

Annual Flu Vaccine

2025–2026 flu season

Humana supports your care by giving your patients the information and reminders they need to safely and easily receive their flu shot each year. There are no out-of-pocket costs for flu vaccinations for Humana Medicare Advantage members when received from in-network providers.

To facilitate correct reimbursement, the appropriate administration, vaccine and diagnosis codes are needed for each vaccination claim.

- The Medicare administration code for influenza vaccination is G0008. M0201 can also be billed if the vaccine was administered in the patient's home and all applicable CMS requirements are met.
- Current Procedural Terminology (CPT®) and Healthcare Common Procedure Coding System (HCPCS) influenza vaccination codes for 2025–2026 can be found below.
- Diagnosis code Z23, encounter for immunization, must be included in one of the first nine positions on the claim.

CPT codes	Long description
90653	Influenza vaccine, inactivated (IIV), subunit, adjuvanted, for intramuscular use
90656	Influenza virus vaccine, trivalent (IIV3), split virus, preservative free, 0.5 mL dosage, for intramuscular use
90657	Influenza virus vaccine, trivalent (IIV3), split virus, 0.25 mL dosage, for intramuscular use
90658	Influenza virus vaccine, trivalent (IIV3), split virus, 0.5 mL dosage, for intramuscular use
90660	Influenza virus vaccine, trivalent, live (LAIV3), for intranasal use
90661	Influenza virus vaccine, trivalent (ccIIV3), derived from cell cultures, subunit, antibiotic free, 0.5 mL dosage, for intramuscular use
90662	Influenza virus vaccine (IIV), split virus, preservative free, enhanced immunogenicity via increased antigen content, for intramuscular use
90673	Influenza virus vaccine, trivalent (RIV3), derived from recombinant DNA, hemagglutinin (HA) protein only, preservative and antibiotic free, for intramuscular use
HCPCS codes	Long description
Q2039	Influenza virus vaccine, not otherwise specified
