

Formulary changes for Revlimid

CarePlus covers lenalidomide, the generic version of Revlimid®, with a prior authorization and will continue to do so in 2023. Effective Jan. 1, 2023, CarePlus Medicare Advantage prescription drug plans will no longer cover Revlimid. If the generic version is not available at your patient's pharmacy, please include this information in your coverage exception request. We have notified your patients who had a claim for Revlimid in 2022 about this formulary change.

If you have questions about this update, please call 1-866-315-7587, Monday – Friday, 8 a.m. – 8 p.m., Eastern time.
