Humana[®]

Welcome to The Humana Medicare Employer Plan!

Note to existing members: This Formulary has changed since last year. Please review this document to make sure that it still contains the drugs you take. When this Drug List (Formulary) refers to “we,” “us”, or “our,” it means Humana. When it refers to “plan” or “our plan”, it means the Humana Medicare Employer Plan. This document includes a Drug List (formulary) for our plan which is current as of April 2025. For an updated Drug List (formulary), please contact us. Our contact information, along with the date we last updated the Drug List (formulary), appears on the front and back cover pages.

You must generally use network pharmacies to use your prescription drug benefit. Benefits, formulary, pharmacy network, and/or copayments/coinsurance may change on January 1 of each year, and from time to time during the year.

What is the Humana Medicare Employer formulary?

In this document, we use the terms Drug List and formulary to mean the same thing. A formulary is the entire list of covered drugs or medicines selected by the Humana Medicare Employer Plan. The terms formulary and Drug List may be used interchangeably throughout communications regarding changes to your pharmacy benefits. The Humana Medicare Employer Plan worked with a team of doctors and pharmacists to make a formulary that represents the prescription drugs we think you need for a quality treatment program. The Humana Medicare Employer Plan will generally cover the drugs listed in the formulary as long as the drug is medically necessary, the prescription is filled at a Humana Medicare Employer Plan network pharmacy, and other plan rules are followed. For more information on how to fill your medicines, please review your Evidence of Coverage.

If you are thinking about enrolling in a Humana Medicare Employer Plan and need help or information, call the Group Medicare Customer Care number listed in your enrollment materials. If you are a current member, call the number listed in your Annual Notice of Change (ANOC) or Evidence of Coverage (EOC), or call the number on the back of your Humana member identification card Monday through Friday from 8 a.m. - 9 p.m., Eastern time (5 a.m. - 9 p.m., Pacific time). Our automated phone system is available after hours, weekends, and holidays.

Can the formulary change?

Most changes in drug coverage happen on January 1, but we may add or remove drugs on the formulary during the year, move them to different cost sharing tiers, or add new restrictions. We must follow Medicare rules in making these changes. Updates to the formulary are posted monthly to our website here:

[Humana.com/medicaredruglist](https://www.humana.com/medicaredruglist).

Changes that can affect you this year: In the below cases, you will be affected by coverage changes during the year:

- **Immediate substitutions of certain new versions of brand name drugs and original biological products.** We may immediately remove a drug on our formulary if we are replacing it with a certain new version of that drug that will appear on the same or lower cost-sharing tier and with the same or fewer restrictions. When we add a new version of a drug to our formulary, we may decide to keep the brand name drug or biological product on our formulary, but immediately move it to a different cost-sharing tier or add new restrictions.

We can make these immediate changes only if we are adding a new generic version of a brand name drug, or adding certain new biosimilar versions of an original biological product, that was already on the formulary (for example, adding an interchangeable biosimilar that can be substituted for an original biological product by a pharmacy without a new prescription).

If you are currently taking the brand name drug or biological product, we may not tell you in advance before we make an immediate change, but we will later provide you with information about the specific change(s) we have made.

If we make such a change, you or your prescriber can ask us to make an exception and continue to cover for you

the drug that is being changed. For more information, see the section below titled “How do I request an exception to the Humana Formulary?”

Some of these drug types may be new to you. For more information, see the section below titled “What are original biological products and how are they related to biosimilars?”

- **Drugs removed from the market.** If a drug is withdrawn from sale by the manufacturer or the Food and Drug Administration (FDA) determines to be withdrawn for safety or effectiveness reasons, we may immediately remove the drug from our formulary and later provide notice to members who take the drug.
- **Other changes.** We may make other changes that affect members currently taking a drug. For instance, we may remove a brand name drug from the formulary when adding a generic equivalent or remove an original biological product when adding a biosimilar. We may also apply new restrictions to the brand name drug or original biological product, or move it to a different cost-sharing tier, or both. We may make changes based on new clinical guidelines. If we remove drugs from our formulary, or add prior authorization, quantity limits and/or step therapy restrictions on a drug, or move a drug to a higher cost-sharing tier, we must notify affected members of the change at least 30 days before the change becomes effective. Alternatively, when a member requests a refill of the drug, they may receive a 30-day supply of the drug and a notice of the change.

We will notify members who are affected by the following changes to the formulary:

- When a drug is removed from the formulary.
- When prior authorization, quantity limits, or step-therapy restrictions are added to a drug or made more restrictive.
- When a drug is moved to a higher cost sharing tier.

