

Pharmacy News Bulletin: Limited Income NET (LI NET) Program –

NOTICE TO PHARMACIES: LI NET has an open formulary. However, Medicare Part D does not cover drugs or classes of drugs (or their medical uses) that are excluded from coverage or otherwise restricted by federal law. Examples of excluded medications are listed below. In addition, up to a 30-day supply per fill is available for opioids, benzodiazepines and covered specialty drugs. This includes, but is not limited to, injectables and other high-cost drugs used to treat chronic or complex illnesses, such as rheumatoid arthritis and cancer. Residents in long-term care facilities can receive up to a 31-day supply per fill.

Medicare Part D-excluded drugs	
• Adipex-P, Suprenza (phentermine)	• Qsymia (phentermine and topiramate)
• Belviq (lorcaserin)	• Regimex (benzphetamine)
• Bontril PDM (phendimetrazine)	• Staxyn (vardenafil)
• Didrex (benzphetamine)	• Stendra (avanafil)
• diethylpropion	• Viagra (sildenafil)
• Latisse (bimatoprost)	• Xenical (orlistat)
• Levitra (vardenafil)	

The following medication classes, categories, or drugs and related compounds require a valid diagnosis prior to payment in order to confirm the drug is used for a covered Part D medically accepted indication.

Indication-based authorization required	
• Adlyxin (lixisenatide)	• Olumiant (baricitinib)
• Aduhelm (aducanumab-avwa)	• Osphena (ospemifene)
• Aklied topical cream (trifarotene)	• Oxandrin (oxandrolone)
• Alyq (tadalafil)	• Ozempic (semaglutide)
• Amondys 45 (casimersen)	• Panretin 0.1% topical gel (alitretinoin)
• Ancobon (flucytosine)	• Pennsaid (diclofenac)
• Apretude (cabotegravir)	• Provigil (modafinil)
• Auryxia (ferric citrate)	• Radicava (edaravone)
• Austedo (deutetrabenazine)	• Revatio (sildenafil)
• Austedo XR (deutetrabenazine)	• Ruconest (C1 esterase inhibitor, recombinant)
• Azmiro (testosterone cypionate)	• Renagel (sevelamer HCl)
• Berinert (C1 esterase inhibitor, human)	• Renvela (sevelamer carbonate)
• Botox (botulinum toxin type A)	• Rybelsus (semaglutide)
• Brineura (cerliponase alfa)	• Sajazir (icatibant)
• Briviact (brivaracetam)	• Skytrofa (lonapegsomatropin-tcgd)
• Bydureon (exenatide)	• Sogroya (somapacitan-beco)
• Byetta (exenatide)	• Solaraze (diclofenac 3% gel)
• chorionic gonadotropin	

- calcium acetate (phosphate binder)
- Cialis (tadalafil)
- Cinryze (C1 esterase inhibitor, human)
- Depo-Testosterone (testosterone cypionate)
- diclofenac 1.5% topical solution
- Dysport (botulinum toxin type A)
- Emflaza (deflazacort)
- Entadfi (finasteride/tadalafil)
- Epclusa (sofosbuvir/velpatasvir)
- Evryssi (risdiplam)
- Exondys 51 (eteplirsen)
- fentanyl citrate, transmucosal
- Firazyr (icatibant)
- Fosrenol (lanthanum)
- Haegarda (C1 esterase inhibitor, human)
- Harvoni (ledipasvir/sofosbuvir)
- Hetlioz (tasimelteon)
- Imvexxy (estradiol)
- Increlex (mecasermin)
- Ingrezza (valbenazine)
- Intrarosa (prasterone)
- Juxtapid (lomitapide)
- Kalbitor (ecallantide)
- Kevevis (dichlorophenamide)
- Kisunla (donanemab-azbt)
- Leqembi (lecanemab-irmb)
- lidocaine 5% patch
- Liqrev (sildenafil) oral suspension
- Litfulo (ritlecitinib)
- Lumryz ER (sodium oxybate)
- Mavyret (glecaprevir/pibrentasvir)
- Mounjaro (tirzepatide)
- Myobloc (botulinum toxin type B)
- Namenda (memantine)
- Namenda XR (memantine)
- Ngenla (somatrogon-ghla)
- Nuedexta (dextromethorphan/quinidine)
- Nuvigil (armodafinil)
- Somatropin
- Sovaldi (sofosbuvir)
- Spinraza (nusinersen)
- Stromectol (ivermectin)
- Sunosi (solriamfetol)
- Tadliq (tadalafil)
- Takhzyro (lanadelumab-flyo)
- Targretin 1% topical (bexarotene)
- testosterone enanthate
- testosterone topical
- tretinoin compounds
- Trulicity (dulaglutide)
- Veklury (remdesivir)
- Velphoro (sucroferric)
- Victoza (liraglutide)
- Viekira Pak (ombitasvir/
paritaprevir/ritonavir/dasabuvir)
- Vosevi
(sofosbuvir/velpatasvir/voxilaprevir)
- Vyjuvek (beremagene geperpavec-svdt)
- Vyondys 53 (golodirsen)
- Wakix (pitolisant)
- Wegovy (semaglutide)
- Xenazine (tetrabenazine)
- Xeomin (botulinum toxin type A)
- Xphozah (tenapanor)
- Xuriden (uridine triacetate)
- Xyrem (sodium oxybate)
- Xywav (calcium oxybate/magnesium
oxybate/potassium oxybate/sodium
oxybate)
- Zepatier (elbasvir/grazoprevir)
- ZTlido 1.8% patch

Indication-based authorization required for stimulants containing the following ingredients
