recognize the need to make exceptions when claims cannot be submitted in this time frame. In these cases, the LTC pharmacy requesting such an exception must complete, sign and date the LTC appeal form for untimely filing.

Here is a link to the form, which will provide a list of permitted exceptions along with how to submit the form for consideration:

[https://assets.humana.com/is/content/humana/LTC Appeal Form for Untimely Filingpdf](https://assets.humana.com/is/content/humana/LTC%20Appeal%20Form%20for%20Untimely%20Filing.pdf)

Humana-specific SS&C Health payer sheets

Pharmacists can find applicable Medicare pharmacy payer sheets at [Provider.Humana.com/pharmacy-resources](https://www.provider.humana.com/pharmacy-resources). Look for the “Pharmacy manuals and forms” link. Direct links to the payer sheets are as follows:

- D.0 Medicare payer sheet (Humana and *iCare*):
[https://assets.humana.com/is/content/humana/D.0 Pharmacy Medicare payer sheetpdf](https://assets.humana.com/is/content/humana/D.0%20Pharmacy%20Medicare%20payer%20sheet.pdf)
- D.0 LI NET payer sheet:
[https://assets.humana.com/is/content/humana/D.0 Limited Income NET \(LI NET\) Program payer sheetpdf](https://assets.humana.com/is/content/humana/D.0%20Limited%20Income%20NET%20(LI%20NET)%20Program%20payer%20sheet.pdf)
- D.0 Medicare Prescription Payment Plan payer sheet (Humana and *iCare*):
[https://assets.humana.com/is/content/humana/D.0 Pharmacy Medicare Prescription Payment Plan payer sheetpdf](https://assets.humana.com/is/content/humana/D.0%20Pharmacy%20Medicare%20Prescription%20Payment%20Plan%20payer%20sheet.pdf)

CarePlus SS&C Health payer sheets

Pharmacists can find applicable CarePlus pharmacy payer sheets at [CarePlusHealthPlans.com/Providers/Pharmacy-Resources](https://www.careplushealthplans.com/providers/pharmacy-resources).

Enclara SS&C Health payer sheet

Pharmacists can find the Enclara payer sheet at [Provider.Humana.com/pharmacy-resources](https://www.provider.humana.com/pharmacy-resources). Please look for the “Pharmacy manuals and forms” link. The direct link to the payer sheet is [https://assets.humana.com/is/content/humana/D.0 Pharmacy Enclara payer sheetpdf](https://assets.humana.com/is/content/humana/D.0%20Pharmacy%20Enclara%20payer%20sheet.pdf).

Prescriber National Provider Identifier submission

Humana, CarePlus and *iCare* require the use of a valid and accurate Type 1 (also known as “individual”) NPI on all electronic transactions. Claims submitted without a valid and active Type 1 NPI will be rejected at the point of sale with the following error message: “Prescriber Type 1 NPI required.”

In addition, the error codes listed below will display in the free-form messaging returned to pharmacies. If the pharmacy believes it has received one of these codes in error (i.e., the NPI submitted is an active, valid, individual NPI number), the pharmacy may override the hard edit with the applicable Submission Clarification Code (SCC). Claims processed with an SCC may be subject to post-adjudication validation review.

| NCPDP error code | NCPDP error code description | Free-form messaging | Applicable SCC |
|------------------|---|--|----------------|
| 56 | Nonmatched prescriber ID | Prescriber ID submitted not found. If validated, submit applicable SCC. | 42 |
| 42 | The plan’s prescriber database indicates the prescriber ID submitted is inactive or is not found or is expired. | Prescriber ID not active. If validated, submit applicable SCC. | 42 |
| 43 | The plan’s prescriber database indicates the associated U.S. Drug Enforcement Administration (DEA) number for submitted prescriber ID is inactive or expired. | Validation of active DEA status required. If validated, submit applicable SCC. | 43 |

| | | | |
|-----|---|--|----------|
| 44 | The plan's prescriber database indicates the associated DEA to submitted prescriber ID is not found. | Validation of active DEA for prescription required. If validated, submit applicable SCC. | 43 or 45 |
| 46 | Plan's prescriber database indicates associated DEA to submitted prescriber ID does not allow this drug DEA schedule. | Validation of active DEA schedule required. If validated, submit applicable SCC. | 46 |
| 543 | Prescriber ID qualifier value is not supported. | Prescriber Type 1 required. Foreign prescriber ID not allowed. | N/A |
| 619 | Prescriber Type 1 NPI is required. | The claim is not covered due to Medicare Part D active valid prescriber NPI requirement. | N/A |

The pharmacy NPI field must contain accurate information identifying the pharmacy for each claim submitted. The pharmacy NPI must be submitted in NCPDP field 201-B1 (service provider ID) with the qualifier "01" in NCPDP field 202-B2 (service provider ID qualifier). The prescriber NPI also must be submitted in NCPDP field 411-DB (prescriber ID) with the qualifier "01" in NCPDP field 466-EZ (prescriber ID qualifier).

Dispense-as-written codes

Humana, CarePlus and iCare recognize the NCPDP standard dispense-as written (DAW) codes. Prescriptions with a DAW request must designate the DAW product selection code (NCPDP field 408-D8) on the submitted claim.

For a prescription submitted with a DAW code other than zero, the reason for the selected code must be documented and must comply with all applicable laws, rules and regulations.

DAW codes for multisource brand drugs

Claims will be denied if a DAW code is not entered or if the DAW code of "0" is entered when a multisource brand drug is dispensed. The SS&C error code of "100" will show with the following message: "DRUG MULTSRCE – DISP Generic or Enter DAW Code." A DAW code of "5" must be entered if the pharmacy considers the multisource brand drug to be generic.

| Value | Value type |
|-------|---|
| 0 | No product selection indicated |
| 1 | Substitution not allowed by prescriber |
| 2 | Substitution allowed — patient requested product dispensed |
| 3 | Substitution allowed — pharmacist selected product dispensed |
| 4 | Substitution allowed — generic not in stock |
| 5 | Substitution allowed — brand drug is dispensed as generic |
| 6 | Override |
| 7 | Substitution not allowed — brand drug is mandated by law |
| 8 | Substitution allowed — generic drug not available in marketplace |
| 9 | Substitution allowed by prescriber but plan requests brand — patient's plan requested brand product to be dispensed |

Drug utilization review safety edits

Humana, CarePlus and iCare implement concurrent reviews or DUR safety edits at the point of service to assist pharmacies in identifying and addressing potentially inappropriate or unsafe prescription drug therapy before dispensing. These safety edits can present as a message, soft reject or hard reject and

include, but are not limited to, the following:

| DUR type | Pharmacy information | Example |
|---|---|--|
| Drug–drug interaction | This interaction identifies possible adverse interactions between the submitted medication and other medications in the patient’s prescription history. | Selective serotonin reuptake inhibitors/monoamine oxidase inhibitors |
| Drug–disease interaction | This interaction identifies safety risk when an active medication is contraindicated for a patient’s disease state (disease may be inferred or identified via medical claims history) | Amphetamines – cardiomyopathy |
| Drug–age interaction | This interaction identifies safety risk related to use of specific medication for the patient’s age. | Adderall XR |
| Maximum dose | This interaction identifies safety risk when dosage exceeds First Databank (FDB) maximum adult daily dose (The ratio of exceeding FDB maximum dosing is specific to the medication.). | digoxin daily dose greater than 500 mcg |
| MED* high dose | This interaction identifies patients at greater risk of overdose or inappropriate opioid utilization (dosing greater than 90 mg MED per day will trigger this error code) | MS Contin 30 mg twice daily plus Percocet 10/325 mg two tablets every eight hours as needed. |
| Opioid naïve | This interaction identifies patients that have not filled an opioid medication within the past 108 days. A seven days or less supply of opioid medication limit will apply to these patients. | hydrocodone/acetaminophen 5/325 mg supply for eight days |
| Plan limitations exceeded: accumulation | This interaction identifies the potential for an overdose resulting in single or multiple medications and cumulative doses that exceed safe daily maximums | acetaminophen dose greater than 4 grams per day |
| Therapeutic duplication | Identifies duplication within a therapeutic class of active medications with overlapping claims in the patient’s prescription history | Two prescriptions for different angiotensin receptor blockers |

* MED – Morphine equivalent dosing

Soft reject drug utilization review

Select DUR safety alerts may be addressed at the retail pharmacy. Upon receipt of these rejects, pharmacists should apply clinical judgment to review the alert, recommend therapy changes or override the alert when clinically appropriate. The message on claim denials will indicate “Soft Reject: Payer allows DUR/PPS code override.” If the pharmacy approves the prescription fill, the rejection can be overridden utilizing the appropriate professional and results code from the following list:

| NCPDP error code | NCPDP description | Reason for service | Professional service | Result of service |
|----------------------|---|---------------------------|--|---|
| 88: DUR reject error | This drug interacts with the patient’s other drug(s) (includes concurrent opioid and benzodiazepine use). | DD: Drug-drug interaction | DE: Dosing evaluation MO: Prescriber consulted MP: Patient will be monitored PE: Patient education/instruction PO: Patient consulted | 1A: Filled as is, false positive 1B: Filled prescription as is 1D: Filled with different directions 1F: Filled with different quantity |

| | | | | |
|--|--|-----------------------------|---|--|
| | | | R0: Pharmacist consulted other source SW: Literature search/review | 1G: Filled with prescriber approval 4A: Prescribed with acknowledgments 4B: Dispensed, palliative care 4D: Dispensed, cancer treatment |
| 70: DUR reject error | The drug interacts with the patient's disease state. | DC: Drug disease | DE: Dosing evaluation MO: Prescriber consulted MP: Patient will be monitored PE: Patient education/instruction PO: Patient consulted R0: Pharmacist consulted other source SW: Literature search/review | 1A: Filled as is, false positive 1B: Filled prescription as is 1D: Filled with different directions 1F: Filled with different quantity 1G: Filled with prescriber approval 4A: Prescribed with acknowledgments 4B: Dispensed, palliative care 4D: Dispensed, cancer treatment |
| 88: DUR reject error | This drug may duplicate current patient therapy. | TD: Therapeutic duplication | MO: Prescriber consulted PE: Patient education/instruction PO: Patient consulted R0: Pharmacist consulted other source SW: Literature search/review TH: Therapeutic product interchange | 1A: Filled as is, false positive 1B: Filled prescription as is 1D: Filled with different directions 1F: Filled with different quantity 1G: Filled with prescriber approval 4A: Prescribed with acknowledgments 4B: Dispensed, palliative care 4D: Dispensed, cancer treatment |
| 88: DUR reject error 922: Morphine equivalent dose exceeds limit* | limits cumulative morphine milligram equivalent (MME) daily dosage across all opioid prescriptions to a lower threshold between 90 MME and 200 MME | HD: High dose | MO: Prescriber consulted DE: Dosing evaluation DP: Dosage evaluated | 1B: Filled prescription as is 1D: Filled with different directions 1F: Filled with different quantity 1G: Filled with prescriber approval 4A: Prescribed with acknowledgments 4B: Dispensed, palliative care 4D: Dispensed, cancer treatment |

| | | | | |
|--|--|----------------|--------------------------|---|
| | | | | 4K: Prescriber specialty exemption-oncology of nonhospice palliative care 4L: Prescriber specialty exemption-hospice |
| 88: DUR reject error 922: Morphine equivalent dose exceeds limit* | limits cumulative MME daily dosage across all opioid prescriptions to an upper threshold of greater than 200 MME | ER: Overuse | MO: Prescriber consulted | 4B: Dispensed, palliative care 4L: Prescriber specialty exemption-hospice |
| MEDICARE ONLY AG: Exceeds opioid initial fill limits 925: Initial fill days' supply exceeds limit | Opioid naïve – seven days supply limit Override using eligible ICD-10 codes if a patient has an appropriate exemption (i.e., sickle cell disease, cancer, palliative care, hospice, chronic pain management diagnosis [G89, M25, M47, M50, M51, M54] – for Medicare only) | Not applicable | Not applicable | Not applicable |

* 922 can apply to single claim or cumulative claim MED limits for opioids.

