## Good health starts with a healthy mouth

#### Make dental visits a priority

One of the first lines of defense in overall health is dental care. Regular dental cleanings can help manage problems throughout the body, such as heart disease, diabetes, and stroke. The HumanaDental DHMO/Prepaid plan enables you to take better care of your teeth, and you'll pay less for your dental care doing so.

#### Go to MyDentalIQ.com

Take a health risk assessment that immediately rates your dental health knowledge. You'll receive a personalized action plan with health tips. You can print a copy of your scorecard to discuss with your dentist at your next visit.

# Tips to ensure a healthy mouth

- Choose toothpaste with fluoride
- Brush for at least two minutes twice a day

The HumanaDental DHMO/Prepaid plans focus on maintaining oral health, prevention and cost-containment. Members may see a primary care dentist as often as necessary. There are no yearly maximums, no deductibles to meet and no waiting periods. HS plans copayments for listed procedures are applicable only at either a participating general dentist or participating specialist.

A primary care dentist (PCD) may decide that a member needs to see a contracted dental specialist. No referral is necessary to see a network specialist.

**Specialists services:** Should members need a specialist, (i.e., endodontist, oral surgeon, periodontist, pediatric dentist), they may be referred by a participating general dentist, or members can self-refer to any participating specialist. Visit **Humana.com** to find a participating specialist.

#### **Summary of services**

Services marked with a single asterisk (\*) below also require separate payment of laboratory charges. The laboratory charges must be paid to the plan dentist in addition to any applicable copayment for the service.
