Humana Healthy Horizons Preferred Drug List

The Humana Preferred Drug List (also known as a formulary) is effective on Jan. 1, 2026. It includes all covered drugs. The list may change during the year.

What is the Preferred Drug List?

This is a list of medicines that your plan will pay for. You must get them from a pharmacy that works with your plan. You do not have to pay extra for medicines on this list.

How do I use the Preferred Drug List?

Medicines are listed in the Preferred Drug List alphabetically.

Some medicines have two names: a generic name and a brand name. Generic medicines are the same as brand medicines, but at lower prices. The U.S. Food and Drug Administration (FDA) makes sure that generic medicines are safe and work the same as brand medicines.

Prescription drugs are grouped into one of three tiers.
Tiers are a way of categorizing drugs based on their cost. Although the copays are the same, higher tiered drugs may have additional limits like Step Therapy or Prior Authorizations.

- **Tier 1** – This tier includes generic drugs that are usually the least expensive.
- **Tier 2** – This tier includes brand-name drugs and higher-cost generic drugs that are more expensive than Tier 1 drugs.
- **Tier 3** – This tier includes specialty drugs and others that are the most expensive.

Can the Preferred Drug List change?

Yes. New drugs are added or removed as needed. You will be notified by letter if a drug you take is removed from the list.

For your drug information:

Visit **Humana.com** and sign in to MyHumana.

- Look for the "Drug Pricing Tool" under "Tools & Resources" at the bottom of the page.
- Enter the name of your medicine or condition.

Please remember: MyHumana only shows your benefits for that day.

Are there any limits on my drugs?

Some drugs may have limits. Some may be "not preferred."

These limits may include:

- **Prior authorization (PA):** Some drugs need to be approved by your plan to be covered.
- **Quantity limits (QL):** To help you use your medicines the right way, you may have a limit on the amount of medicine you can get at one time. Limits may be based on safety or health reasons or how long your doctor wants you to take it (30, 60, or 90 days). If your prescription is over the limit, there are two choices:
  - You can get the amount of medicine that is covered by your plan, or
  - If your provider thinks you need more than the amount allowed, they can ask for prior authorization for the medicine that is over the limit.
- **Step Therapy (ST):** Before you fill a drug that costs more, you may be asked to try at least one other drug first.

If your doctor feels there is no other covered option, they can call Humana Clinical Pharmacy Review at **1-800-555-2546** to ask for an exception. We reply to these requests within 24 hours.

For more information

To learn more about your Humana drug plan, please review your Member Handbook and other plan materials.

If you are already enrolled in a Humana plan, please call the number on your Humana ID card or go to **MyHumana.com**.

If you want to join a Humana plan, please call the Member Services number listed in your enrollment materials.

The following Preferred Drug List tells you about medicines that Humana pays for.

How to read the Preferred Drug List

The first column lists drug names. Brand-name drugs are listed in uppercase letters, and generic drugs are listed in lower case letters. Over-the-counter (OTC) medicines are available at no cost with a valid prescription.

The second column lists the drug tier. Look at page 2 to learn more about the drug tiers in your plan.

MDO- Medical Drug Only – This drug is only paid for through your medical benefit, not your pharmacy plan. Some of these medical drugs are covered, while others may require a prior authorization. To determine whether prior authorization is needed, refer to the Prior Authorization List (PAL).

The third column shows if there are any rules for getting that drug. Look at page 2 to learn more about the drug limits for your plan.

DRUG NAME	DRUG TIER	UTILIZATION MANAGEMENT REQUIREMENTS	THERAPEUTIC CATEGORY NAME
acetaminophen 120 mg-codeine 12 mg/5 ml (5 ml) oral solution	3	PA,QL(4050 per 30 days)	ANALGESICS