Submitting 340B medications

When dispensing medications acquired under the 340B program (as such terms are defined by CMS), pharmacies must utilize an SCC (42Ø-DK) field with a value of 20, or they must use the most current NCPDP standard for identification of 340B medications (unless prohibited by law). Humana may require pharmacies to complete a contract addendum to dispense 340B medications under the pharmacy agreement.

Humana Spending Account Card

Some Humana or CarePlus members on select MA and MAPD plans may have a Humana or CarePlus Spending Account Card. Beginning Jan. 1, 2026, the cards will be a MasterCard limited-use debit card and will only have a magnetic stripe for processing. These cards, issued to qualified members, deliver a monthly healthy options or CareEssentials Allowance. Alternatively, the Humana Spending Account card may have a monthly or quarterly OTC allowance in 2026. CarePlus cards will only have CareEssentials Allowance. Both cards may be used toward the purchase of eligible OTC items. The allowances cannot be used toward prescription drugs. Cardholders should refer to the back of their spending account card for card balance information and how to find benefit information or other assistance with the spending account card.

Below are samples of both Spending Account Cards, which may be presented as payment for eligible OTC items only.

Controlled substances

Controlled substance claims

During claims adjudication, Humana, CarePlus and iCare attempt to confirm the validity of the prescriber ID submitted on controlled substance (schedule II–V) claims and that the controlled substance is within the prescriber’s scope of practice. Claims for prescription drugs found to be written outside of a prescriber’s prescribing authority (according to the DEA) will be rejected with the following error message: “Plan’s prescriber database indicates associated DEA to submitted prescriber ID does not allow this DEA drug class.”

The free-form message on the claim will also state: “Validation of active DEA schedule required. If validated, submit applicable SCC.”

Clarification of federal requirements – Schedule II drugs

Humana, CarePlus and iCare would like to remind pharmacies of the importance of monitoring pharmacy claims for accuracy and complying with federal and state laws, rules and regulations. This is especially important when filling prescriptions and submitting claims for partial fills of Schedule II drugs. In accordance with the Pharmacy Provider Agreement, participating pharmacies must comply with all federal and state laws, rules, and regulations pertaining to the dispensing of medications.

The Controlled Substances Act established five schedules, which are based on medical use acceptance and the potential for abuse of a substance or prescription drug. Schedule II drugs have a high potential for abuse, have an accepted medical use (including severe restrictions) and may lead to severe psychological or physical dependence if abused. Pursuant to 21 CFR § 1306.12(a), Schedule II prescription drugs may not be refilled.

Pharmacies should take appropriate steps to confirm, including verifying with the prescriber (when necessary), that controlled substances, including Schedule II drugs, are filled only in accordance with federal and state law. This includes preventing refills and partial fills of Schedule II drugs that are not allowable under the Controlled Substances Act.

Submitting CII claims

CMS ruling CMS-0055-F mandates that a valid Quantity Prescribed (NCPDP field 460-ET) is submitted on all federally designated Controlled Substance Level II (CII) drug claims. This impacts pharmacy claim data submission, processor adjudication edits to validate the Quantity Prescribed and payer sheet updates to include the Quantity Prescribed field.

If the field (Quantity Prescribed 460-ET) is not populated for a CII drug, you will receive NCPDP Reject

Code ET. Please enter a valid Quantity Prescribed and resubmit.

Access this CII claim bulletin for additional information:

[https://assets.humana.com/is/content/humana/CII Claims Submission Requirements_Update_09_24_2020pdf](https://assets.humana.com/is/content/humana/CII_Claims_Submission_Requirements_Update_09_24_2020pdf).

Point-of-sale edits and overrides

To support state and federal regulations regarding opioid and other controlled substances, Humana, CarePlus and iCare employ several POS edits.

For information on current guidance on edits and overrides, visit

[Provider.Humana.com/pharmacy-resources/manuals-forms](https://www.provider.humana.com/pharmacy-resources/manuals-forms) and select the “Pharmacy resources” tab under “Manuals and forms.”

Medicare claims coverage

Medicare Part B vs. Part D coverage

CMS makes a distinction between prescription drugs that are covered under Medicare Part B and those covered under Medicare Part D. These distinctions help pharmacists determine the appropriate insurance carrier to bill. In general, Humana, CarePlus and iCare cover most prescription drugs that meet the CMS definition of a Medicare Part D-covered drug and are dispensed at a retail pharmacy under Medicare Part D (and most prescription drugs administered incidentally to a physician service under Medicare Part B). For members who have both Medicare Part B and Part D plans, the following guidelines apply:

Medicare Part B covers the following prescription drugs (this is not an all-inclusive list):

- Prescription oral immunosuppressive drugs secondary to a Medicare-approved transplant
- Prescription oral antiemetic drugs for the first 48 hours after chemotherapy
- Prescription inhalation drugs delivered through a nebulizer with the service location being the patient’s home
- Diabetic testing supplies, such as blood glucose meters, test strips and lancets
- Certain prescription drugs administered in the home setting that require the use of an infusion pump, such as certain prescription antifungal or antiviral drugs and pain medications
- Flu and pneumonia vaccines
- Insulin used in a pump
- Physician-administered injectable drugs (if they are administered in a physician’s office from a physician’s supply)

Medicare Part D covers the following prescription drugs (this is not an all-inclusive list):

- Most outpatient prescription drugs
- Insulin (excludes insulin used in a pump)
- Insulin supplies, such as standard and needle-free syringes, needles, gauze, alcohol swabs, and insulin pens
- Most vaccines (product and administration); coverage exceptions include flu and pneumonia vaccines, hepatitis B vaccines (when they meet the CMS requirements for Medicare Part B coverage), and vaccines used for the treatment of an injury or illness (e.g., tetanus vaccine).
- Prescription-based smoking cessation products
- Physician-administered injectable drugs (if they are dispensed from a retail pharmacy)
- Prescription injectable drugs that may be self-administered
- Prescription injectable or infusible drugs administered in the home setting and not covered by

Medicare Part A or Part B

- Prescription infusion drugs not covered under Medicare Part B and administered in the home via intravenous (IV) drip or push injection (examples include, but are not limited to, intramuscular drugs, antibiotics, parenteral nutrition, immunoglobulin and other prescription infused drugs)

For a prescription drug to be included in the Medicare Part D benefit, it must satisfy the definition of a Part D-covered drug and not otherwise be excluded. The U.S. Food and Drug Administration (FDA) must regulate a Medicare Part D-covered drug as a prescription drug, biological or vaccine.

Prescription drug plans cover Medicare Part D-covered drugs, MA plans cover Part B-covered drugs, and MAPD plans cover both Part B- and Part D-covered drugs. The coverage determination for Medicare Part B or Part D coverage is based upon CMS coverage guidelines. A prescription drug claim will never be eligible for coverage under Medicare Part B and Part D simultaneously.

If the pharmacy has any questions about appropriate Medicare Part B vs. Part D coverage, please call the number on the back of the Humana, CarePlus or *iCare* member's ID card.

Humana, CarePlus and *iCare* follow CMS coverage guidelines. To assist in making the appropriate determination for Medicare Part B or Part D coverage and payment, Humana, CarePlus and *iCare* may require prior authorization. To request prior authorization when required, members, prescribers, and appointed or authorized representatives should call HCPR at **800-555-CLIN (2546)** for Humana, CarePlus and *iCare*. The caller should be prepared to answer questions related to the prescribed drug. These questions are used to help determine coverage and payment as either Medicare Part B or Part D.

Please note: Humana, CarePlus and *iCare* do not accept prior authorization requests directly from pharmacies. The member or prescriber must initiate the request.

If insufficient or incomplete information is received and the determination of Medicare Part B or Part D coverage cannot be made, a fax form requesting more information may be sent to the prescriber.

Prohibition on balance billing cost-share-protected members

The Qualified Medicare Beneficiary (QMB) Program provides Medicare coverage of Part A and Part B premiums and cost sharing to low-income Medicare beneficiaries. As a reminder, federal law forbids Medicare providers and suppliers, including pharmacies, from billing people in the QMB program for Medicare Part B cost sharing. This includes some Humana MA and some D-SNP members.

Cost-share-protected members have no legal obligation to make further payment to a provider for Medicare Part B-covered medications and/or supplies. Balances should be billed to Medicaid as the secondary payer, following Medicaid guidelines for claim submission. The cost share cannot be collected from the member. Per CMS guidelines, if a full or partial balance remains after billing Medicaid, or if the provider is unable to bill Medicaid, the provider is still required to dispense the medication and/or supply without balance billing the member. Providers who inappropriately bill cost-share-protected members may be subject to sanctions, as established in Section 1902(n)(3)(C) of the Social Security Act.

Medicare Part B vs. Part D claims submission

A member can have separate Medicare Part B and Part D plans with Humana. In those instances, the pharmacist will receive a rejection for Part B-covered items and services from Humana's Part D plan. To process the claim under the member's Humana Medicare Part B plan, the pharmacist should resubmit the claim with the appropriate BIN/PCN combination. All member information, such as the cardholder ID, remains the same. If there are problems, pharmacists may call the pharmacy help desk at **800-865-8715**.

Medicare vaccine administration

The Medicare Part D program covers administration expenses associated with the injection of Medicare Part D vaccines. Pharmacists in Humana-participating, CarePlus-participating and *iCare*-participating pharmacies may administer the vaccines (if allowed by state law).

Submitting claims for vaccine administration

To submit claims for both the vaccine and the administration, the pharmacy must bill a value greater than zero in the incentive amount submitted field (438-E3) and submit professional service code “MA” in field 44Ø-E5.

To submit a claim for the administration fee only, the pharmacy must submit the National Drug Code (NDC) for the prescription drug administered, submit a value of zero in the ingredient cost field and a value greater than zero in the incentive amount submitted field (438-E3). The pharmacy also must submit a professional service code of “MA” in field 44Ø-E5.

Influenza, pneumococcal and hepatitis B vaccines are not covered under the Medicare Part D program. However, they are a covered benefit for members who have Humana, CarePlus and *iCare* Part B coverage.

Humana processing of Medicare prescription drug exclusions

For Medicare PDP members, Humana will process claims for excluded prescription drugs in the following manner:

- **Medicare Part B-covered drugs:** rejection with a message that reads “Bill Part B Carrier”
- **Medicare Part D-covered drugs, including OTC drugs:** process through the member’s benefit

Pharmacists who are not receiving these messages should check with their chain headquarters or their software vendor. Humana is sending this message, but the pharmacy’s headquarters or software vendor may choose not to display messages on claims that successfully adjudicate.

