Humana Medicare Advantage makes it easy to get your dental care

Here are some tips to help you find an in-network dentist and receive dental benefits

Know your network

You have dental benefits through the **HumanaDental Medicare** network. To find an in-network dentist, use Humana's physician finder tool at **Humana.com/FindCare**.

1) Enter your location
2) Select "dental"
3) Choose your dental plan: **HumanaDental Medicare**
4) Narrow the search by name, specialty, or choose "all dental providers"

Know your benefits

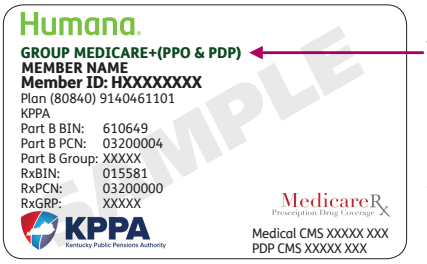

You can access your plan's Evidence of Coverage in your secure member account at **MyHumana.com**. Medicare Advantage dental benefits cover specific procedure codes and coverage is subject to limitations. Your dental benefits are indicated by the DEN + 3 digits on the back of your Medicare Advantage member ID card.

Make your appointment and explain your coverage

When you make an appointment or arrive at the dentist's office say, **"I have dental benefits with my Humana Medicare Advantage plan. The dental benefits are provided by dentists in the HumanaDental Medicare Network."**

Present your card

You won't get—or need—a separate member identification card for your dental benefits. Your Humana Medicare Advantage member ID card contains the information you need.

The front of the ID card displays medical network information only. See the back of the ID card for dental.

The six-character DEN code on the back of the ID card indicates your dental benefits.
