

Humana Healthy Horizons® in Ohio Prior Authorization Notification List (PAL)

The following preauthorization and notification list describes services that are commonly reviewed and may require additional clinical information.

Please note the term “prior authorization” (e.g., precertification, preadmission) refers to a process healthcare provider uses to obtain advance plan approval to cover an item or service.

Notification refers to the process through which a healthcare provider informs Humana of the intent to provide an item or service. Humana requests notification to help coordinate care for Humana-covered patients. Unlike prior authorization, Humana does not issue an approval or denial related to a notification.

Important notes:

Please note that urgent/emergent services do not require referrals or prior authorization.

Observation – Prior authorization is not required; however, notification is requested to assist with discharge planning and follow up with the member for any needs. Observation period cannot last more than three days or 72 hours.

Concurrent Review: Inpatient Status- Providers are required to submit notification of all inpatient admissions within one business day of the date of the admission.

Not obtaining prior authorization for a service could result in financial penalties for the practice and reduced benefits for the patient based on the healthcare provider’s contract and the patient’s evidence of coverage. Services provided without prior authorization or notification may be subject to retrospective medical necessity review. We recommend that an individual practitioner making a specific request for services verify benefits and prior authorization requirements with Humana prior to providing services.

Humana recommends individual practitioners verify a member’s benefits and our prior authorization requirements prior to providing services.

Prior authorization requirements for outpatient therapy services:

- Occupational therapy, physical therapy and speech therapy do not require prior authorization for the first 30 visits.