Medicare continuity of care

Retail and LTC transition policy

This policy applies to prescribed drugs that are subject to certain limitations, such as prescription drugs not listed on the Drug List and prescription drugs requiring prior authorization, step therapy or quantity limit.

This policy helps by providing a temporary supply to members who have limited ability to receive their prescribed drug therapy.

For new and reenrolling members who are at a retail pharmacy, receive prescriptions through mail order or are in an LTC facility, Humana, CarePlus and *iCare* will cover a temporary supply during the first 90 days of the current plan year or during the first 90 days of the member’s enrollment (as applicable).

Humana, CarePlus and *iCare* will cover a 30-day supply for members at a retail or mail-order pharmacy and a 31-day supply for members in LTC facilities. If the member presents a prescription written for less than the days’ supply allowed, Humana, CarePlus and *iCare* will allow multiple fills to provide up to the total days’ supply of medication allowed.

For members who have more than 108 days of claims history, Humana, CarePlus and *iCare* will look back 180 days from the member effective date or the beginning of the current plan year for prior utilization of the prescription drug when claims history is available.

For emergency fills for members who are LTC residents but past the first 90 days of eligibility, Humana, CarePlus and *iCare* will cover a 31-day supply (unless the prescription is written for less) while an exception or prior authorization request is being processed. In that case, Humana, CarePlus and *iCare* will allow multiple fills to provide up to a total of 31 days of a Medicare Part D-covered drug when the prescription is filled at the network pharmacy.

Humana, CarePlus and *iCare* will indicate that a prescription is a transition fill in the message field of the paid claim response. The pharmacist should communicate this information to the member.

Providing a temporary supply gives the member time to talk to his or her prescriber to decide if an alternative drug is appropriate or to request an exception or prior authorization. Humana, CarePlus and *iCare* will not pay for additional refills of temporary supply drugs until an exception or prior authorization has been obtained.

The transition will not apply for the following conditions:

- CMS-excluded prescription drug
- Medicare Part B-covered drug
- Prescription drugs that require a Medicare Part B vs. Part D determination and therefore are required to go through the standard prior authorization process
- Prescription drugs that require a diagnosis to determine medically accepted Medicare Part D use
- Safety edits
- Initial transition eligibility criteria not met

Level-of-care changes

Throughout the plan year, members may have changes in their treatment settings due to the level of care they require. Such transitions include:

- Members who are discharged from a hospital or skilled nursing facility to a home setting
- Members who are admitted to a hospital or skilled nursing facility from a home setting
- Members who transfer from one skilled nursing facility to another and are serviced by a different pharmacy
- Members who end their skilled nursing facility Medicare Part A stays (where payments include all pharmacy charges) and who now need to use their Part D plan benefits
- Members who give up hospice status and revert to standard Medicare Part A and Part B coverage
- Members who are discharged from chronic psychiatric hospitals with highly individualized drug regimens

For these changes in treatment settings, Humana, CarePlus and *iCare* will cover up to a 31-day temporary supply of a Medicare Part D-covered drug when the prescription is filled at an in-network pharmacy. If members change treatment settings multiple times within the same month, they may have to request an exception or prior authorization and receive approval for continued coverage of their prescription drug. Humana, CarePlus and *iCare* will review these requests for continuation of therapy on a case-by-case basis when members are stabilized on prescription drug regimens that, if altered, are known to have risks.

The transition policy applies only to prescription drugs not on the Humana, CarePlus and *iCare* Drug Lists or step therapy, quantity limitations and clinical prior authorization requirements. The transition policy does not apply to safety edits, prescription drugs requiring a diagnosis to determine accepted Medicare Part D use, Part B-covered drugs, CMS-excluded drugs or Medicare Part B vs. Part D determinations.

When a claim is processed under the transition benefit, a free-form message will return, indicating that the claim was paid under the member's transition benefit.

This message should be communicated to the member to inform them they received a temporary supply of their prescription drug and that action is needed before the next refill.

Long-term care

Long-term care pharmacy information

Humana, CarePlus and iCare recognize the unique operational model and services provided by the pharmacies in their LTC networks. Whether the scope of the pharmacy’s services to LTC facilities is predominantly institutional or part of the mix of services offered by a retail pharmacy, the following resources provide policies and direction for services to Humana, CarePlus and iCare members in institutional settings. While most of the needs LTC pharmacies have are covered by the materials in the main portion of this manual, the following addresses some of the unique features of the LTC pharmacy network.

Long-term care claims processing guidelines

CMS requires all pharmacies to submit the patient residence code (NCPDP field 384-4X) and pharmacy service type (NCPDP field 147-U7) on all Medicare Part D claims. Claims submitted with a missing or invalid code will be rejected at the point of sale. The tables below list valid patient residence codes and pharmacy service types.

| Patient residence codes | Description |
|-------------------------|---|
| 0 | Not specified; other patient residence not identified below |
| 1 | Home |
| 2 | Skilled nursing facility (for Medicare Part B use only) |
| 3 | Nursing facility |
| 4 | Assisted living facility |
| 5 | Custodial care facility (for Medicare Part B use only) |
| 6 | Group home |
| 8 | Psychiatric facility |
| 9 | Intermediate care/mentally retarded* |
| 11 | Hospice |
| 15 | Correctional institution |

* Pharmacy code only. This is not Humana-approved, CarePlus-approved or iCare-approved language.

If the pharmacy submits a claim with a missing patient residence code, the claim will reject with NCPDP reject code 4X and return the following message: **Missing/Invalid Patient Residence Code**.

If the pharmacy submits a claim with an invalid patient residence code, the claim will reject with NCPDP reject code 4Y and return the following message: **Patient residence not supported**.

| Pharmacy service types | Description |
|------------------------|---|
| 1 | Community/retail pharmacy services |
| 2 | Compounding pharmacy services |
| 3 | Home infusion therapy provider services |
| 4 | Institutional pharmacy services |
| 5 | Long-term care pharmacy services |
| 6 | Mail-order pharmacy services |
| 7 | Managed care organization pharmacy services |
| 8 | Specialty care pharmacy services |
| 99 | Other |

If the pharmacy submits a Medicare Part D claim with a missing or invalid pharmacy service type, the claim will reject with NCPDP error code U7 and return the following message: **Missing/Invalid Pharmacy Service Type**.

Nebulizer solutions covered under Medicare Part D for long-term care residents

For the Humana, CarePlus, and iCare claims processing systems to recognize a claim for inhalation solutions—such as albuterol (to be used in nebulizers, not metered-dose inhalers)—is for an LTC facility resident, the claim should be submitted with a patient residence code of 03 or 09. If this patient residence code is not submitted with the claim, the claim will be rejected.

Long-term care short-cycle dispensing

Humana, CarePlus and iCare have implemented POS claims processing logic to comply with CMS Part D requirements related to appropriate dispensing for brand, oral, solid medications in the LTC pharmacy setting.

Submission requirements

LTC pharmacies submitting claims for brand, oral, solid medications that are subject to appropriate dispensing requirements must submit the following fields for proper claim adjudication:

- **Patient residence (NCPDP field 384-4X):** This field communicates where the patient resides. Several values are used in this field to communicate LTC, but Humana, CarePlus and iCare apply appropriate dispensing requirements only to claims submitted with a patient residence code of 03 (nursing facility).
- **Pharmacy service type (NCPDP field 147-U7):** This field communicates the type of service performed by a pharmacy when different contractual terms exist between a payer and the pharmacy or when benefits are based upon the type of service performed.
- **Submission clarification code (NCPDP field 420-DK):** This field is used to identify the dispensing frequency used by the pharmacy (e.g., every 14 days, every seven days, etc.).
- **Special packaging indicator (NCPDP field 429-DT):** This field is used in appropriate dispensing to identify the type of packaging used in dispensing the medication.

Claims submitted by LTC pharmacies for generic, nonoral, solid medications (e.g., topical creams, lotions, etc.) and unbreakable packages (physically unbreakable or FDA-labeled to be dispensed in the manufacturer's packaging) are excluded from the Humana, CarePlus, and iCare appropriate dispensing requirements and do not undergo this editing. In accordance with CMS guidance, Humana, CarePlus and iCare consider a product "brand" or "generic" according to the FDA's approval. Brands are prescription drugs receiving new drug application approval; generics receive abbreviated new drug application approval.

Rejections

If an LTC pharmacy submits a claim for a brand, oral, solid medication that is subject to the appropriate dispensing requirement, it must contain valid information in all the appropriate fields (as indicated previously for appropriate dispensing and on the Humana, CarePlus and iCare payer sheets for all claims) to be processed. If an LTC pharmacy does not submit the required fields, one of the following messages will be returned to the pharmacy with the claim rejection:

- **NCPDP reject code 613:** "The Packaging Methodology or Dispensing Frequency is Missing or Inappropriate for LTC Short Cycle." This rejection is returned if the pharmacy submits an LTC claim but does not include both an appropriate SCC and special package indicator.
- **NCPDP reject code 597:** "LTC Dispensing Type Does Not Support the Packaging Type."
- **NCPDP reject code 612:** "LTC Appropriate Dispensing Invalid Submission Clarification Code (SCC) Combination."

Combination pharmacies

Some pharmacies participate in Humana’s pharmacy network under multiple service types. For example, a pharmacy may maintain a traditional community (ambulatory) pharmacy with a storefront that serves walk-in customers while also serving members residing in an institutional setting. When submitting claims, these pharmacies must include the LTC-appropriate dispensing fields that are required on LTC claims. Otherwise, the claim will process as a “retail” claim and bypass the appropriate dispensing edits.

Copayments

When an LTC-appropriate dispensing claim successfully meets the required elements (i.e., additional fields that must be submitted are present and valid) and is otherwise appropriately payable (i.e., no other edits apply), then Humana’s POS system will calculate and prorate any member copayment that is applicable to the claim, according to the member’s Medicare Part D benefit. Below is an example of Humana’s proration procedure:

| | |
|--------------------------------------|------|
| Applicable member copayment (31-day) | \$31 |
| Days’ supply submitted on the claim | 14 |
| Prorated copayment | \$14 |
| Calculated daily copayment | \$1 |

Long-term care attestation

Humana reimburses contracted LTC pharmacies for cost-share amounts related to retroactive subsidy level changes for eligible LIS Medicare Part D beneficiaries who meet the CMS definition of institutionalized individuals (“member”) per Medicare Part D guidance. Humana understands that LTC pharmacies’ general practice is not to collect cost-sharing amounts from LIS or suspected LIS members or their responsible party, but to defer collection until the member’s health plan remits payment of the cost share directly. Applicable law prohibits waiving or reducing cost-sharing charges for Medicare beneficiaries, except if (i) the waiver or reduction is not offered as part of an advertisement or solicitation; (ii) the pharmacy does not routinely waive or reduce cost-sharing amounts; and (iii) the pharmacy waives or reduces the cost-sharing amounts only after determining (and documenting) in good faith that an individual is in financial need or after failing to collect the cost-sharing amounts after making reasonable collection efforts. A pharmacy is only required to meet the first requirement in order to reduce or waive cost sharing for LIS members. The pharmacy’s cost-share collection practices should be guided by the following principles:

1. **Pharmacy practice:** Humana requests that the pharmacy attests its general practice consists of (i) not collecting LIS or suspected LIS member cost share, (ii) deferring collection and (iii) accepting health plan remittance that complies with the terms of the member’s benefit plan as payment in full.
2. **Notification:** As a contracted LTC pharmacy, the pharmacy agrees to notify Humana within 30 calendar days of changes to this attestation of LIS cost-share collection practices for LIS-eligible beneficiaries.

