

## **An important update regarding prescription drug coverage for tropicamide eye drops**

To assist you in the care of your patients, we are notifying you that tropicamide eye drops will be removed from the CarePlus formulary on July 15, 2024. CarePlus has determined that tropicamide eye drops are no longer eligible for Medicare Part D prescription drug coverage.

Sufficient clinical alternatives may not be available on the CarePlus formulary, but we encourage you to use the Drug List formulary search tool on [Drug List Search](#). This tool can help you review appropriate alternatives that are available on the CarePlus formulary.

You also can submit a request for CarePlus to make an exception by CarePlus Pharmacy Utilization Management Unit at 1-866-315-7587, Monday – Friday, 8 a.m. and 8 p.m.

We have sent a letter to your CarePlus-covered patients who have had a claim for tropicamide eye drops to inform them of this midyear formulary change and encourage them to work with their healthcare provider on alternative options.
