

Medicare Advantage and Dual Eligible Special Needs Plans Prior Authorization and Notification List

We have updated our CarePlus Health Plans Prior Authorization and Notification List for CarePlus Medicare Advantage (MA) and Dual Eligible Special Needs (D-SNP) plans.

Please note the term “prior authorization” (precertification, preadmission), when used in this communication, is defined as a process through which the physician or other healthcare provider is required to obtain advance approval from the plan as to whether an item or service will be covered.

“Notification” refers to the process by which the physician or other healthcare provider notifies CarePlus of the intent to provide an item or service. CarePlus requests notification, as it helps coordinate care for CarePlus-covered patients. This process is distinguished from prior authorization. CarePlus does not issue an approval or denial for notifications.

The list details services and medication (i.e., medications that are delivered in the physician’s office, clinic, outpatient or home setting) that require prior authorization prior to being provided or administered. Services must be provided according to Medicare coverage guidelines established by the Centers for Medicare & Medicaid Services (CMS). According to the guidelines, all medical care, services, supplies and equipment must be medically necessary. You can review Medicare coverage guidelines [on the CMS website](#).

To view Humana’s medical coverage policies, please [visit Humana's Medical and Pharmacy Coverage Policies website](#).

Investigational and experimental procedures and devices usually are not covered benefits. Please consult the patient’s Evidence of Coverage or contact CarePlus for confirmation of coverage.

Important notes:

- **CarePlus Medicare Advantage (MA) health maintenance organization (HMO):** The full list of prior authorization requirements applies to your patients with CarePlus MA HMO coverage.
- For procedures or services that are investigational or experimental (or that may have limited benefit coverage), or for any service not on our prior authorization list (PAL), you can request a predetermination on behalf of the patient prior to providing the service. You may be contacted if additional information is needed.
 - Initiate a predetermination for medical services by submitting a fax or telephone request:
 - Submit by fax: 888-447-3430.
 - When submitting a predetermination request by fax, please write “predetermination” on your request.
 - Submit by calling 866-220-5448, Monday – Friday, 8 a.m. to 5 p.m., Eastern time
 - When requesting a predetermination by phone, please advise CarePlus you’re requesting a “predetermination.”

To prevent disruption of care, CarePlus does not require prior authorization for basic Medicare benefits during the first 90 days of a new member’s enrollment for active courses of treatment that started prior to the enrollment. CarePlus may review the services furnished during that active course of treatment against permissible coverage criteria when determining payment.

Please note that urgent/emergent services do not require referrals or prior authorization.

Not obtaining prior authorization for a service could result in financial penalties for the practice and reduced benefits for the patient based on the healthcare provider's contract and the patient's Evidence of Coverage. Services or medication provided without prior authorization may be subject to retrospective medical necessity review. We recommend that an individual practitioner making a specific request for services or medication verify benefits and prior authorization requirements with CarePlus prior to providing services.

New rule improves the prior authorization process

Effective Jan. 1, 2026, the Centers for Medicare & Medicaid Services (CMS) requires prior authorization decisions within 7 days for requests for medical items/services. Accordingly, supporting clinical information must be submitted at the time of prior authorization requests. Failure to do so may result in a delayed or adverse decision. Adherence to this process should begin immediately.

Information required for a prior authorization request or notification may include, but is not limited to, the following:

- Patient name, date of birth and CarePlus member ID number
- Date of actual service or hospital admission
- Healthcare Common Procedure Coding System (HCPCS) code(s) and diagnosis codes (primary and secondary) (up to a maximum of 6 per authorization request)
- Service location
 - Inpatient (acute hospital, skilled nursing or hospice)
 - Outpatient (telehealth, office, home, off-campus outpatient hospital, on-campus outpatient hospital or ambulatory surgery center)
- Tax Identification Number (TIN), National Provider Identifier (NPI) of facility where service is being rendered, and TIN and NPI number of the provider performing the service
- Caller/requester's name and phone number and attending physician's phone number
- Relevant clinical information

Submitting all relevant clinical information at the time of the request will help expedite the determination. If additional clinical information is required, a CarePlus representative will contact the individual who submitted the prior authorization request and request the specific information needed to complete the authorization process.

How to request prior authorization:

Except where noted by links on the following pages, prior authorization requests for medical services may be initiated: Choose from the following options to submit a request for prior authorization:

- Submit the request on the [Availity Essentials™](#) website.
- Complete the [Health Services Prior Authorization Form](#) and fax it (and a cover sheet) to the appropriate fax number:
 - Broward and Palm Beach counties: 866-832-2678
 - Miami-Dade County: 888-447-3430
 - All other counties: 888-634-3521

To prevent disruption of care, CarePlus does not require prior authorization for basic Medicare benefits during the first 90 days of a new member's enrollment for active courses of treatment that started prior to the enrollment. CarePlus may review the services furnished during that active course of treatment against permissible coverage criteria when determining payment.

- Call the CarePlus Health Plans Utilization Management department at 866-220-5448, Monday – Friday, 8 a.m. to 5 p.m., Eastern time.

Please note: Online prior authorization requests are encouraged. For certain PAL services requested via Availity Essentials™, healthcare providers have an option to complete a questionnaire. Answers to the questionnaire could lead to real-time approval. If approval is not provided immediately, the information on the questionnaire may help CarePlus with the review.

To prevent disruption of care, CarePlus does not require prior authorization for basic Medicare benefits during the first 90 days of a new member's enrollment for active courses of treatment that started prior to the enrollment. CarePlus may review the services furnished during that active course of treatment against permissible coverage criteria when determining payment.

Medicare Advantage and Dual Medicare-Medicaid Plans

Preauthorization and Notification List

Effective Date: July 1, 2026

Revision Date:

Medicare Advantage and Dual Medicare-Medicaid Plan Medication Preauthorization List

To request preauthorization: If the prescription drug is billed, dispensed and administered by a physician’s office, infusion clinic or outpatient facility, please fax the request to 888-447-3430.

If the prescription drug is billed and shipped from a retail pharmacy to a physician’s office or facility, please fax the request to CarePlus Health Plans Pharmacy at 877-486-2621.