Please call Humana at **888-204-8349** if the pharmacy’s cost-share collection practices have not been submitted. This attestation is collected in accordance with the requirements of applicable CMS regulations and instructions.

Home infusion billing procedures

For Medicare plans:

- **MAPD plans:** All Medicare Part D-covered drugs should be billed through the member's Humana, CarePlus or iCare pharmacy benefit using the applicable BIN/PCN. All Part B-covered drugs, supplies and nursing should be billed through the member's Humana or CarePlus medical benefit.
- **PDP-only plans:** All Medicare Part D-covered drugs should be billed through the member's Humana pharmacy benefit using the applicable BIN/PCN.
- **MA-only plans:** All Medicare Part B-covered drugs, supplies and nursing should be billed through the member's Humana or CarePlus medical benefit. All Part D-covered drugs should be billed through the member's Part D drug plan.

Compound claims

Submitting compound claims

The pharmacy must submit the correct amount with corresponding accurate quantities and days' supply calculations based on a valid prescription for the member. The pharmacy must submit all ingredients that make up a compound drug on the same claim. The most expensive ingredient will display at the claim level. Edits are returned for each ingredient based on the member's benefits. An SCC of 08 can be submitted on the claim when a pharmacy accepts reimbursement for approved ingredients only.

- A free-form message will return to the pharmacy when an SCC of 08 can be submitted.
- Per CMS guidance, pharmacies are prohibited from balance billing the beneficiary for the cost of any non-Medicare Part D ingredient contained in the Medicare Part D compound.

The pharmacy shall not attempt to circumvent a plan's benefit design or engage in inappropriate billing practices of compound drugs. Such practices include, but are not limited to:

- Submitting test claims for a compound drug
- Submitting a claim multiple times with variations in the ingredients, ingredient cost, dispensing fees, quantity amount and/or days' supply to obtain the highest reimbursement possible
- Resubmitting rejected compound prescription ingredients as individual, noncompounded ingredients
- Submitting partial fills or multiple claims for fills that are less than a 30-day supply to avoid coverage limitations or gain additional reimbursement or copayment amounts

Nonformulary compound (Medicare only)

Medicare Part D multi-ingredient prescription compound medications (with the exception of IV parenteral nutrition and IV home infusion products) will be considered nonformulary and require an exception before Medicare members can fill under their Part D benefits. In these instances, Humana may reject the Medicare Part D claim for multi-ingredient compound prescriptions as follows:

- Reject code: MR
- Reject messages:
 - Product not on formulary
 - NF compound

NCPDP SCC 08 cannot be used to override the nonformulary compound rejection.

When this error message is returned, as with any noncovered prescription drug, explain to the member that his or her prescriber can submit a request for an exception by calling HCPR at **800-555-CLIN (2546)** for Humana, CarePlus and iCare members.

Important reminder about compound drugs for Medicare members

Because of Medicare regulations, pharmacies are prohibited from balance billing and must hold the member harmless for the cost of any non-Medicare Part D ingredient contained in the Part D compound.

Pharmacy audit and compliance

Pharmacy audit program

Humana maintains a pharmacy audit program to:

- Help ensure the validity and accuracy of pharmacy claims for its clients (including CMS and state agencies overseeing a program for Medicaid-eligible beneficiaries)
- Help ensure compliance with the provider agreement between Humana, its network pharmacies and this manual
- Help ensure compliance with federal and state laws/regulations and drug-specific requirements
- Educate network pharmacies regarding proper submission and documentation of pharmacy claims

According to the Pharmacy Provider Agreement between Humana and its network pharmacies, Humana, any third-party auditor designated by Humana or any government agency allowed by law is permitted to conduct audits of any and all pharmacy books, records and prescription files related to services rendered to members and the pharmacy's compliance program.

Claim-specific audit objectives include, but are not limited to, correction of the following errors:

- Dispensing unauthorized, early or excessive refills or dispensing an incorrect drug
- Billing the wrong member or billing an incorrect physician
- Using an NCPDP/NPI number inappropriately
- Invalid pharmacy service type submitted or invalid patient residence code submitted
- Calculating the day's supply incorrectly or using a DAW code incorrectly
- Overbilling quantities or not retaining/providing the hard copy of prescriptions or a signature log/delivery manifest
- Paying claims to the incorrect benefit

Humana notifies pharmacies of its intent to audit and provides specific directions regarding the process. Humana's on-site audits are conducted in a professional and Health Insurance Portability and Accountability Act of 1996 (HIPAA)-compliant manner with respect for patients and pharmacy staff. To access the Humana Pharmacy Solutions Audit and Claim Review Guide, please visit **Provider.Humana.com/pharmacy-resources/manuals-forms** and select the "Audit guide, claim form and other materials" tab.

Long-term care pharmacy audits

Humana has the right to audit an LTC pharmacy's books, records, prescription files and signature logs for the purpose of verifying claims information. LTC pharmacies are required to have signed prescribers' orders available for review for an audit. These orders may be in the form of traditional signed prescriptions, copies of signed prescribers' orders from the member's medical chart or other documentation that contains all required elements of a prescription.

Time to retrieve these documents will be considered as part of Humana's audit requirements. LTC

pharmacies should have a signature log or patient receipt, a delivery manifest, a copy of a Medication Administration Record that shows the prescription was administered, and the name and signature of the person who administered the medication, along with the date and time the medication was given. To access LTC pharmacy documentation guidelines, please visit [Provider.Humana.com/Pharmacy-Resources/Manuals-Forms](https://www.humana.com/Pharmacy-Resources/Manuals-Forms) and select the “Audit guide, claim form and other materials” tab.

Compliance program oversight

Humana has measures in place to facilitate compliance with this manual, government requirements, and corresponding compliance and standards of conduct material. Entities contracted with Humana or a Humana-related entity (“Humana”) that support Humana’s Medicare products are subject to compliance program oversight activities that may occur anywhere from ad-hoc basis to annual basis. In each instance, Humana notifies a pharmacy of its intent to conduct an oversight activity and provides specific directions regarding the process. If the activity identifies deficiencies, a corrective action plan is issued. Humana then works with the pharmacy to ensure the deficiencies are remediated in a timely manner and to ensure there is a sufficient process and policy in place to prevent recurrence.

Fraud, waste and abuse and compliance program requirements

Policy statement

Humana, CarePlus and *iCare* do not tolerate fraudulent activity or actions in violation of its standards of conduct or Compliance Policy (both are available at | [Provider.Humana.com/pharmacy-resources/manuals-forms](https://www.humana.com/pharmacy-resources/manuals-forms)). This pertains to violations committed by Humana, CarePlus and *iCare* employees, contracted pharmacy providers, or those supporting the providers’ contractual obligations to Humana, CarePlus and *iCare* members, customers, vendors, contractors, and/or other business entities. All organizations supporting any of the products Humana, CarePlus and *iCare* administers are required to have a comprehensive plan to detect, correct and prevent noncompliance and not just fraud, waste and abuse (FWA). This includes sharing the Humana, CarePlus and *iCare* commitment to:

1. Investigate any identified, reported or suspected noncompliance or fraudulent activity
2. Take additional action as necessary
3. Report the matter (when appropriate) to the impacted regulatory, federal or state agencies for further action and investigation.

Note: When your organization confirms there was an ethics, compliance or FWA violation that does or could impact Humana, your organization must report it to Humana. This includes relaying the disciplinary action(s) taken and what measures were revised or put in place to minimize their likelihood to recur and prevent future issues.

Training to combat FWA

Every Humana-contracted entity supporting Humana’s products is responsible for:

- Providing FWA prevention, detection and correction training to its employees who administer, deliver or support federal healthcare program benefits or services
- Providing FWA prevention, detection and correction training to its contractors who administer, deliver or support Humana’s plan administration (or notifying them that they must conduct such training)
- Tracking adherence to the training obligation of those taking or offering the training

Material to use

A pharmacy may use its own material to meet the FWA training requirement or adopt another organization’s training on the topic. Humana also offers content on this topic in the following documents:

- Humana Compliance Policy for Contracted Healthcare Providers and Third Parties
[https://assets.humana.com/is/content/humana/Compliance Policy.pdf](https://assets.humana.com/is/content/humana/Compliance_Policy.pdf)
- Humana Ethics Every Day for Contracted Healthcare Providers and Third Parties
[https://assets.humana.com/is/content/humana/Ethics Every Day.pdf](https://assets.humana.com/is/content/humana/Ethics_Every_Day.pdf)

Note: Humana materials alone may not be used to meet the FWA training requirement. However, a pharmacy may use these documents to supplement its FWA training or integrate them within it.

Training records

Humana-contracted entities must maintain FWA training records, including the completion date, attendance, topic, certificate of completion (if applicable) and scores for all administered knowledge checks, and, when applicable, attestations assuring others conducted and/or received such training. Records of this must be kept for 11 years (or longer, if required by state law).

Additional assurance

Humana and CMS reserve the right to conduct oversight of contracted pharmacies to assess their commitment to FWA training requirements, including requests CMS makes of Humana that require these pharmacies to provide corresponding documentation.

Requirement to report suspected or detected fraud, waste and abuse and/or noncompliance

All pharmacy employees and subcontractors who support the pharmacy's contract with Humana must report suspected or detected fraudulent or noncompliant activities using one of the reporting methods provided by the pharmacy.

When the subject of a reported activity is determined to be a violation and impacts a plan administered by Humana, the pharmacy must report the matter to Humana, including the actions taken by the pharmacy to address the violation(s).

Methods to report suspected or detected fraud, waste and abuse and/or noncompliance

Humana expects all organizations supporting Humana to offer at least a reporting method not offered by Humana. Why? Your organization is best equipped to handle an initial review involving any party designated by your organization to support Humana business, so corresponding action can be taken in the timeliest manner.

Also, this approach minimizes the likelihood of concerns that do not pertain to Humana business being reported to Humana. The responsibility for receiving and addressing those matters is with your organization and any other applicable party or parties.

Required features

- **Intake neutrality and confidentiality:** Assure the privacy of those making a report.
- **Anonymous reporting:** Allow a person with a concern to make an anonymous report.
- **Information gathering:** Ensure sufficient information is asked and/or collected to investigate.
- **Status update:** Regardless of reporting method used, the individual submitting a report must receive a confidential identification number that will allow for follow-up on the status of the issue reported, along with a recommended follow-up date.

Recommended feature

- Please offer an option to have those receiving the reports be employed by a separate and independent company or an area that does not have the same leadership of the person making a report.

Reporting method options

In addition to the reporting methods pharmacies offer to report concerns, Humana has multiple options that serve as examples to mirror or to supplement the reporting method(s) your organization offers.

The most expedient manner is by calling one of the following phone numbers:

Phone:

- Humana Special Investigations hotline
(voice messaging system):
800-614-4126
- Humana Ethics Help Line:
877-5-THE-KEY (584-3539)

Both phone methods above are available 24 hours a day and allow callers to remain anonymous. Humana requests those who report ethics concerns and desire to remain anonymous to provide enough information to allow Humana to investigate the issue.