If we make these other changes, you or your prescriber can ask us to make an exception and continue to cover the drug you have been taking. The notice we provide you will also include information on how to request an exception, and you can also find information in the section below titled “How do I request an exception to the Humana Formulary?”

Changes that will not affect you if you are currently taking the drug. Generally, if you are taking a drug on our 2025 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2025 coverage year except as described above. This means these drugs will remain available at the same cost sharing and with no new restrictions for those members taking them for the remainder of the coverage year. You will not get direct notice this year about changes that do not affect you. However, on January 1 of the next year, such changes would affect you, and it is important to check the formulary for the new benefit year for any changes to drugs.

What if you are affected by a Drug List change?

We will notify you by mail at least 30 days before one of these changes happen or we will provide a 30-day refill of the affected medicine with notice of the change.

The enclosed formulary is current as of April 2025. To get updated information about the drugs covered by Humana please contact us. Our contact information appears on the front and back cover pages.

How do I use the Formulary?

There are two ways to find your drug in the formulary:

Medical condition

The formulary starts on page 11. We have put the drugs into groups depending on the type of medical conditions that they are used to treat. For example, drugs that treat a heart condition are listed under the category "Cardiovascular Agents." If you know what medical condition your drug is used for, look for the category name in the list that begins on page 11. Then look under the category name for your drug. The formulary also lists the Tier and Utilization Management Requirements for each drug (see page 6 for more information on Utilization Management Requirements).

Alphabetical listing

If you are not sure what category to look under, you should look for your drug in the Index that begins on page 190. The Index provides an alphabetical list of all of the drugs included in this document. Both brand name drugs and generic drugs are listed in the Index. Look in the Index and find your drug. Next to each drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of the drug in the first column of the list.

What are generic drugs?

Humana covers both brand name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand name drug. Generally, generic drugs work just as well as and usually cost less than brand name drugs. There are generic drug substitutes available for many brand name drugs. Generic drugs usually can be substituted for the brand name drug at the pharmacy without needing a new prescription, depending on state laws.

What are original biological products and how are they related to biosimilars?

On the formulary, when we refer to drugs, this could mean a drug or a biological product. Biological products are drugs that are more complex than typical drugs. Since biological products are more complex than typical drugs, instead of having a generic form, they have alternatives that are called biosimilars. Generally, biosimilars work just as well as the original biological product and may cost less. There are biosimilar alternatives for some original biological products. Some biosimilars are interchangeable biosimilars and, depending on state laws, may be substituted for the original biological product at the pharmacy without needing a new prescription, just like generic drugs can be substituted for brand name drugs.

- For discussion of drug types, please see the Evidence of Coverage, Chapter 5, Section 3.1, "The 'Drug List' tells which Part D drugs are covered" if you have a Medicare Advantage plan. If you have a Prescription Drug Plan (PDP), please see the Evidence of Coverage, Chapter 3, Section 3.1, "The 'Drug List' tells which Part D drugs are covered". The type of plan can be found at the top of your Evidence of Coverage.

Prescription drugs are grouped into one of five tiers.

The Humana Medicare Employer Plan covers both brand-name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand-name drug. Generally, generic drugs cost less than brand-name drugs.

- **Tier 1 - Preferred Generic:** Generic or brand drugs that are available at the lowest cost share for the plan
- **Tier 2 - Generic:** Generic or brand drugs that the plan offers at a higher cost to you than Tier 1 Preferred Generic drugs
- **Tier 3 - Preferred Brand:** Generic or brand drugs that the plan offers at a lower cost to you than Tier 4 Non-Preferred drugs
- **Tier 4 - Non-Preferred Drug:** Generic or brand drugs that the plan offers at a higher cost to you than Tier 3 Preferred Brand drugs
- **Tier 5 - Specialty Tier:** Some injectables and other high-cost drugs

How much will I pay for covered drugs?

The Humana Medicare Employer Plan pays part of the costs for your covered drugs and you pay part of the costs, too.

The amount of money you pay depends on:

- Which tier your drug is on
- Whether you fill your prescription at a network pharmacy
- Your current drug payment stage - please read your Evidence of Coverage (EOC) for more information

If you qualified for extra help with your drug costs, your costs may be different from those described above. Please refer to your Evidence of Coverage (EOC) or call Group Medicare Customer Care to find out what your costs are.

