Good health starts with a healthy mouth

Make dental visits a priority

One of the first lines of defense in overall health is dental care. Regular dental cleanings can help manage problems throughout the body, such as heart disease, diabetes, and stroke. The HumanaDental DHMO plan enables you to take better care of your teeth, and you'll pay less for your dental care doing so.

HumanaDental DHMO HD215 Plan with Ortho

The HumanaDental DHMO plans focus on maintaining oral health, prevention and cost-containment. Members may see a primary care dentist as often as necessary. There are no yearly maximums, no deductibles to meet and no waiting periods. HD plans copayments for listed procedures are applicable only at a participating general dentist.

Member costs listed here are for services provided by a chosen participating primary care dentist (PCD) only. A PCD may decide that a member needs to see a contracted dental specialist. No referral is necessary to see a network specialist.

Specialists services: Should members need a specialist, (i.e., endodontist, oral surgeon, periodontist, pediatric dentist), they may be referred by a participating general dentist, or members can self-refer to any participating specialist. For HD plans, and benefits for procedures not listed on the schedule, members may receive up to a 25 percent discount by visiting certain participating specialists. Visit **Humana.com** to find a participating specialist.