Other reporting options:

- **Fax: 920-339-3613**
- **Email:** siureferrals@humana.com or ethics@humana.com
- **Mail:** Humana Special Investigations Unit
1100 Employers Blvd.
Green Bay, WI 54344
- **Ethics Help Line reporting website:** ethicshelpline.com

Other commitments your organization must also have

The following are also in place at Humana to meet CMS expectations:

Prohibition against intimidation or retaliation

Your organization must have a zero-tolerance policy for the intimidation of, or retaliation or retribution against, any person who is aware of and, in good faith, reports suspected misconduct or participates in an investigation of it.

Disciplinary standards

Your organization can take any or all of the following actions related to FWA or violations of Humana's standards of conduct:

- Oral or written warnings or reprimands
- Termination(s) of employment or contract
- Other measures that may be outlined in the contract
- Mandatory retraining
- Formal, written corrective action plan(s) tracked to closure
- Reporting the violation and action(s) taken to Humana
- Reporting the conduct to the appropriate external entity or entities, such as CMS, a CMS designee, a state agency or law enforcement agencies

Action for failure to report

Any individual or entity identified as not reporting a corresponding matter that is determined to have adversely impacted Humana shall be confirmed as being in violation of Humana requirements and will be subject to any or all of the above disciplinary actions. Your organization must communicate this stance to those designated to support Humana and enforce this position.

Government action for an FWA violation

Depending on the specifics of a case, CMS may elect to take action. This could mean excluding anyone involved in an FWA violation from participating in government procurement opportunities, including work in support of any contract Humana has with CMS (or taking other legal action).

Corresponding expectations

Pharmacies also are expected to:

- Promote to those supporting Humana the available methods for reporting compliance and FWA concerns and the nonretaliation policy.
 - Examples of how to achieve this include posters, mouse pads, key cards and other prominent displays within a pharmacy's facility, such as on an intranet site and/or via email.
 - It is not sufficient to post information only within a facility and not share it via email and/or a pharmacy intranet site when any person needing the information works outside of the facility (e.g., remotely or within a residence).
- Reinforce Humana's policy of prohibiting intimidation and retaliation.

Standards of conduct/ethics

Every Humana-contracted entity must routinely perform the following actions and, upon Humana's request, provide certification of these actions:

- Your organization must require employees, management, governing body members and those with whom the pharmacy contracts to support the pharmacy's contractual obligations to Humana's Medicare products to review and attest to compliance with the pharmacy's standards of conduct document upon hire or contract and annually thereafter.
- If the contracted pharmacy does not adopt or have its own written standards of conduct that are materially similar to Humana's written standards of conduct, then Humana's standards of conduct document may be used. A copy can be accessed, printed and downloaded by visiting [https://assets.humana.com/is/content/humana/Ethics Every Daypdf](https://assets.humana.com/is/content/humana/Ethics%20Every%20Day.pdf).
- Your organization must conduct the following for all new employees, management, governing body members and contracted individuals prior to hire/contract and monthly thereafter when they are designated to assist in the administration or delivery of federal healthcare program benefits in support of a Humana contract: Review the separate exclusion lists of the Office of Inspector General and General Services Administration's System for Award Management.
- Your organization must remove any person or party identified as having an active (non-expired) exclusion on either list referenced above from any work, or access to information or data, related directly or indirectly to Humana's support of any federal healthcare program, such as Medicare.
- Your organization must retain evidence of all exclusion screening for 11 years (or longer, as required by state law). **Note:** If a contract with Humana is terminated, the screening evidence must be retained for a minimum of 10 years after the termination date.
- Your organization must take appropriate corrective actions for standards of conduct violations and, when FWA is involved, report findings and actions taken to Humana's Special Investigation Unit at **800-614-4126**.

Humana's CMS contracts mandate that compliance program requirements must be met by all pharmacies contracted with Humana or Humana subsidiaries. This includes those pharmacies employed or contracted by these non-Humana organizations to provide or support healthcare services for Humana's Medicare members.

Compliance program requirements

The information below is provided to help pharmacies and those they contract or employ to support Humana business confirm their compliance programs have the necessary elements to be effective.

Humana requires contracted pharmacies to have compliance programs that include, but are not limited to:

- **Oversight:** Your organization must monitor and audit the compliance of employees and subcontractors who provide services and/or perform any support functions related to administrative or healthcare services provided to a member of a Humana MA plan and/or Medicare PDP administered by Humana. This is conducted from both operational and compliance perspectives and includes exclusion screenings of all individuals and contracted entities that support Humana Medicare products.
- **Immediate notification to Humana of the organization's intentions to utilize offshore resources in meeting any obligation to Humana:** This includes new arrangements or changes to existing relationships or offshore locations and where or how data is processed, transferred, stored or accessed.
- **Prior approval from Humana before moving forward with or modifying an offshore arrangement for work in support of a Humana contract:** There are multiple reasons why:
 - Some government contracts prohibit or limit contracted services from being performed offshore and from transmitting, processing, accessing or storing related information to certain locations or countries.
 - Humana is required to notify CMS of any entity with a location outside of the U.S. or a U.S. territory that receives, processes, transfers, stores or accesses in oral, written or electronic form protected health information of a Medicare member.
- **Establishment, documentation and communication of effective compliance policies:** Your organization must have written policies and procedures in place for preventing and detecting suspected FWA and noncompliance, then correcting and reporting identified instances as well as other aspects of noncompliance. This includes, but is not limited to:
 - Requiring employees, board members and subcontractors to report suspected and/or detected FWA and suspected violations of Humana's Compliance Policy or standards of conduct (those documents are available at **[Provider.Humana.com/pharmacy-resources/manuals-forms](https://www.provider.humana.com/pharmacy-resources/manuals-forms)**).
 - Reporting to Humana all suspected and confirmed instances of ethics, compliance or FWA violations pertaining to Humana
 - Safeguarding Humana's confidential and proprietary information and plan members' protected personal and health information
 - Providing accurate and timely information/data in the regular course of business
 - Monitoring and auditing activities
 - Upholding disciplinary standards
- **Training:** Your organization must ensure that all required compliance program training is completed, not simply by the compliance contact at the pharmacy, but also by those supporting the pharmacy's contractual obligations to Humana. Where applicable, operational training must be conducted. This requirement includes having a tracking method in place to provide evidence of these efforts upon request (for example, who was trained, when, how and with what material[s]).
- **Disciplinary standards:** Your organization must have established disciplinary standards in place that are carried out when violations are committed by the pharmacy provider, its employees or those the provider contracts with to support obligations to Humana.

- **Communication:** Your organization must promote the following to employees, volunteers, board members and subcontractors: methods for how to report suspected violations of Humana policies and government regulations and corresponding disciplinary standards.
- **Cooperation:** Your organization must cooperate fully with Humana for any compliance-related requests and any government entity audits or investigations of an alleged, suspected or detected violation of this manual; Humana policies and procedures; applicable state or federal laws or regulations; and/or remedial actions.
- **Assurance:** Your organization must comply with Humana requests to provide assurance related to the pharmacy's compliance program.

The examples above are ways to implement an effective compliance program. For an overview of the seven elements of an effective compliance program, please refer to Humana's Compliance Policy at [https://assets.humana.com/is/content/humana/Compliance Policy.pdf](https://assets.humana.com/is/content/humana/Compliance%20Policy.pdf).

FAQ

Humana makes a guidance document publicly available online that includes FAQs and additional information regarding the compliance requirements at:

https://assets.humana.com/is/content/humana/GCHJ9HTEN_FAQ.pdf.

Further compliance program requirements information for pharmacies supporting Humana's Medicare products can be found in Humana's Compliance Policy at

[https://assets.humana.com/is/content/humana/Compliance Policy.pdf](https://assets.humana.com/is/content/humana/Compliance%20Policy.pdf).

If a pharmacy also supports Humana Medicaid business, additional compliance requirements apply. They are outlined in state-specific pharmacy provider manuals and other reference documents at [Provider.Humana.com/pharmacy-resources/manuals-forms](https://www.provider.humana.com/pharmacy-resources/manuals-forms).

Compliance assurance

Humana reserves the right to request documentation as assurance that certain compliance program requirements and training are in place to meet government contract obligations.

If an attestation is required:

- It is based on multiple factors, such as government contract expectations and corresponding Humana compliance program oversight activities.
- It will be for an organization-level attestation from a network pharmacy supporting any plan Humana administers for Medicare-eligible beneficiaries.

Humana will notify the pharmacy if an attestation must be submitted.

Humana compliance education material is refreshed at least each calendar year to assist pharmacies in meeting these and related requirements. Corresponding instructions are listed in the compliance requirements FAQ for pharmacies at

https://assets.humana.com/is/content/humana/GCHJ9HTEN_FAQ.pdf.

Please note: As Humana requirements change, Humana reserves the right to require additional or different compliance program training or components, although it strives to not make midyear changes.

Humana pharmacy credentialing

Humana requires all network pharmacies to be credentialed during the initial contracting process and recertified at least every three years. The recertification request is sent to the pharmacy by fax and requires the pharmacy to return a recertification application, which includes:

- Pharmacy state licensure information
- Pharmacy DEA licensure information and/or DEA controlled dangerous substances information
- Signed and dated attestation stating the pharmacy is free of sanctions imposed by federal, state and local authorities
- Copy of current professional liability insurance coverage that meets or exceeds a minimum requirement of \$1 million in aggregate
- Pharmacy NCPDP number

Pharmacies that do not meet Humana’s required standards will be removed from Humana’s pharmacy network.

Mail-order pharmacy providers must hold a valid license issued by the appropriate state board in the state where the pharmacy is physically located. Additionally, nonresident pharmacies are required to register with the state’s Board of Pharmacy prior to dispensing, shipping, mailing or delivering prescription medications to members within that state.

Conflicts of interest

All entities and individuals supporting Humana are required to avoid conflicts of interest that could compromise the completion or integrity of work to be performed in support of Humana.

Pharmacies and those they employ or contract to support Humana business are prohibited from having any financial relationship relating to the delivery of or billing for items or services covered under a federal healthcare program that:

- Would violate the federal Stark Law, 42 U.S.C. § 1395nn, if items or services delivered in connection with the relationship were billed to a federal healthcare program or would violate comparable state law
- Would violate the federal Anti-Kickback Statute, 42 U.S.C. § 1320a-7b, if items or services delivered in connection with the relationship were billed to a federal healthcare program or would violate comparable state law
- In the judgment of Humana, could reasonably be expected to influence a provider to utilize or bill for items or services covered under a federal healthcare program in a manner that is inconsistent with professional standards or norms in the local community

Pharmacies should never offer or provide, directly or indirectly, anything of value, including cash, bribes or kickbacks, to any Humana employee, contractor, representative, agent, customer or any government official in connection with any Humana procurement, transaction or business dealing. This prohibition includes, but is not limited to, a pharmacy provider offering or providing consulting, employment or similar positions to any Humana employee involved with Humana procurement or to that employee’s family members or significant others.

A violation of this prohibition could result in Humana terminating a pharmacy provider contract or requiring the provider to remove any applicable employed or contracted party from supporting Humana business. Humana reserves the right to request information and data to ascertain ongoing compliance with these provisions.

Proactive steps to address conflicts of interest

All pharmacies are required to review potential conflicts of interest and either remove the conflict or, if appropriate, request approval from Humana to continue work despite the conflict.