Are there any restrictions on my coverage?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization (PA):** The Humana Medicare Employer Plan requires you to get prior authorization for certain drugs. This means that you will need to get approval from the Humana Medicare Employer Plan before you fill your prescriptions. If you do not get approval, the Humana Medicare Employer Plan may not cover the drug.
- **Quantity Limits (QL):** For certain drugs, the Humana Medicare Employer Plan limits the amount of the drug that is covered. The Humana Medicare Employer Plan might limit how many refills you can get or how much of a drug you can get each time you fill your prescription. For example, if it is normally considered safe to take only one pill per day for a certain drug, we may limit coverage for your prescription to no more than one pill per day. Some drugs are limited to a 30-day supply regardless of tier placement.
- **Step Therapy (ST):** In some cases, the Humana Medicare Employer Plan requires that you first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, the Humana Medicare Employer Plan may not cover Drug B unless you try Drug A first. If Drug A does not work for you, the Humana Medicare Employer Plan will then cover Drug B.
- **Part B versus Part D (BvsD):** Some drugs may be covered under Medicare Part B or Part D, depending upon the circumstances. Information may need to be submitted to the Humana Medicare Employer Plan that describes the use and the place where you receive and take the drug so a determination can be made.

For drugs that need prior authorization or step therapy, or drugs that fall outside of quantity limits, your health care provider can fax information about your condition and need for those drugs to the Humana Medicare Employer Plan at **1-877-486-2621**. Representatives are available Monday - Friday, 8 a.m. - 8 p.m. (EST).

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on page 11.

You can also get more information about the restrictions applied to specific covered drugs by visiting **[Humana.com/medicaredruglist](https://www.humana.com/medicaredruglist)**. We have posted online documents that explain our prior authorization and step therapy restrictions. You may also ask us to send you a copy. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You can ask the Humana Medicare Employer Plan to make an exception to these restrictions, limits or for a list of other, similar drugs that may treat your health condition. See the section "**How do I request an exception to the Humana Formulary?**" on page 7 for information about how to request an exception.

What if my drug is not on the Formulary?

If your drug is not included in this formulary (list of covered drugs), you should first contact Humana Medicare Employer Plan Customer Care and ask if your drug is covered. For more information, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

If you learn that Humana Medicare Employer Plan does not cover your drug, you have two options:

- You can ask Group Medicare Customer Care for a list of similar drugs that are covered by Humana Medicare Employer Plan. When you receive the list, show it to your doctor and ask them to prescribe a similar drug that is covered by the Humana Medicare Employer Plan.
- You can ask the Humana Medicare Employer Plan to make an exception and cover your drug. See below for information about how to request an exception.

How do I request an exception to the Humana Formulary?

You can ask the Humana Medicare Employer Plan to make an exception to the coverage rules. There are several types of exceptions that you can ask us to make.

- **Formulary exception:** You can ask us to cover a drug even if it is not on our formulary. If approved, this drug will be covered at a pre-determined cost-sharing level, and you would not be able to ask us to provide the drug at a lower cost-sharing level.
- **Utilization restriction exception:** You can ask us to waive a coverage restriction including prior authorization, step therapy, or a quantity limit on your drug. For example, for certain drugs, Humana Group Medicare Plan limits the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover a greater amount.
- **Tier exception:** You can ask us to cover a formulary drug at lower cost-sharing level unless the drug is on the specialty tier. If approved, this would lower the amount you must pay for your drug.

Generally, the Humana Medicare Employer Plan will only approve your request for an exception if the alternative drugs included on the plan's formulary, the lower cost sharing drug, or applying the restriction would not be as effective for you and/or would cause you to have adverse effects.

You or your prescriber should contact us to ask for a tiering or formulary exception, including an exception to a coverage restriction. **When you request an exception, your prescriber will need to explain the medical reasons why you need the exception.** Generally, we must make our decision within 72 hours of getting your prescriber's supporting statement. You can ask for an expedited (fast) decision if you believe, and we agree, that your health could be seriously harmed by waiting up to 72 hours for a decision. If we agree, or if your prescriber asks for a fast decision, we must give you a decision no later than 24 hours after we get your prescriber's supporting statement.

What can I do if my drug is not on the formulary or has a restriction?

As a new or continuing member in our plan you may be taking drugs that are not on our formulary. Or, you may be taking a drug that is on our formulary but has a coverage restriction, such as prior authorization. You should talk to your prescriber about requesting a coverage decision to show that you meet the criteria for approval, switching to an alternative drug that we cover, or requesting a formulary exception so that we will cover the drug you take. While you and your doctor determine the right course of action for you, we may cover your drug in certain cases during the first 90 days you are a member of our plan.

For each of your drugs that is not on our formulary or has a coverage restriction, we will cover a temporary 30-day supply. If your prescription is written for fewer days, we'll allow refills to provide up to a maximum 30 day supply of medication. If coverage is not approved, after your first 30-day supply, we will not pay for these drugs, even if you have been a member of the plan less than 90 days.

