Humana Preferred Drug List
Preferred Drug List, also known as a formulary, is effective on January 1, 2027, unless otherwise stated. This is an all-inclusive list and may change throughout the year.

Definitions:

- Preferred Drug – Covered drug designated as a first choice within a therapeutic class.
- Non-preferred Drug – Non-preferred drugs typically require prior authorization.

What is the Preferred Drug List?
This is a list of preferred drugs that are covered by your plan. You must get them from a pharmacy that works with your plan. You don't have to pay extra for medicines if they are on this list.

How do I use the Preferred Drug List?
Medicines are listed in the Preferred Drug List alphabetically.

Some medicines have two names, a generic name and a brand name. Generic medicines are the same as brand medicines, but they have different names and lower prices. The U.S. Food and Drug Administration (FDA) makes sure that generic medicines are safe and work the same as brand medicines.

- Level x: Drug group known as non-preferred drugs.
- Level 1: Drugs identified as medications that are covered and are also known as preferred drugs.

What if my drug is not on the Comprehensive Drug List?
Some drugs that are not on the list might be covered by your medical plan.

Your doctor can ask Humana® to let you use a drug that is not on the list. For the most part, Humana will approve if the drugs on the list will not work as well or would have a negative effect on your health.

Your doctor can ask Humana to approve it by:

- Faxing the form found at **provider.humana.com/pharmacy-resources/prior-authorizations at 877-486-2621**.
- An online request at **covermymeds.com/epa/Humana**.
- Calling Humana Clinical Pharmacy Review (HCPR) at **800-555-CLIN (800-555-2546)**.

Humana will make a decision based on your health needs within 24 hours after the request from your doctor.

Can the Preferred Drug List change?
Yes. New medicines are added or removed as needed. You will be notified by letter if a medicine you take is removed from the list.

For your drug information:
You can go to **Humana.com** and sign in to MyHumana.
- Look for the "Drug Pricing Tool" under "Tools & Resources" at the bottom of the page.
- Type the name of the medicine or the condition being treated.

Please remember: MyHumana only shows your benefits for today.

Are there any limits on my medicines?
Some drugs may have limits or are not preferred by Humana.

These limits may include:

- Age minimum/age maximum: Some medicines are limited to a specific age.
- Prior authorization (PA): Some medicines need to be approved by your plan to be covered.
- Quantity limits (QL): You may have a limit on the amount of medicine you can get at one time. The limit for each medicine is based on safety or health reasons and how long your doctor wants you to take it (30, 60 or 90 days). These limits help you use medicines the right way. If your prescription is over the limit, there are two choices:
  - You can get the amount of medicine that's covered by your plan, or
  - If your healthcare provider thinks you need more than the amount allowed, they can ask for prior authorization from Humana for the amount of the medicine that is over the limit.
- Step therapy (ST): Before you get a medicine that costs more, you may be asked to try at least one other drug first.

The Preferred Drug List that starts on the next page tells you about some of the medicines that Humana pays for.

How to read the Preferred Drug List
The first column lists drug names. Brand-name drugs are listed in capital letters, and generic drugs are listed in lowercase letters.

OTC: Over-the-counter drugs that are covered with a prescription.

NP: Non-preferred drug.

The second column lists the drug level. Look at page 2 to learn more about the drug levels in your plan.

The third column shows if there are any rules for getting that medicine. Utilization management means there may be requirements for covering that medicine. These can include prior authorization or quantity limits. Look at page 3 to learn more about the drug requirements for your plan.

Humana Healthy Horizons in Illinois is a Medicaid Product of Humana Benefit Plan of Illinois, Inc.
ILHN62REN

Your coverage may include medicines in the following drug classes when your insurance is issued through the state of:

- Illinois: Obesity and infertility
- Michigan: Obesity
- Kansas or Colorado: Infertility
- Indiana: Sexual dysfunction
- Nevada: Hormone replacement therapy

Louisiana residents: If your insurance is issued through the state of Louisana and you pay a percent of the full drug cost, any discounts negotiated directly with a drug manufacturer may have been applied as an offset to your insurance premium instead of at the pharmacy counter. This is defined as an excess consumer cost burden by the state.

Colorado and Kentucky: If your insurance is issued through the state of Colorado or Kentucky, all covered substance use disorder medicines are available with no prior authorization or step therapy requirements.

To get more information around these state-mandated coverages, log in to MyHumana through **Humana.com** or call Customer Care at the number on the back of your Humana ID card.

Contraceptive coverage is subject to your employer's coverage selections. For more information, log in to MyHumana through **Humana.com** or call Customer Care at the number on the back of your Humana ID card.

Your employer's coverage selections may include preventive medicine coverage, available to you before your deductible is met. This preventive medication coverage is based upon guidance issued by the Internal Revenue Service (IRS) for preventive use and is not directly associated with Healthcare Reform (HCR) or Affordable Care Act (ACA) $0 Preventive Medication Coverage. For more information, log in to MyHumana through **Humana.com** or call Customer Care at the number on the back of your Humana ID card.