Pharmacies are required to obtain and sign a conflict of interest statement from all employees and subcontractors within 90 days of hire or contract and annually thereafter. This statement certifies that the employee or downstream entity is free from any conflict of interest for administering or delivering federal healthcare program benefits or services.

Humana reserves the right to:

- Obtain certifications of conflicts of interest or the possible absence of conflicts of interest from all providers
- Require that certain conflicts be removed
- Require that the applicable employee(s) and/or downstream entities be removed from supporting Humana

Complaint system

Pharmacy's pricing dispute process for Medicare, Medicaid and hospice

Network pharmacies have the right to submit a request to appeal, investigate or dispute the MAC reimbursement amount to Humana within 60 calendar days of the initial claim. The pharmacy may submit its request to appeal, investigate or dispute MAC pricing in writing to Humana by fax at **855-381-1332** or by email at PharmacyPricingReview@humana.com. Please submit the request using one of the Humana Pricing Review Request files below, which also are available on the **Humana.com** Pharmacist Portal.

- File for multiple requests (download this Excel file):
https://assets.humana.com/is/content/humana/Pharmacy%20Pricing%20Review%20Request%20Excel%20File_Portal
- Pharmacy Pricing Review Request:
<https://assets.humana.com/is/content/humana/Pharmacy Pricing Review Request Formpdf>

Please email PharmacyPricingReview@humana.com to request the file if it cannot be downloaded.

The pharmacy can call Humana and speak to a representative regarding its request at **888-204-8349** for retail claims or 866-597-3589, 24 hours a day, seven days a week, for hospice claims. The following must be included in the request:

- Pharmacy name, address and NCPDP number
- PCN
- Prescription number
- Drug name, strength and NDC
- Date of initial fill and quantity of fill
- Relevant documentation that supports the MAC is below the cost available to the pharmacy
- Any other supporting documentation as needed

Humana will respond to the network pharmacy's request within five business days of receipt by Humana. In the event the MAC appeal is denied, Humana will provide the reason for the denial and will identify an NDC for the prescription drug product at or below the current MAC price. If the MAC request is approved, Humana will adjust the MAC price to the date of the disputed claim(s). The pharmacy is responsible for the resubmission of the claim and for collecting and/or refunding any copayment amount. **Please note:** Timelines may vary state to state and are subject to change.

Pharmacy's process for filing a complaint

Pharmacy complaints and disputes

SS&C Health system issues

All pharmacies contracted with Humana are encouraged to call the SS&C Health help desk at **866-211-9459** (Humana), **800-865-8715** (iCare) or **1-800-865-4034** (CarePlus) for any question or complaint related to a system issue or claims transaction. SS&C Health has a dedicated telephone

support unit that provides guidance for calls related to pharmacy claims. All issues that cannot be addressed or resolved by SS&C Health are forwarded to the Pharmacy Networks department for research and resolution at **888-204-8349**.

Pharmacy initiative inquiries

Humana has a dedicated HCPR telephone support unit that provides support for pharmacy inquiries and complaints related to specific corporate pharmacy management initiatives. Any specific initiative question that cannot be answered by the HCPR telephone support unit is forwarded to the Pharmacy Networks department for research and resolution at **888-204-8349**.

Member complaint system

The section below is taken from Humana's member grievance and appeal procedure as set forth in the Member Handbook. This information is provided so that the pharmacist may assist Humana members in this process if they request assistance. Please contact the pharmacy network contracting representative if the pharmacy has questions about this process.

Humana has representatives who handle complaints, which include all member grievances and appeals. A special set of records is kept with the reason, date and results. These records are kept in the central office.

Member grievances

Member grievances must be filed within 60 days of the occurrence. Direct written grievances to:

Humana Grievances and Appeals
P.O. Box 14165
Lexington, KY 40512-4165
Fax number: **800-949-2961**

When filing a verbal grievance, direct the member to call Customer Service at **800-457-4708**. For members with speech or hearing impairments who use a TTY, call **711**. Hours of operation are Monday – Friday, 8 a.m. – 8 p.m., Eastern time.

A member should include his or her name, address, telephone number, Humana member ID number, the reason for the grievance and any supporting documents. Humana will investigate the grievance and inform the member of the resolution.

Member appeals – Humana and iCare

The member, prescriber or member representative may submit an appeal in writing within 65 calendar days of the date the denial notice is received from Humana or iCare. Options for submitting the appeal (redetermination request) are listed below:

- Download a copy of the appeal form at **Humana.com** and either fax or mail it to Humana. Please include the member's name, address, Humana or iCare member ID number, reason for the appeal, and any supporting documents. Humana or iCare will investigate the appeal and inform the member of the decision. If the member is unable to write an appeal, oral appeals will be accepted.
- For written appeals, Medicare members should use the following:

Humana Grievances and Appeals
P.O. Box 14165
Lexington, KY 40512-4165
Fax number: **855-251-7594**

Using their MyHumana login, Medicare Part D members can file online requests at this link:
Resolutions.Humana.com/grievances-appeals-forms/member-info

For all members, the physician, prescriber or member representative can make the appeal on behalf of the member. The Appointment of Representative form, or an equivalent written notice that includes the same required information in the Appointment of Representative form, must be completed. This form provides permission for another person to act on behalf of the member.

To locate an Appointment of Representative form, the member can call Customer Care at the number on the back of their member ID card, and ask for one or visit Humana's website at **Humana.com/member/documents-and-forms**. Medicare members also can access the form through the Medicare website at **<https://www.cms.gov/Medicare/CMS-Forms/CMS-Forms/downloads/cms1696.pdf>**.

- If the appeal comes from someone besides the member, Humana or iCare must receive the completed Appointment of Representative form before Humana or iCare can review the appeal.
- Please note that, under the Medicare program, the physician or other provider can file an appeal without the Appointment of Representative form.

Resolution for grievance and appeals

If the member has questions concerning a grievance or appeal, direct him or her to the Member Handbook or call Humana or iCare using the number on the back of the member ID card.

CarePlus member appeals

The first level of appeal is a redetermination. Standard redeterminations should be submitted in writing, and expedited redeterminations can be requested verbally or in writing. Both types of redeterminations must be submitted within 65 calendar days from the date of the notice of CarePlus' initial decision.

Send requests to:

CarePlus Health Plans Inc.

Attn: Grievance and Appeals

P.O. Box 14165

Lexington, KY 40512-4165

or

Fax number: **1-888-556-2128**

CarePlus can extend the 65-day time frame for filing a redetermination request if the member has a valid reason for missing the deadline. For a standard redetermination, CarePlus will review the appeal and issue written notification of its decision to the member within seven calendar days after receiving the request. An expedited redetermination can be requested by the member, his or her physician or prescriber, or the member's appointed representative if they believe that waiting for a standard decision (seven days) could seriously jeopardize the member's life, health or ability to regain maximum function. CarePlus will automatically expedite a redetermination if the request is filed by the member's physician or prescriber or if the member has a supporting statement from his or her physician or prescriber indicating why the redetermination must be processed expeditiously.

If the member asks for an expedited redetermination on his or her own without the prescriber's support, CarePlus will decide if his or her health requires an expedited redetermination. To file an expedited redetermination, the member, member-appointed representative or physician may call CarePlus Grievance and Appeals at **1-800-451-4651 (TTY: 711)**, Monday – Friday, 8 a.m. – 8 p.m. The request also may be faxed to **1-877-556-7005**. An expedited redetermination will be decided as expeditiously as the member's health condition requires, but no later than 72 hours from receipt of the request if CarePlus finds that the redetermination should be handled as an expedited request.

Price source and maximum allowable cost information

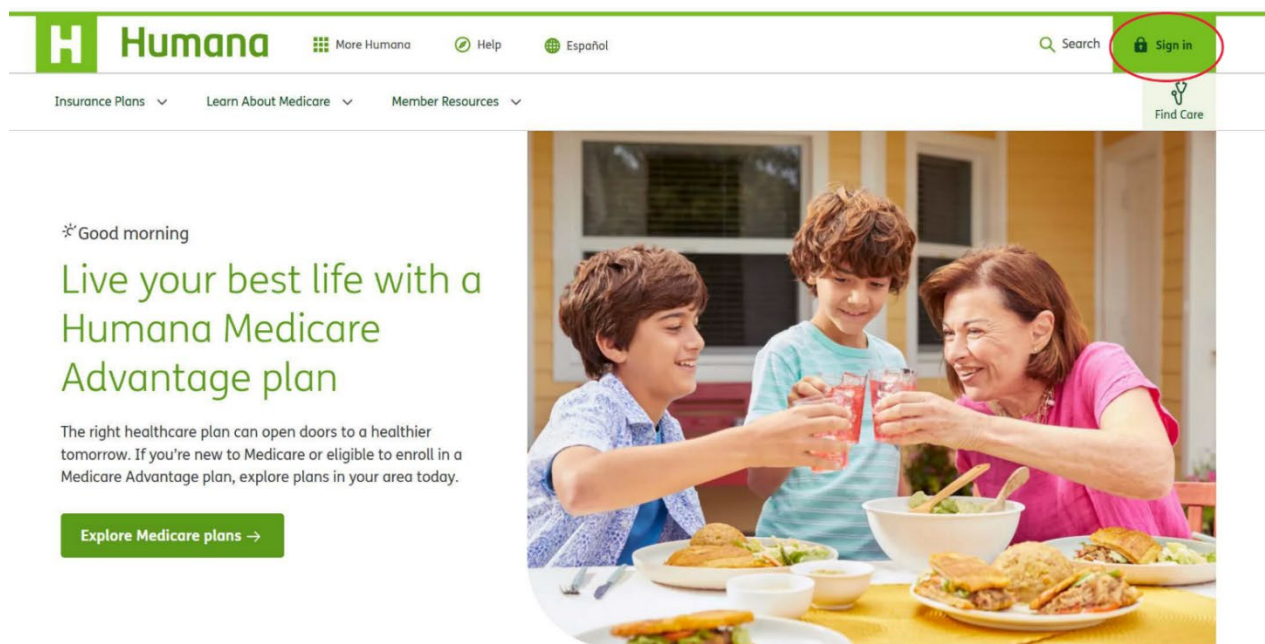

Price source

The national drug pricing source used to determine the average wholesale price of a prescription drug that is not included on the MAC list is Medi-Span.

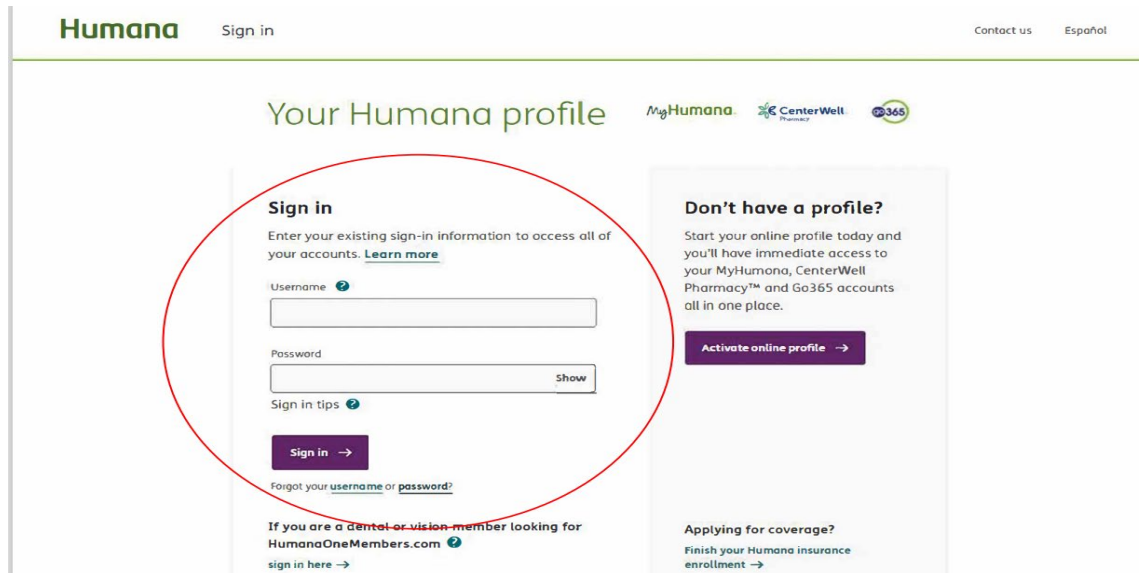

The national drug pricing source used to determine the wholesale acquisition cost of a prescription drug that is not included on the MAC list is First Databank.

