Humana Healthy Horizons® in Oklahoma Prior Authorization Notification List (PAL)

The following preauthorization and notification list describes services that are commonly reviewed and may require additional clinical information.

Please note the term "prior authorization" (e.g., precertification, preadmission) refers to a process healthcare provider uses to obtain advance plan approval to cover an item or service.

Notification refers to the process through which a healthcare provider informs Humana of the intent to provide an item or service. Humana requests notification to help coordinate care for Humana-covered patients. Unlike prior authorization, Humana does not issue an approval or denial related to a notification.

To view Humana's Oklahoma specific medical coverage policies, please visit Humana Healthy Horizons in Oklahoma: SoonerSelect Behavioral and physical health Clinical coverage policies.

Important notes:

Please note that urgent/emergent services do not require referrals, notifications or prior authorization.

Observation – Prior authorization is not required; however, notification is requested to assist with discharge planning and follow up with the member for any needs. Observation period cannot last more than three days or 72 hours.

Concurrent Review: Inpatient Status- Providers are required to submit notification of all inpatient admissions within one business day of the date of the admission.

Not obtaining prior authorization or notification for a service could result in financial penalties for the practice and reduced benefits for the patient based on the healthcare provider's contract and the patient's evidence of coverage. Services provided without prior authorization or notification may be subject to retrospective medical necessity review. We recommend that an individual practitioner making a specific request for services verify benefits and prior authorization or notification requirements with Humana prior to providing services.