If you are a resident of a long-term care facility and you need a drug that is not on our formulary or if your ability to get your drugs is limited, but you are past the first 90 days of membership in our plan, we will cover a 31-day emergency supply of that drug unless you have a prescription written for fewer days. (in which case we will allow multiple fills to provide up to a total of 31 days of a drug) while you pursue a formulary exception.

Throughout the plan year, your treatment setting (the place where you receive and take your medicine) may change. These changes include:

- Members who are discharged from a hospital or skilled-nursing facility to a home setting
- Members who are admitted to a hospital or skilled-nursing facility from a home setting
- Members who transfer from one skilled-nursing facility to another and use a different pharmacy
- Members who end their skilled-nursing facility Medicare Part A stay (where payments include all pharmacy charges) and who now need to use their Part D plan benefit
- Members who give up Hospice Status and go back to standard Medicare Part A and B coverage
- Members discharged from chronic psychiatric hospitals with highly individualized drug regimens

For these changes in treatment settings, the Humana Medicare Employer Plan will cover as much as a 31-day temporary supply of a Part D-covered drug when you fill your prescription at a pharmacy. If you change treatment settings multiple times within the same month, you may have to request an exception or prior authorization and receive approval for continued coverage of your drug. The Humana Medicare Employer Plan will review requests for continuation of therapy on a case-by-case basis understanding when you are on a stabilized drug regimen that, if changed, is known to have risks.

Transition extension

The Humana Medicare Employer Plan will consider on a case-by-case basis an extension of the transition period if your exception request or appeal has not been processed by the end of your initial transition period. We will continue to provide necessary drugs to you if your transition period is extended.

A Transition Policy is available on Humana's Medicare website, **Humana.com**, in the same area where the Prescription Drug Guides are displayed.

CenterWell Pharmacy™

You may fill your medicines at any network pharmacy. CenterWell Pharmacy – Humana's mail-delivery pharmacy is one option. To get started or learn more, visit **CenterWellPharmacy.com**. You can also call CenterWell Pharmacy at **1-844-222-2151 (TTY: 711)** Monday – Friday, 8 a.m. to 11 p.m. (EST), and Saturday, 8 a.m. to 6:30 p.m. (EST).

Other pharmacies are available in our network.

If you have general questions about Medicare prescription drug coverage, please call Medicare at **1-800-MEDICARE (1-800-633-4227)** 24 hours a day, seven days a week. **TTY** users should call **1-877-486-2048**. You can also visit **www.medicare.gov**.

Humana Medicare Employer Plan Formulary

The formulary that begins on the next page provides coverage information about the drugs covered by the Humana Medicare Employer Plan. If you have trouble finding your drug in the list, turn to the Index that begins on page 190.

Your plan has additional coverage of some drugs. These drugs are not normally covered under Medicare Part D and are not subject to the Medicare appeals process. These drugs are listed separately on page 185.

How to read your formulary

The first column of the chart lists categories of medical conditions in alphabetical order. The drug names are then listed in alphabetical order within each category. Brand-name drugs are CAPITALIZED and generic drugs are listed in lower-case italics. Next to the drug name or Utilization Management column, you may see an indicator to tell you about additional coverage information for that drug. You might see the following indicators:

DL - Dispensing Limit; Drugs that may be limited to a 30 day supply, regardless of tier placement.

MO - Drugs that are typically available through mail-order. Please contact your mail-order pharmacy to make sure your drug is available.

LA - Limited Access; The health plan has authorized certain pharmacies to dispense this medicine, as it requires extra handling, doctor coordination or patient education. Please call the number on the back of your ID card for additional information.

CI - Covered insulin products; Part D insulin products covered by your plan. For more information on cost sharing for your covered insulin products, please refer to your Evidence of Coverage.

AV - Advisory Committee on Immunization Practices (ACIP) Covered Part D vaccines; Part D vaccines recommended by ACIP for adults that may be available at no cost to you; additional restrictions may apply. For more information, please refer to your Evidence of Coverage.

PDS - Preferred Diabetic Supplies; BD and HTL- Droplet are the preferred diabetic syringe and pen needle brands for the plan.

The second column lists the tier of the drug. See page 5 for more details on the drug tiers in your plan.

The third column shows the Utilization Management Requirements for the drug. The Humana Medicare Employer Plan may have special requirements for covering that drug. If the column is blank, then there are no utilization requirements for that drug. The supply for each drug is based on benefits and whether your health care provider prescribes a supply for 30, 60, or 90 days. The amount of any quantity limits will also be in this column (Example: "QL - 30 for 30 days" means you can only get 30 doses every 30 days). See page 6 for more information about these requirements.