Pharmacy maximum allowable cost list location

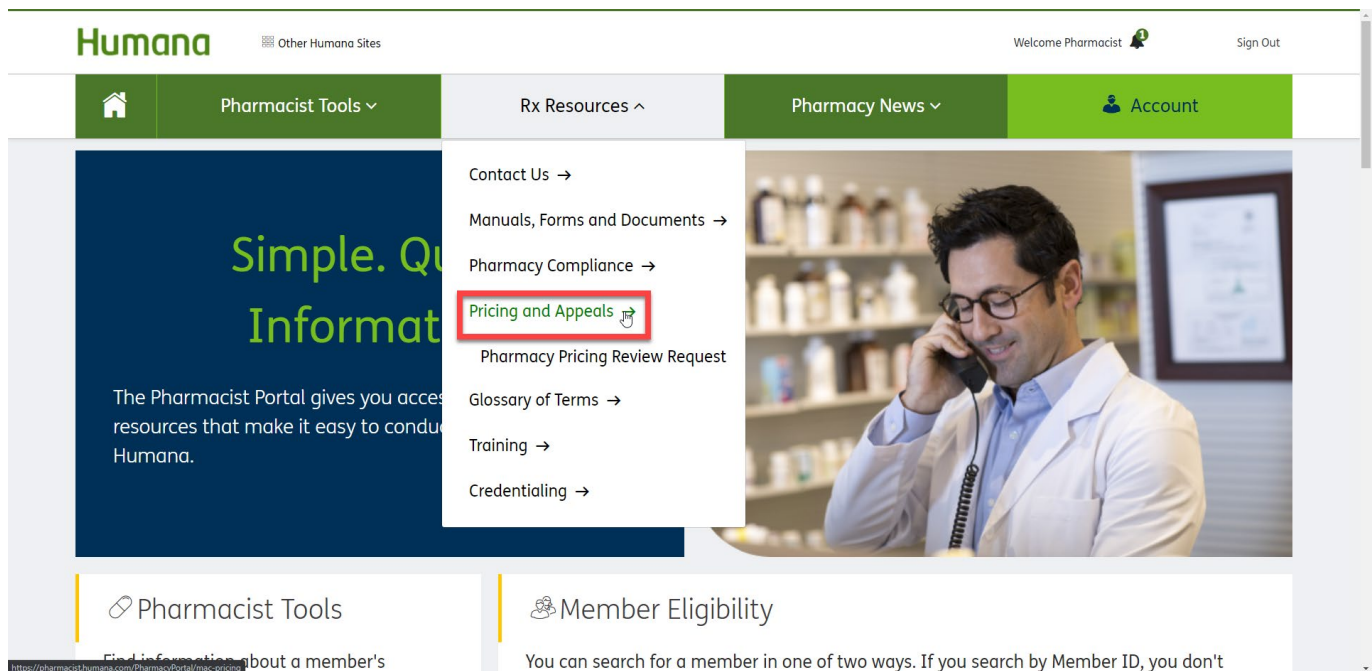

When network pharmacies need to locate the current MAC list, they can follow the steps below at Humana.com. They will see the screen below. Select the “Sign in” button located on the top right corner of the screen.

The pharmacy will then enter the username and password that it set up at the time it contracted with Humana. If the pharmacy is unsure of its username and password, it should email the pharmacy contracting team at PharmacyContracting@humana.com and ask to have the pharmacy’s online portal account reset.

For the current MAC list applicable to the NPI the pharmacy used to register its account, which includes recent updates, select the “Pricing and Appeals” link:

Once the pharmacy selects that link, a MAC search box will appear. Close the box and select the appropriate list from the drop-down menu. The list chosen will show as download only or will load on the page.

A network pharmacy with a pricing dispute should follow the steps below to submit a pricing review form to Humana.

- 1) Select “Pharmacy Pricing Review Request” in the upper right corner.

The screenshot shows the Humana Pharmacist Portal interface. At the top, there is a navigation bar with the Humana logo, 'Other Humana Sites', 'Welcome Pharmacist', and 'Sign Out'. Below this is a main menu with 'Pharmacist Tools', 'Rx Resources', 'Pharmacy News', and 'Account'. The breadcrumb trail reads 'Pharmacist Portal / Rx Resources / Pricing and Appeals'. The main heading is 'Pricing and Appeals'. There is an 'Export Excel File' button and a 'Pharmacy Pricing Review Request' button, which is highlighted with a red rectangular box. Below the heading are several input fields: 'Source List' (a dropdown menu), 'Date of Fill' (a date picker), 'Include inactive price records' (a checkbox), 'Generic Code Number (GCN)', 'NDC Number', and 'Drug Name' (all text input fields), and a 'Search' button.

- 2) The pharmacy must complete all fields in the form below and return it to Humana by selecting the “Submit” button located in the bottom right corner of the form to initiate the dispute process.

The screenshot shows the 'Pharmacy Pricing Review Request' form. At the top, there is a breadcrumb trail 'Pharmacist Portal / Rx Resources / Pharmacy Pricing Review Request' and the title 'Pharmacy Pricing Review Request'. A note states: 'For multiple pricing review requests, please download [excel file](#) and email to pharmacypricingreview@humana.com'. The form contains several input fields: 'Pharmacy Name' (text input with 'CENTERWELL PHARMACY, INC. #02205'), 'Pharmacy NCPDP *' (text input with '1053723'), 'Phone Number *' (text input with '5616166329'), 'Fax Number *' (text input with '5616166365'), 'Email Address *' (text input with 'kdiwan@humana.com'), 'Rx Number *' (text input), 'Add Attachment' (file upload button with 'Choose File' and 'No file chosen'), 'Drug Name *' (text input), 'Date Of Service *' (date picker), 'BIN *' (text input), 'Drug NDC *' (text input), 'PCN *' (text input), and 'Is this a Hospice claim? *' (radio buttons for 'Yes' and 'No'). There is a 'Comments' text area at the bottom. At the bottom right, there is a '+ Add Another Pricing Appeal' link, a 'Cancel' button, and a 'Submit' button, which is highlighted with a red rectangular box.

- 3) When the form is received, Humana will begin the research process and inform the pharmacy by fax or email of the results of the dispute within five business days from the date the form was received.

Medicare Prescription Payment Plan Program

The Medicare Prescription Payment Plan is a new payment option for patients created by the Inflation Reduction Act of 2022. The program allows patients to spread their OOP costs for Medicare Part D-covered drugs throughout the calendar year. This payment option may help patients manage expenses, but it does not save them money or lower their prescription drug costs. Patient participation is voluntary.

Any patient with a Medicare drug plan or Medicare health plan with prescription drug coverage (i.e., MA plan with prescription drug coverage) can opt into the plan for eligible prescriptions.

Claim program information

New Medicare Part D NCPDP approved message codes

- NCPDP Approved Message Code 056 (Beneficiary likely to benefit from Medicare Prescription Payment Plan) will be returned at POS via the NCPDP Approved Message Code field (548-6F) on the Medicare Part D claim response for eligible prescription claims where the patient OOP cost is equal to or greater than the CMS-defined threshold (\$600 as of 2025).
 - Pharmacies are **required** to provide the English language version of the “Medicare Prescription Payment Plan Likely to Benefit Notice” to the Medicare Part D member or their representative upon receipt of this notification. The Spanish language version of the notice should be made available to the patient upon their request.
- NCPDP Approved Message Code 057 (Beneficiary participating in Medicare Prescription Payment Plan) will be returned when the Medicare Part D claim date of service is equal to or greater than the date the member opted into the program.
 - The Medicare Prescription Payment Plan BIN (34Ø-7C), PCN (991-MH), Group ID (992-MJ) and Cardholder ID (356-NU) will be included in the Response Other Payers Segment as the last payer.
- NCPDP Approved Message Code 058 (Beneficiary no longer enrolled/elected not to enroll in Medicare Prescription Payment Plan) will be returned when the patient participated in the Medicare Prescription Payment Plan during the plan year but is no longer participating in the plan.

Submitting claim transactions

Once the patient is participating in the program, the Medicare Prescription Payment Plan will be the last payer to be billed.

- The pharmacy should submit the claim according to the standard order of payer.
 - After the claim has been processed by the last payer, the final patient cost share should be submitted to the program.
- The pharmacy will be required to submit Ø8 (Claim is billing for patient financial responsibility only) in 3Ø8-C8 Other Coverage Code.
- The transaction should be submitted as a Coordination of Benefit (COB) claim.
- The final patient cost share should be submitted in the Other Payer-Patient Responsibility Amount (352-NQ).
 - It is not necessary to submit a transaction when the patient’s cost share is zero.
 - MPPP COB claims submitted with an Other Payer-Patient Responsibility Amount of zero will be denied with the NCPDP Error Code 609: COB CLAIM NOT RQRD PATIENT LIABILITY AMT WAS 0.
- Please see below for BIN/PCN information.
- Humana will reimburse the pharmacy for eligible claims submitted.
- Humana will bill the patient monthly for OOP costs billed to the Medicare Prescription Payment Plan.

Medicare Prescription Payment Plan program information after Medicare Part D claim processed

If the patient opted into the program after receiving the likely to benefit notice and the prescription product has **not** left the pharmacy, the pharmacy will need to:

- Reverse Medicare Part D and subsequent payer transactions
- Resubmit the Part D and subsequent payer transactions
- Submit the transaction to the Medicare Prescription Payment Plan program
 - The DOS (401-D1) needs to be on or after the date the member opts into the program.

BIN and PCN

| Plan | BIN | PCN |
|---|--------|----------|
| Medicare Prescription Payment Plan (Humana and iCare) | 610649 | MPPP7777 |
| CarePlus Medicare Prescription Payment Plan | 610649 | MPPP8888 |

Payer sheet

Direct link to payer sheet:

[https://assets.humana.com/is/content/humana/D.0 Pharmacy Medicare Prescription Payment Plan payer sheetpdf](https://assets.humana.com/is/content/humana/D.0%20Pharmacy%20Medicare%20Prescription%20Payment%20Plan%20payer%20sheet.pdf)

Questions

If pharmacies need more information on the program or other financial assistance program options for members, pharmacy staff or members can visit [Humana.com/RxCostHelp](https://www.humana.com/RxCostHelp).

For additional information, please visit <https://www.medicare.gov/prescription-payment-plan>.

Limited Income NET Program

LI NET is a Medicare program that provides immediate prescription coverage for Medicare beneficiaries who qualify for Medicaid or Extra Help and have no prescription drug coverage.

Please keep these details about LI NET in mind:

- Qualifying patients must be eligible for Medicare Part D and either Medicaid, Extra Help or Supplemental Security Income.
- The program provides immediate prescription coverage at the pharmacy, and enrollment is processed by claim submission.
- There are limited pharmacy network restrictions.
- There are no premiums.
- Coverage usually lasts about two months.
- Retroactive reimbursement may be available for OOP expenses.

Beneficiaries are enrolled in the LI NET program in one of four ways:

- Automatically enrolled: periodic enrollments by CMS
- Point of sale: enrollment by claim submission
- Retroactive: reimbursement request

- LI NET enrollment form:
[https://assets.humana.com/is/content/humana/LI%20NET_Enrollment_Form_ENG%20\(003\).pdf](https://assets.humana.com/is/content/humana/LI%20NET_Enrollment_Form_ENG%20(003).pdf)

Confirming eligibility

LI NET eligibility can be confirmed by submitting an E1 query (Eligibility Transaction).

| E1 results | Status | Action |
|---|--|--|
| Contract ID X0001 | Patient currently enrolled in LI NET | Submit claim to LI NET using 4Rx data |
| No plan information LICS/Extra Help = YES | Patient may be eligible for LI NET— not yet enrolled | Submit claim to LI NET using 4Rx data |
| No plan information LICS/Extra Help = NO | Patient not eligible for LI NET | Refer patient to 1-800-MEDICARE (633-4227) |
| Plan BIN/PCN number | Patient is enrolled in a Medicare Part D plan | Submit claim to plan using 4Rx data |
| Plan phone number | Patient is enrolled in a Medicare Part D plan/issues | Call phone number provided |

Claim submission information

Please submit electronic pharmacy claims with the following information:

| BIN | PCN | Group ID | Cardholder ID | Optional field: Patient ID |
|--------|----------|-------------------|-----------------|---------------------------------------|
| 015599 | 05440000 | May be left blank | Medicare number | Medicaid ID or Social Security number |

How a beneficiary can request retroactive reimbursement:

- Complete the Direct Member Reimbursement form at [Humana.com/member/medicare-linet-beneficiary-resources](https://www.humana.com/member/medicare-linet-beneficiary-resources).
- Attach a copy of the receipt or printout from the pharmacy and proof of payment.
- Please mail or fax the completed form with receipt to:
LI NET
P.O. Box 14310
Lexington, KY 40512-4310
Fax number: **877-210-5592**

Questions

For help and information, please call the LI NET help desk at **800-783-1307**.

Appendix: Medicare Prescription Drug Coverage and Your Rights

CMS requires network pharmacies to distribute the “Medicare Prescription Drug Coverage and Your Rights” notice to beneficiaries. This notice advises Medicare beneficiaries of their rights to contact their plans to obtain a coverage determination or request an exception if they disagree with the information provided by the pharmacist. Information is available at:

<https://www.cms.gov/Medicare/Appeals-and-Grievances/MedPrescriptDrugApplGriev/PlanNoticesAndDocuments>.

Printing the pharmacy notice on prescription label stock or an integrated prescription receipt is permitted, so long as the notice is provided in at least 12-point font. Electronic distribution of the notice is permitted if the enrollee or the enrollee’s appointed representative has provided an email address and has indicated a preference for that method of communication.

Home Infusion Pharmacies must distribute the “Medicare Prescription Drug Coverage and Your Rights” notice to enrollee electronically, by fax, in person or by first-class mail as expeditiously as the enrollee’s health condition requires, but no later than 72 hours from the pharmacy’s receipt of the original transaction response indicating the claim is not covered by Part D.

CMS requires that LTC pharmacies contact the prescriber or an appropriate staff person at the LTC facility to resolve the matter. If the matter cannot be resolved, the pharmacy must provide an appropriate staff person at the LTC facility, enrollee’s representative, prescriber or the enrollee the “Medicare Prescription Drug Coverage and Your Rights” notice as expeditiously as the enrollee’s health condition requires, but no later than 72 hours from the pharmacy’s receipt of the original transaction response indicating the claim is not covered by Part D.

Note: If the enrollee is a self-pay resident and the pharmacy cannot fill the prescription under the Part D benefit, the pharmacy must, upon receipt of the transaction response, fax or otherwise deliver the notice to the enrollee, enrollee’s representative, prescriber or an appropriate staff person at the LTC facility. After distribution of the notice, the LTC pharmacy should continue to work with the prescriber or facility to resolve the matter and ensure the resident receives the needed medication or an appropriate substitute.

Enrollee name: _____(optional)

Drug and prescription number: _____(optional)

Medicare Drug Coverage and Your Rights

You have the right to ask for a coverage determination from your Medicare drug plan to provide or pay for a drug you think should be covered, provided, or continued. You also have the right to ask for a special type of coverage determination called an **“exception”** if you:

- Need a drug that’s not on your plan’s list of covered drugs
- Believe a coverage rule (like prior authorization or a quantity limit) shouldn’t apply to you for medical reasons
- Need to take a non-preferred drug and you want the plan to cover the drug at a preferred drug price

How to ask for a coverage determination

To ask for a coverage determination, you or your prescriber can call your Medicare drug plan’s toll-free phone number on the back of your plan membership card, or go to your plan’s website. You can ask for an expedited (24 hour) decision if your health could be seriously harmed by waiting up to 72 hours for a decision.

Be ready to tell your Medicare drug plan:

- The name of the prescription drug, including dose and strength (if known)
- The name of the pharmacy that tried to fill the prescription
- The date you tried to fill the prescription
- If you ask for an exception, your prescriber will need to explain why you need the off-formulary or non-preferred drug, or why a coverage rule shouldn’t apply to you

Your Medicare drug plan will send you a written decision. If coverage isn’t approved and you disagree with this decision, you have the right to appeal. The plan’s notice will explain why coverage was denied and how to ask for an appeal.

Get help and more information

Look at your plan materials or call 1-800-MEDICARE (1-800-633-4227) for more information about how to ask for a coverage determination. TTY users can call 1-877-486-2048. For help contacting your plan, call 1-800-MEDICARE.

To get this form in an accessible format (like large print, Braille, or audio) contact your Medicare drug plan. You also have the right to file a complaint if you feel you've been discriminated against. Visit [Medicare.gov/about-us/accessibility-nondiscrimination-notice](https://www.medicare.gov/about-us/accessibility-nondiscrimination-notice), or call 1-800-MEDICARE (1-800-633-4227) for more information. TTY users can call 1-877-486-2048.

PRA Disclosure Statement According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-0975. This information collection is used to provide notice to enrollees about how to contact their Part D plan to request a coverage determination. The time required to complete this information collection is estimated to average 1 minute per response, including the time to review instructions, search existing data resources, gather the data needed, to review and complete the information collection. This information collection is required under § 423.562(a)(3) and an associated regulatory provision at § 423.128(b)(7)(iii). If you have comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: CMS, 7500 Security Boulevard, Attn: PRA Reports Clearance Officer, Mail Stop C4-26-05, Baltimore, Maryland 21244-1850.

Cobertura de medicamentos de Medicare y sus derechos

Tiene derecho a solicitar una determinación de cobertura a su plan de medicamentos de Medicare para que le proporcionen o paguen un medicamento que usted cree que debe cubrirse, proporcionarse o continuarse. También tiene derecho a solicitar un tipo especial de determinación de cobertura llamada **“excepción”** si usted:

- Necesita un medicamento que no figura en la lista de medicamentos cubiertos de su plan.
- Considera que una norma de cobertura (como una autorización previa o un límite de cantidad) no debería aplicarse en su caso por razones médicas.
- Necesita tomar un medicamento no preferido y desea que el plan cubra el medicamento al precio de uno preferido.

Cómo solicitar una determinación de cobertura

Para solicitar una determinación de cobertura, usted o su médico pueden llamar al número de teléfono gratuito de su plan de medicamentos de Medicare que se indica en el reverso de su tarjeta de miembro del plan, o ir a la página web de su plan. Puede solicitar una decisión acelerada (en 24 horas) si su salud puede verse gravemente perjudicada por la espera de hasta 72 horas.

Esté preparado para informar a su plan de medicamentos de Medicare:

- El nombre del medicamento recetado, incluida la dosis y la potencia (si se conocen)
- El nombre de la farmacia en la que intentó surtir la receta
- La fecha en que intentó surtir la receta
- Si solicita una excepción, el médico deberá explicar por qué necesita un medicamento fuera del formulario o no preferido, o por qué no se le debe aplicar una norma de cobertura.

Su plan de medicamentos de Medicare le enviará una decisión por escrito. Si no se aprueba la cobertura y usted no está de acuerdo con esta decisión, tiene derecho a apelar. El aviso del plan le explicará por qué le denegaron la cobertura y cómo solicitar una apelación.

Obtenga ayuda y más información

Consulte los materiales de su plan o llame al 1-800-MEDICARE (1-800-633-4227) para obtener más información sobre cómo solicitar una determinación de cobertura. Los usuarios de TTY pueden llamar al 1-877-486-2048. Si necesita ayuda para comunicarse con su plan, llame al 1-800-MEDICARE.

Para obtener este formulario en un formato accesible (como letra grande, Braille o audio) comuníquese con su plan de medicamentos de Medicare. También tiene derecho a presentar una queja si considera que se le ha discriminado. Visite [Medicare.gov/about-us/accessibility-nondiscrimination-notice](https://www.Medicare.gov/about-us/accessibility-nondiscrimination-notice), o llame al 1-800-MEDICARE (1-800-633-4227) para solicitar más información. Los usuarios de TTY pueden llamar al 1-877-486-2048.

Declaración sobre la Ley para la Reducción de Trámites De acuerdo con la Ley para la Reducción de Trámites (PRA) de 1995, ninguna persona está obligada a responder una recopilación de información a menos que esta muestre un número de control válido de la Oficina de Administración y Presupuesto (OMB). Se trata de una encuesta nacional que se realizará entre consumidores que actualmente tienen seguro médico a través del Mercado de Seguros Médicos o que no tienen seguro, y entre personas que actualmente tienen Medicare. La encuesta está diseñada para examinar la confianza en la toma de decisiones de atención médica, la confianza en la capacidad de comprender conceptos clave de los seguros médicos, el conocimiento de los seguros médicos y la toma de decisiones sobre los seguros médicos específicamente en relación con el Mercado de Seguros Médicos y Medicare. Las respuestas de las secciones de confianza y conocimiento de los seguros médicos se utilizarán para darnos una idea de cómo la educación sobre los seguros médicos afecta las decisiones sobre estos. El número de control válido de la OMB para esta recopilación de información es 0938-0975. El tiempo necesario para completar esta recopilación de información voluntaria y no confidencial es de aproximadamente 1 minuto en promedio por encuesta, incluido el tiempo para revisar las instrucciones, buscar fuentes de datos existentes, reunir los datos necesarios, y completar y revisar la recopilación de información. Si tiene preguntas sobre la precisión de los tiempos estimados o sugerencias para mejorar este formulario, escriba a: CMS, 7500 Security Boulevard, Attn: PRA Reports Clearance Officer, Mail Stop C4-26-05, Baltimore, Maryland 21244-1850.
